(b) Each audio or visual device described under §149.665 for signaling the general alarm.

PUBLIC ADDRESS SYSTEM

§149.675 What are the requirements for the public address system?

(a) For a manned deepwater port, each pumping platform complex must have a public address system operable from two locations on the complex.
(b) For an unmanned deepwater port, the vessel master must provide a working public address system on a vessel while it is moored or otherwise connected to the port.

MEDICAL TREATMENT ROOMS

§149.680 What are the requirements for medical treatment rooms?

Each deepwater port with sleeping spaces for 12 or more persons, including persons in accommodation modules, must have a medical treatment room that has:

(a) A sign at the entrance designating it as a medical treatment room;
(b) An entrance that is wide enough and arranged to readily admit a person on a stretcher;
(c) A single berth or examination table that is accessible from both sides; and
(d) A washbasin located in the room.

§149.685 May a medical treatment room be used for other purposes?

A medical treatment room may be used as a sleeping space if the room meets the requirements of this subpart for both medical treatment rooms and sleeping spaces. It may also be used as an office. However, when used for medical purposes, the room may not be used as a sleeping space or office.

MISCELLANEOUS

§149.690 What are the requirements for means of escape, personnel landings, guardrails, similar devices, and for noise limits?

Each deepwater port must comply with the requirements for means of escape, personnel landings, guardrails and similar devices, and noise limits as outlined in §§149.691 through 149.699.
