§ 169.10

§ 169.10 What geographic coordinates are used?

Geographic coordinates expressed in terms of latitude or longitude, or both, are not intended for plotting on maps or charts where the referenced horizontal datum is the North American Datum of 1983 (NAD 83), unless such geographic coordinates are expressly labeled NAD 83. Geographic coordinates without the NAD 83 reference may be plotted on maps or charts referenced to NAD 83 only after application of the appropriate corrections that are published on the particular map or chart being used.

§ 169.15 Incorporation by reference: Where can I get a copy of the publications mentioned in this part?

(a) Certain material is incorporated by reference into this part with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR part 51. To enforce any edition other than that specified in this section, the Coast Guard must publish notice of change in the Federal Register and the material must be available to the public. All approved material is available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030 or go to http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html. Also, it is available for inspection at the Coast Guard, Office of Navigation Systems (CG–54132), 2100 2nd St. SW., Stop 7581, Washington, DC 20593–7581, and is available from the sources indicated in this section.

(b) International Electrotechnical Commission (IEC) Bureau Central de la Com mission Electrotechnique Internationale, 3 rue de Varembé, P.O. Box 131, 1211 Geneva 20, Switzerland.

(2) [Reserved]

(c) International Maritime Organization (IMO), 4 Albert Embankment, London SE1 7SR, U.K.

(1) IMO Resolution MSC.202(81), adopted on May 19, 2006, Adoption of Amendments to the International Convention for the Safety of Life at Sea, 1974, as Amended, incorporation by reference approved for §169.240.

(2) IMO Resolution MSC.210(81), adopted on May 19, 2006, Performance Standards and Functional Requirements for the Long-Range Identification and Tracking of Ships, incorporation by reference approved for §§169.215 and 169.240.

(3) IMO Resolution MSC.254(83), adopted on October 12, 2007, Adoption of Amendments to the Performance Standards and Functional Requirements for the Long-Range Identification and Tracking of Ships, incorporation by reference approved for §§169.215 and 169.240.

Subpart B—Establishment of Two Mandatory Ship Reporting Systems for the Protection of Northern Right Whales

§ 169.100 What mandatory ship reporting systems are established by this subpart?

This subpart prescribes requirements for the establishment and maintenance of two mandatory ship reporting systems for the protection of the endangered northern right whale (also known as the North Atlantic right whale). These two systems are designated for
certain areas of the East Coast of the United States. One system is located in the northeast and is identified as "WHALESNORTH." The other system is located in the southeast and is identified as "WHALESSOUTH."

**NOTE TO § 169.100:** 50 CFR 224.103(c) contains requirements and procedures concerning northern right whale approach limitations and avoidance procedures.

[USCG–1999–5525, 64 FR 29234, June 1, 1999, as amended by 66 FR 58070, Nov. 20, 2001]

§ 169.102 Who is the shore-based authority?
The U.S. Coast Guard is the shore-based authority for these mandatory ship reporting systems.

§ 169.105 Where is the northeastern reporting system located?
Geographical boundaries of the northeastern area include the waters of Cape Cod Bay, Massachusetts Bay, and the Great South Channel east and southeast of Massachusetts. The coordinates (NAD 83) of the area are as follows: from a point on Cape Ann, Massachusetts at 42°39′ N, 70°37′ W; then northeast to 42°45′ N, 70°13′ W; then southeast to 42°10′ N, 68°31′ W; then south to 41°00′ N, 68°31′ W; then west to 41°00′ N, 69°17′ W; then northeast to 42°05′ N, 70°02′ W; then west to 42°04′ N, 70°10′ W; and then along the Massachusetts shoreline of Cape Cod Bay and Massachusetts Bay back to the point on Cape Anne at 42°39′ N, 70°37′ W.

§ 169.110 When is the northeastern reporting system in effect?
The mandatory ship reporting system in the northeastern United States operates year-round.

§ 169.115 Where is the southeastern reporting system located?
Geographical boundaries of the southeastern area include coastal waters within about 25 nautical miles (45 kilometer) along a 90-nautical mile (170-kilometer) stretch of the Atlantic seaboard in Florida and Georgia. The area coordinates (NAD 83) extends from the shoreline east to longitude 80°51.6′ W with the southern and northern boundaries at latitude 30°00′ N and 31°27′ N, respectively.

§ 169.120 When is the southeastern reporting system in effect?
The mandatory ship reporting system in the southeastern United States operates during the period beginning on November 15 each year through April 16 of the following year.

[USCG–1999–5525, 66 FR 58070, Nov. 20, 2001]

§ 169.125 What classes of ships are required to make reports?
Each self-propelled ship of 300 gross tons or greater must participate in the reporting systems, except government ships exempted from reporting by regulation V/8–1(c) of SOLAS. However, exempt ships are encouraged to participate in the reporting systems.

[USCG–1999–5525, 66 FR 58070, Nov. 20, 2001]

§ 169.130 When are ships required to make reports?
Participating ships must report to the shore-based authority upon entering the area covered by a reporting system. Additional reports are not necessary for movements made within a system or for ships exiting a system.

§ 169.135 How must the reports be made?
(a) A ship equipped with INMARSAT C must report in IMO standard format as provided in § 169.140 in table 169.140.
(b) A ship not equipped with INMARSAT C must report to the Coast Guard using other means, listed below in order of precedence—
   (1) Narrow band direct printing (SITOR),
   (2) HF voice communication, or
   (3) MF or VHF voice communications.
(c) SITOR or HF reports made directly to the Coast Guard’s Communications Area Master Station Atlantic (CAMSLANT) in Chesapeake, VA, or MF or VHF reports made to Coast Guard activities or groups, should only be made by ships not equipped with INMARSAT C. Ships in this category must provide all the required information to the Coast Guard watchstander.
