

§ 13.161

shared by local rural residents for authorized subsistence uses without a permit.

(b) For purposes of this section, the term “local rural resident”, with respect to national parks, monuments, and preserve, is defined in §13.420 of this chapter.

§ 13.161 Permit application.

In order to obtain or renew a permit, a person shall submit an application. In the case of an application to renew a permit issued pursuant to §13.160, if no circumstance relating to the permittee’s occupancy and use of the cabin or structure has changed in the interim, applicable material submitted by the permittee to satisfy the original application requirements is considered sufficient and need not be resubmitted. The following information is required to be included in a permit application:

(a) An explanation of the applicant’s need for the cabin or structure;

(b) A description of an applicant’s past, present and anticipated future subsistence uses relevant to his or her need for the cabin or structure;

(c) A blueprint, sketch or photograph of the cabin or structure;

(d) A map that shows the geographic location of the cabin or structure; and

(e) A description of the types of occupancy and schedule for use of the cabin or structure. All information may be provided orally except the cabin blueprint, sketch or photograph and the map.

§ 13.162 Permit issuance.

(a) In making a decision on a permit application, the Superintendent shall consider whether the use by local rural residents of a cabin or other structure for subsistence purposes is customary and traditional in that park area and shall determine whether the use and occupancy of a new or existing cabin or structure is “necessary to reasonably accommodate” the applicant’s subsistence uses. In making this determination, the Superintendent shall examine the applicant’s particular circumstances, including but not limited to his or her past patterns of subsistence uses and his or her future subsistence use plans, reasonable subsistence use alternatives, the specific nature of

36 CFR Ch. I (7–1–10 Edition)

the subsistence uses to be accommodated by the cabin or structure, the impacts of the cabin or structure on other local rural residents who depend on subsistence uses and the impacts of the proposed structure and activities on the values and purposes for which the park area was established.

(b) The Superintendent may permit the construction of a new cabin or other new structure for subsistence purposes only if a tent or other temporary facility would not adequately and reasonably accommodate the applicant’s subsistence uses without significant hardship and the use of no other type of cabin or other structure provided for in this subpart can adequately and reasonably accommodate the applicant’s subsistence uses with a lesser impact on the values and purposes for which the park area was established.

§ 13.164 Permit terms.

The Superintendent shall, among other conditions, establish terms of a permit that:

(a) Allow for use and occupancy during the harvest or gathering of subsistence resources, at such times as may be reasonably necessary to prepare for a harvest season (*e.g.*, opening or closing a cabin or structure at the beginning or end of a period of use), and at other times reasonably necessary to accommodate the permittee’s specified subsistence uses;

(b) Prohibit residential use in conjunction with subsistence activities; and

(c) Limit the term of a permit to a period of five years or less.

§ 13.166 Temporary facilities.

A temporary facility or structure directly and necessarily related to the taking of subsistence resources may be constructed and used by a qualified subsistence user without a permit so long as such use is for less than thirty days and the site is returned to a natural condition. The Superintendent may establish conditions and standards governing the use or construction of these temporary structures and facilities which shall be published annually in accordance with §1.7 of this chapter.
