

National Park Service, Interior

§51.51

preference or any other form of entitlement of any nature to a new concession contract, except in accordance with this part or in accordance with 36 CFR part 13.

§51.50 Does the existence of a preferred offeror limit the authority of the Director to establish the terms of a concession contract?

The existence of a preferred offeror does not limit the authority of the Director to establish, in accordance with this part, the terms and conditions of a new concession contract, including, but not limited to, terms and conditions that modify the terms and conditions of a prior concession contract.

Subpart G—Leasehold Surrender Interest

§51.51 What special terms must I know to understand leasehold surrender interest?

To understand leasehold surrender interest, you must refer to these definitions, applicable in the singular or the plural, whenever these terms are used in this part:

Arbitration means binding arbitration conducted by an arbitration panel. All arbitration proceedings conducted under the authority of this subpart or subpart H of this part will utilize the following procedures unless otherwise agreed by the concessioner and the Director. One member of the arbitration panel will be selected by the concessioner, one member will be selected by the Director, and the third (neutral) member will be selected by the two party-appointed members. The neutral arbiter must be a licensed real estate appraiser. The expenses of the neutral arbiter and other associated common costs of the arbitration will be borne equally by the concessioner and the Director. The arbitration panel will adopt procedures that treat each party equally, give each party the opportunity to be heard, and give each party a fair opportunity to present its case. Adjudicative procedures are not encouraged but may be adopted by the panel if determined necessary in the circumstances of the dispute. Determinations must be made by a majority of the members of

the panel and will be binding on the concessioner and the Director.

A capital improvement is a structure, fixture, or non-removable equipment provided by a concessioner pursuant to the terms of a concession contract and located on lands of the United States within a park area. A capital improvement does not include any interest in land. Additionally, a capital improvement does not include any interest in personal property of any kind including, but not limited to, vehicles, boats, barges, trailers, or other objects, regardless of size, unless an item of personal property becomes a fixture as defined in this part. Concession contracts may further describe, consistent with the limitations of this part and the 1998 Act, the nature and type of specific capital improvements in which a concessioner may obtain a leasehold surrender interest.

Construction cost of a capital improvement means the total of the incurred eligible direct and indirect costs necessary for constructing or installing the capital improvement that are capitalized by the concessioner in accordance with Generally Accepted Accounting Principals (GAAP). The term “construct” or “construction” as used in this part also means “install” or “installation” of fixtures where applicable.

Consumer Price Index means the national “Consumer Price Index—All Urban Consumers” published by the Department of Labor. If this index ceases to be published, the Director will designate another regularly published cost-of-living index approximating the national Consumer Price Index.

Depreciation means the loss of value in a capital improvement as evidenced by the condition and prospective serviceability of the capital improvement in comparison with a new unit of like kind.

Eligible direct costs means the sum of all incurred capitalized costs (in amounts no higher than those prevailing in the locality of the project), that are necessary both for the construction of a capital improvement and are typically elements of a construction contract. Eligible direct costs may include, without limitation, the costs

of (if capitalized in accordance with GAAP and in amounts no higher than those prevailing in the locality of the project): building permits; materials, products and equipment used in construction; labor used in construction; security during construction; contractor's shack and temporary fencing; material storage facilities; power line installation and utility costs during construction; performance bonds; and contractor's (and subcontractor's) profit and overhead (including job supervision, worker's compensation insurance and fire, liability, and unemployment insurance).

Eligible indirect costs means, except as provided in the last sentence of this definition, the sum of all other incurred capitalized costs (in amounts no higher than those prevailing in the locality of the project) necessary for the construction of a capital improvement. Eligible indirect costs may include, without limitation, the costs of (if capitalized in accordance with GAAP and in amounts no higher than those prevailing in the locality of the project): architectural and engineering fees for plans, plan checks; surveys to establish building lines and grades; environmental studies; if the project is financed, the points, fees or service charges and interest on construction loans; all risk insurance expenses and ad valorem taxes during construction. The actual capitalized administrative expenses (in amounts no higher than those prevailing in the locality of the project) of the concessioner for direct, on-site construction inspection are eligible indirect costs. Other administrative expenses of the concessioner are not eligible indirect costs.

Fixtures and non-removable equipment are manufactured items of personal property of independent form and utility necessary for the basic functioning of a structure that are affixed to and considered to be part of the structure such that title is with the Director as real property once installed. Fixtures and non-removable equipment do not include building materials (e.g., wallboard, flooring, concrete, cinder blocks, steel beams, studs, window frames, windows, rafters, roofing, framing, siding, lumber, insulation, wallpaper, paint, etc.). Because of their spe-

cial circumstances, floating docks (but not other types of floating property) constructed by a concessioner pursuant to the terms of a leasehold surrender interest concession contract are considered to be non-removable equipment for leasehold surrender interest purposes only. Except as otherwise indicated in this part, the term "fixture" as used in this part includes the term "non-removable equipment."

Leasehold surrender interest solely means a right to payment in accordance with this part for related capital improvements that a concessioner makes or provides within a park area on lands owned by the United States pursuant to this part and under the terms and conditions of an applicable concession contract. The existence of a leasehold surrender interest does not give the concessioner, or any other person, any right to conduct business in a park area, to utilize the related capital improvements, or to prevent the Director or another person from utilizing the related capital improvements. The existence of a leasehold surrender interest does not include any interest in the land on which the related capital improvements are located.

Leasehold surrender interest concession contract means a concession contract that provides for leasehold surrender interest in capital improvements.

Leasehold surrender interest value means the amount of compensation a concessioner is entitled to be paid for a leasehold surrender interest in capital improvements in accordance with this part. Unless otherwise provided by the terms of a leasehold surrender interest concession contract under the authority of section 405(a)(4) of the 1998 Act, leasehold surrender interest value in existing capital improvements is an amount equal to:

(1) The initial construction cost of the related capital improvement;

(2) Adjusted by (increased or decreased) the same percentage increase or decrease as the percentage increase or decrease in the Consumer Price Index from the date the Director approves the substantial completion of the construction of the related capital improvement to the date of payment of the leasehold surrender interest value;

(3) Less depreciation of the related capital improvement on the basis of its condition as of the date of termination or expiration of the applicable leasehold surrender interest concession contract, or, if applicable, the date on which a concessioner ceases to utilize a related capital improvement (*e.g.*, where the related capital improvement is taken out of service by the Director pursuant to the terms of a concession contract).

Major rehabilitation means a planned, comprehensive rehabilitation of an existing structure that:

(1) The Director approves in advance and determines is completed within 18 months from start of the rehabilitation work (unless a longer period of time is approved by the Director in special circumstances); and

(2) The construction cost of which exceeds fifty percent of the pre-rehabilitation value of the structure.

Pre-rehabilitation value of an existing structure means the replacement cost of the structure less depreciation.

Real property improvements means real property other than land, including, but not limited to, capital improvements.

Related capital improvement or *related fixture* means a capital improvement in which a concessioner has a leasehold surrender interest.

Replacement cost means the estimated cost to reconstruct, at current prices, an existing structure with utility equivalent to the existing structure, using modern materials and current standards, design and layout.

Structure means a building, dock, or similar edifice affixed to the land so as to be part of the real estate. A structure may include both constructed infrastructure (*e.g.*, water, power and sewer lines) and constructed site improvements (*e.g.*, paved roads, retaining walls, sidewalks, paved driveways, paved parking areas) that are permanently affixed to the land so as to be part of the real estate and that are in direct support of the use of a building, dock, or similar edifice. Landscaping that is integral to the construction of a structure is considered as part of a structure. Interior furnishings that are not fixtures are not part of a structure.

Substantial completion of a capital improvement means the condition of a capital improvement construction project when the project is substantially complete and ready for use and/or occupancy.

§ 51.52 How do I obtain a leasehold surrender interest?

Leasehold surrender interest concession contracts will contain appropriate leasehold surrender interest terms and conditions consistent with this part. A concessioner will obtain leasehold surrender interest in capital improvements constructed in accordance with this part and the leasehold surrender interest terms and conditions of an applicable leasehold surrender interest concession contract.

§ 51.53 When may the Director authorize the construction of a capital improvement?

The Director may only authorize or require a concessioner to construct capital improvements on park lands in accordance with this part and under the terms and conditions of a leasehold surrender interest concession contract for the conduct by the concessioner of visitor services, including, without limitation, the construction of capital improvements necessary for the conduct of visitor services.

§ 51.54 What must a concessioner do before beginning to construct a capital improvement?

Before beginning to construct any capital improvement, the concessioner must obtain written approval from the Director in accordance with the terms of its leasehold surrender interest concession contract. The request for approval must include appropriate plans and specifications for the capital improvement and any other information that the Director may specify. The request must also include an estimate of the total construction cost of the capital improvement. The estimate of the total construction cost must specify all elements of the cost in such detail as is necessary to permit the Director to determine that they are elements of construction cost as defined in this part. (The approval requirements of this and other sections of this part also apply to
