

## § 72.46

local Recovery Action Program. Services for special populations, such as transportation to recreation facilities, may also be funded.

(b) *Basic types of Innovation proposals.* Types of Innovation proposals which can be funded are suggested by, but not limited to, the following types:

(1) The unique integration of recreation with other community services; such as transportation, public housing and public safety; either to expand or update current services, or to link programs within the social service structure of a neighborhood, or between neighborhoods.

(2) New management and cost-saving or service-efficient approaches for improving the delivery of recreation services should be fundamental to all Innovation and Rehabilitation proposals, and may also be the prime focus of an Innovation proposal. Extending hours of operation, increasing the variety of recreation programs, contracting with commercial or private non-profit agencies to supply specific recreation services, or assisting citizens in designing and operating their own programs, are examples of management approaches.

(3) New approaches to facility design which emphasize user needs and preferences and promote efficient operation and energy conservation.

(4) New fiscal techniques to generate revenue for continuing operation and maintenance, such as tax credits.

(5) Techniques for improving transportation and access to recreation opportunities.

(6) Techniques to facilitate private, non-profit, and community involvement in providing recreation opportunities.

(7) Improved use of land resources; such as utilizing abandoned railroads and highway rights-of-way, waterfronts, street spaces, or derelict land for recreation.

(8) Adaptive reuse or multiple use of public or private facilities and areas. (Private areas or facilities utilized must be opened to the public.)

(9) Techniques to prevent or reduce crime, abuse and vandalism; such as better design, non-destructible building materials, or use of community volunteers to supervise areas.

## 36 CFR Ch. I (7-1-10 Edition)

(10) Communications and public awareness of recreation opportunities, including education in leisure services; but excluding research.

### § 72.46 Citizen participation requirements.

(a) *Recovery Action Program Grants.* Citizen participation is required for developing and implementing a Recovery Action Program (§72, Subpart B), but is not required in the process of preparing a local Recovery Action Program grant application.

(b) *Rehabilitation and Innovation grant.* The applicant shall provide citizens with an adequate opportunity to participate in the development of a Rehabilitation and/or Innovation proposal and in implementation, monitoring and evaluation of the activities supported through the grants. The applicant shall also encourage the submission of views and proposals, particularly by residents of blighted neighborhoods and citizens with low and moderate incomes. The applicant is encouraged to utilize a variety of approaches to ensure public involvement. Nothing in these requirements, however, shall be construed to restrict the legal responsibility and authority of the applicant for the execution of its Recovery Action Program, and the development of its UPARR applications.

### § 72.47 [Reserved]

### § 72.48 Federal coordination.

Applicants requesting UPARR assistance under one of the three grant categories shall investigate the possibilities of administrative and/or funding coordination with other Federal programs. Higher priority is given to proposals which relate to a comprehensive neighborhood revitalization strategy, including, but not limited to programs such as the Department of Housing and Urban Development (HUD) Neighborhood Self-Help program.

### § 72.49 [Reserved]
