

§ 223.2

§ 223.2 Disposal of timber for administrative use.

Trees, portions of trees, or other forest products in any amount on National Forest System lands may be disposed of for administrative use, by sale or without charge, as may be most advantageous to the United States, subject to the maximum cut fixed in accordance with established policies for management of the National Forests. Such administrative use shall be limited to the following conditions and purposes:

(a) For construction, maintenance or repair of roads, bridges, trails, telephone lines, fences, recreation areas or other improvements of value for the protection or the administration of Federal lands.

(b) For fuel in Federal camps, buildings and recreation areas.

(c) For research and demonstration projects.

(d) For use in disaster relief work conducted by public agencies.

(e) For disposal when removal is desirable to protect or enhance multiple-use values in a particular area.

§ 223.3 Sale of seized material.

Seized material (trees, portions of trees or other forest products cut in trespass from National Forest System lands) may be sold to the highest bidder under specific authorization from the Regional Forester. If advertisement is impractical, sales of material with an appraised value of less than \$10,000 will be made on informal bids.

§ 223.4 Exchange of trees or portions of trees.

Trees or portions of trees may be exchanged for land under laws authorizing the exchange of National Forest timber. Cutting of exchange timber must comply with the purposes cited in § 223.1.

and prospectors living within or immediately adjacent to the National Forest when the available supply is insufficient to meet the total demand. Free use may be granted to such bona fide settlers, miners, residents and prospectors for minerals, for fencing, building, mining, prospecting and domestic purposes.

(Sec. 1, 30 Stat. 35, as amended; 16 U.S.C. 477, 551)

(b) Free use will be granted individuals primarily to aid in the protection and silvicultural improvement of the forests. Except in unusual cases, the material will be restricted to dead, insect-infested, or diseased timber, logging debris, and thinnings. Other material may be granted in unusual cases where its refusal would cause unwarranted hardship. Where limited supply or other conditions justify such action, the free use of green material may be refused.

§ 223.6 Cutting and removal of timber in free-use areas.

Supervisors may designate portions or all of a National Forest as free-use areas where such action is compatible with land management plans and shall give public notice of their action. Within such free-use areas, any dead timber or any green timber previously marked or designated by forest officers may be cut and removed for personal use for domestic purposes. Cutting and removal of timber in free-use areas shall be in accordance with such rules as may be prescribed by the district ranger to prevent fires, minimize damage to uncut trees and other resources, and to avoid confusion among users.

§ 223.7 Permission for free use of timber outside free-use areas.

§ 223.8 Delegations of authority to approve free use by individuals.

(a) Forest officers whom the supervisor may designate are authorized to grant free use of timber to individuals up to \$200 in value in any one fiscal year. Supervisors may grant permits for material not exceeding \$5,000 in value. Regional Foresters may approve permits for larger amounts, and in times of emergency may delegate authority to supervisors for not over \$10,000 in value. Prior review by the Chief of the Forest Service will be given if the amount involved exceeds \$10,000 in value.

(b) Regional Foresters may authorize supervisors to permit the removal of specific classes of material without scaling or measurement.

§ 223.9 Free use to owners of certain mining claims.

Free use will be granted to an owner of a mining claim located subsequent to July 23, 1955, or of a mining claim which is otherwise subject to Section 4 of the Act of July 23, 1955 (69 Stat. 367), if at any time said claim owner requires more timber for his mining operations, in connection with that claim, than is available on that claim because of Forest Service timber disposal therefrom subsequent to location of that claim. He will be granted, free of charge, timber from the nearest National Forest land which is ready for harvesting under the applicable management plan, substantially equivalent in kind and quantity to that estimated by the Forest Service to have been cut under Forest Service authorization from the claim subsequent to its location. Forest officers may be delegated authority to grant amounts of timber not in excess of those which these officers are authorized to sell in commercial sales.

Bona fide settlers, miners, residents, and prospectors for minerals in Alaska may take free of charge green or dried timber from the National Forests in Alaska for personal use but not for sale. Permits will be required for green saw timber. Other material may be taken without permit. The amount of material granted to any one person in 1 year shall not exceed 10,000 board feet of saw timber and 25 cords of wood, or an equivalent volume in other forms. Persons obtaining materials shall, on demand, forward to the supervisor a statement of the quantity taken and the location from which it was removed.

The permittee may be required to dispose of the slash as cutting proceeds, or to employ people to work under the direction of a forest officer in disposing of the slash, or, if authorized, to provide funds for the employment of people for slash disposal under the direction of a forest officer.
