

§ 3.363

(1) *The amount to be offset.* The amount to be offset under 38 U.S.C. 1151(b) from benefits awarded under 38 U.S.C. 1151(a) is the veteran's or survivor's proportional share of the cost to the United States of the settlement or compromise, including the veteran's or survivor's proportional share of attorney fees.

(2) *When the offset begins.* The offset of benefits awarded under 38 U.S.C. 1151(a) begins the first month after the structured settlement or structured compromise has become final that such benefits would otherwise be paid.

(e) *Offset of award of benefits under 38 U.S.C. chapter 39.* (1) If a judgment, settlement, or compromise covered in paragraphs (b) through (d) of this section becomes final on or after December 10, 2004, and includes an amount that is specifically designated for a purpose for which benefits are provided under 38 U.S.C. chapter 39 (38 CFR 3.808), and if VA awards chapter 39 benefits after the date on which the judgment, settlement, or compromise becomes final, the amount of the award will be reduced by the amount received under the judgment, settlement, or compromise for the same purpose.

(2) If the amount described in paragraph (e)(1) of this section is greater than the amount of an award under 38 U.S.C. chapter 39, the excess amount received under the judgment, settlement, or compromise will be offset against benefits otherwise payable under 38 U.S.C. chapter 11.

RATING CONSIDERATIONS RELATIVE TO SPECIFIC DISEASES

§ 3.370 Pulmonary tuberculosis shown by X-ray in active service.

(a) *Active disease.* X-ray evidence alone may be adequate for grant of direct service connection for pulmonary tuberculosis. When under consideration, all available service department films and subsequent films will be secured and read by specialists at designated stations who should have a current examination report and X-ray. Resulting interpretations of service films will be accorded the same consideration for service-connection purposes as if clinically established, however, a compensable rating will not be assigned prior to establishment of an active condition by approved methods.

(b) *Inactive disease.* Where the veteran was examined at time of entrance into active service but X-ray was not made, or if made, is not available and there was no notation or other evidence of active or inactive reinfection type pulmonary tuberculosis existing prior to such entrance, it will be assumed that the condition occurred during service and direct service connection will be in order for inactive pulmonary tuberculosis shown by X-ray evidence during service in the manner prescribed in paragraph (a) of this section, unless lesions are first shown so soon after entry on active service as to compel the conclusion, on the basis of sound medical principles, that they existed prior to entry on active service.

(c) *Primary lesions.* Healed primary type tuberculosis shown at the time of entrance into active service will not be taken as evidence to rebut direct or
