

(iv) To the maximum extent practicable, an identification of projects that will receive disadvantaged assistance and the respective amounts.

(8) *Transfer process.* If a State decides to transfer funds between the DWSRF program and CWSRF program, the IUPs for the DWSRF program and the CWSRF program must describe the process including:

(i) The total amount and type of funds being transferred during the period covered by the IUP;

(ii) The total amount of authority being reserved for future transfer, including the authority reserved from previous years; and

(iii) The impact of the transfer on the amount of funds available to finance projects and set-asides and the long-term impact on the Fund.

(9) *Cross-collateralization process.* If a State decides to cross-collateralize Fund assets of the DWSRF program and CWSRF program, the IUPs for the DWSRF program and the CWSRF program must describe the process including:

(i) The type of monies which will be used as security;

(ii) How monies will be used in the event of a default; and

(iii) Whether or not monies used for a default in the other program will be repaid, and if they will not be repaid, what will be the cumulative impact on the Funds.

(d) *Amending the IUP.* The priority lists of projects may be amended during the year under provisions established in the IUP as long as additions or other substantive changes to the lists, except projects funded on an emergency basis, go through a public review process. A State may change the use of funds from what was originally described in the IUP as long as substantive changes go through a public review process.

**§ 35.3560 General payment and cash draw rules.**

(a) *Payment schedule.* A State will receive each capitalization grant payment in the form of an increase to the ceiling of funds available through the ACH, made in accordance with a payment schedule negotiated between EPA and the State. A payment schedule

that is based on a State's projection of binding commitments and use of set-aside funds as stated in the IUP must be included in the capitalization grant agreement. Changes to the payment schedule must be made through an amendment to the grant agreement.

(b) *Timing of payments.* All payments to a State will be made by the earlier of 8 quarters after the capitalization grant is awarded or 12 quarters after funds are allotted to a State.

(c) *Funds available for cash draw.* Cash draws will be available only up to the amount of payments that have been made to a State.

(d) *Estimated cash draw schedule.* On a schedule negotiated with EPA, a State must provide EPA with a quarterly schedule of estimated cash draws for the Federal fiscal year. The State must notify EPA when significant changes from the estimated cash draw schedule are anticipated. This schedule must be developed to conform with the procedures applicable to cash draws and must have sufficient detail to allow EPA and the State to jointly develop and maintain a forecast of cash draws.

(e) *Cash draw for set-asides.* A State may draw cash through the ACH for the full amount of costs incurred for set-aside expenditures based on EPA approved workplans. A State may draw cash in advance to ensure funds are available to meet State payroll expenses. However, cash should be drawn no sooner than necessary to meet immediate payroll disbursement needs.

(f) *Cash draw for Fund.* A State may draw cash through the ACH for the proportionate Federal share of eligible incurred project costs. A State need not have disbursed funds for incurred project costs prior to drawing cash. A State may not draw cash for a particular project until the State has executed a loan agreement for that project.

(g) *Calculation of proportionate Federal share—(1) General.* The proportionate Federal share is equal to the Federal monies intended for the Fund (capitalization grant minus set-asides) divided by the total amount of monies intended for the Fund (capitalization grant minus set-asides plus required State match). A State may calculate the proportionate Federal share on a

§ 35.3565

40 CFR Ch. I (7-1-10 Edition)

rolling average basis or on a grant by grant basis.

(2) *State overmatch.* (i) The proportionate Federal share does not change if a State is providing funds in excess of the required State match.

(ii) Federal monies may be drawn at a rate that is greater than that determined by the proportionate Federal share calculation when a State is given credit toward its match amount as a result of funding projects in prior years (but after July 1, 1993), or for crediting excess match in the Fund in prior years and disbursing these amounts prior to drawing cash. If the entire amount of a State's required match has been disbursed in advance, the proportionate Federal share of cash draws would be 100 percent.

**§ 35.3565 Specific cash draw rules for authorized types of assistance from the Fund.**

A State may draw cash for the authorized types of assistance from the Fund described in § 35.3525 according to the following rules:

(a) *Loans*—(1) *Eligible project costs.* A State may draw cash based on the proportionate Federal share of incurred project costs. In the case of incurred planning and design and associated pre-project costs, cash may be drawn immediately upon execution of the loan agreement.

(2) *Eligible project reimbursement costs.* A State may draw cash to reimburse assistance recipients for eligible project costs at a rate no greater than equal amounts over the maximum number of quarters that capitalization grant payments are made. A State may immediately draw cash for up to 5 percent of each fiscal year's capitalization grant or 2 million dollars, whichever is greater, to reimburse project costs.

(b) *Refinance or purchase of local debt obligations*—(1) *Completed projects.* A State may draw cash up to the portion of the capitalization grant committed to the refinancing or purchase of local debt obligations of municipal, inter-municipal, or interstate agencies at a rate no greater than equal amounts over the maximum number of quarters that capitalization grant payments are made. A State may immediately draw cash for up to 5 percent of each fiscal

year's capitalization grant or 2 million dollars, whichever is greater, to refinance or purchase local debt.

(2) *Portions of projects not completed.* A State may draw cash based on the proportionate Federal share of incurred project costs according to the rule for loans in paragraph (a)(1) of this section.

(3) *Purchase of incremental disbursement bonds from local governments.* A State may draw cash based on a schedule that coincides with the rate at which costs are expected to be incurred for the project.

(c) *Purchase insurance for local debt obligations.* A State may draw cash for the proportionate Federal share of insurance premiums as they are due.

(d) *Guarantee for local debt obligations*—(1) *In the event of default.* In the event of imminent default in debt service payments on a guaranteed local debt, a State may draw cash immediately up to the total amount of the capitalization grant that is dedicated for the guarantee. If a balance remains after the default is satisfied, the State must negotiate a revised cash draw schedule for the remaining amount dedicated for the guarantee.

(2) *In the absence of default.* A State may draw cash up to the amount of the capitalization grant dedicated for the guarantee based on actual incurred project costs. The amount of the cash draw would be based on the proportionate Federal share of incurred project costs multiplied by the ratio of the guarantee reserve to the amount guaranteed.

(e) *Revenue or security for Fund debt obligations (leveraging)*—(1) *In the event of default.* In the event of imminent default in debt service payments on a secured debt, a State may draw cash immediately up to the total amount of the capitalization grant that is dedicated for the security. If a balance remains after the default is satisfied, the State must negotiate a revised schedule for the remaining amount dedicated for the security.

(2) *In the absence of default.* A State may draw cash up to the amount of the capitalization grant dedicated for the security using either of the following methods:
