(d) Buy American—(1) Definitions. As used in this subpart, the following definitions apply:

(i) Construction material means any article, material, or supply brought to the construction site for incorporation in the building or work.

(ii) Component means any article, material, or supply directly incorporated in construction material.

(iii) Domestic construction material means an unmanufactured construction material which has been mined or produced in the United States, or a manufactured construction material which has been manufactured in the United States if the cost of its components which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components.

(iv) Nondomestic construction material means a construction material other than a domestic construction material.

(2) Domestic preference. Domestic construction material may be used in preference to nondomestic materials if it is priced no more than 6 percent higher than the bid or offered price of the nondomestic materials including all costs of delivery to the construction site, any applicable duty, whether or not assessed. Computations will normally be based on costs on the date of opening of bids or proposals.

(3) Waiver. The Regional Administrator may waive the Buy American provision based upon those factors that he considers relevant, including:

(i) Such use is not in the public interest;

(ii) The cost is unreasonable;

(iii) The Agency’s available resources are not sufficient to implement the provision, subject to the Deputy Administrator’s concurrence;

(iv) The articles, materials, or supplies of the class or kind to be used or the articles, materials, or supplies from which they are manufactured are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities or satisfactory quality for the particular project; or

(v) Application of this provision is contrary to multilateral government procurement agreements, subject to the Deputy Administrator’s concurrence.

(4) Contract provision. Notwithstanding any other provision of this subpart, bidding documents and construction contracts for any step 3 project for which the Regional Administrator receives an application after February 1, 1978, shall contain the “Buy American” provision which requires use of domestic construction materials in preference to nondomestic construction materials.

(5) Substitution. If a nondomestic construction material or component is proposed for use, a bidder or contractor may substitute an approved domestic material or component (at no change in price), if necessary to comply with this subsection.

(6) Procedures. The Regional Administrator may use the appropriate procedures of §35.939 in making the determinations with respect to this subsection. He shall generally observe the Buy American procedures, regulations, precedents, and requirements of other Federal departments and agencies.
