§ 35.935–19 Municipal pretreatment program.

The grantee must obtain approval by the Regional Administrator of the municipal pretreatment program in accordance with part 403 of this chapter. Prior to granting such approval, the Regional Administrator shall not pay more than 90 percent of the Federal share of any step 3 project or cost of step 3 work under a step 2=3 project awarded after October 1, 1978, except that for any such grant assistance awarded before December 31, 1980, the Regional Administrator may continue grant payments if he determines that significant progress has been made (and is likely to continue) toward the development of an approvable pretreatment program and that withholding of grant payments would not be in the best interest of protecting the environment.

§ 35.935–20 Innovative processes and techniques.

If the grantee receives 85-percent grant assistance for innovative processes and techniques, the following conditions apply during the 5-year period following completion of construction:

(a) The grantee shall permit EPA personnel and EPA designated contractors to visit and inspect the treatment works at any reasonable time in order to review the operation of the innovative processes or techniques.

(b) If the Regional Administrator requests, the grantee will provide EPA with a brief written report on the construction, operation, and costs of operation of the innovative processes or techniques.

§ 35.936 Procurement.

(a) Sections 35.936 through 35.939 set forth policies and minimum standards for procurement of architectural or engineering services as defined in §35.937 and construction contracts as described in §35.938 by grantees under all steps of grants for construction of treatment works. Acquisition of real property shall be conducted in accordance with the provisions of part 4 of this chapter. Other procurements of goods and services shall be conducted in accordance with the provisions of part 33 of this subchapter.

(b) This subpart does not apply to work beyond the scope of the project for which grant assistance is awarded (i.e., ineligible work).

§ 35.936–1 Definitions.

As used in §§35.936 through 35.939, the following words and terms shall have the meaning set forth below. All terms not defined herein shall have the meaning given to them in §30.135 of this subchapter, and in §35.905.

(a) Grant agreement. The written agreement and amendments thereto between EPA and a grantee in which the terms and conditions governing the grant are stated and agreed to by both parties under §30.345 of this subchapter.

(b) Subagreement. A written agreement between an EPA grantee and another party (other than another public agency) and any tier of agreement thereunder for the furnishing of services, supplies, or equipment necessary to complete the project for which a grant was awarded, including contracts and subcontracts for personal and professional services, agreements with consultants and purchase orders, but excluding employment agreements subject to State or local personnel systems. (See §§35.937–12 and 35.938–9 regarding subcontracts of any tier under prime contracts for architectural or engineering services or construction awarded by the grantee—generally applicable only to subcontracts in excess of $10,000.)

(c) Contractor. A party to whom a subagreement is awarded.

(d) Grantee. Any municipality which has been awarded a grant for construction of a treatment works under this subpart. In addition, where appropriate in §§35.936 through 35.939, grantee may also refer to an applicant for a grant.

§ 35.936–2 Grantee procurement systems; State or local law.

(a) Grantee procurement systems. Grantees may use their own procurement systems and procedures which meet applicable requirements of State, territorial, or local laws and ordinances to the extent that these systems and procedures do not conflict.
§ 35.936–3 Competition.

EPA’s policy is to encourage free and open competition appropriate to the type of project work to be performed.

§ 35.936–4 Profits.

Only fair and reasonable profits may be earned by contractors in subagreements under EPA grants. See §35.937–7 for discussion of profits under negotiated subagreements for architectural or engineering services, and §35.938–5(f) for discussion of profits under negotiated change orders to construction contracts. Profit included in a formally advertised, competitively bid, fixed price construction contract awarded under §35.938 is presumed reasonable.

§ 35.936–5 Grantee responsibility.

(a) The grantee is responsible for the administration and successful accomplishment of the project for which EPA grant assistance is awarded. The grantee is responsible for the settlement and satisfaction of all contractual and administrative issues arising out of subagreements entered into under the grant (except as §35.936–6 provides) in accordance with sound business judgment and good administrative practice. This includes issuance of invitations for bids or requests for proposals, selection of contractors, award of contracts, protests of award, claims, disputes, and other related procurement matters.

(b) With the prior written approval of the Regional Administrator, the grantee may retain an individual or firm to perform these functions. Such an agent acts for the grantee and is subject to the provisions of this subpart which apply to the grantee.

(c) In accordance with §35.970, a grantee may request technical and legal assistance from the Regional Administrator for the administration and enforcement of any contract related to treatment works that are assisted by an EPA grant. The Regional Administrator’s assistance does not release the grantee from those responsibilities identified in paragraph (a) of this section.

§ 35.936–6 EPA responsibility.

Generally, EPA will only review grantee compliance with Federal requirements applicable to a grantee’s procurement. However, where specifically provided in this chapter (e.g., §§8.8(j) and 35.939), EPA is responsible for determining compliance with Federal requirements.

§ 35.936–8 Privity of contract.

Neither EPA nor the United States shall be a party to any subagreement (including contracts or subcontracts), nor to any solicitation or request for proposals. (See §§35.937–9(a), 35.938–4(c)5, and appendices C–1 and C–2 to this subpart for the required solicitation statement and contract provisions.) However, in accordance with §35.970 the Regional Administrator, if a grantee requests, may provide technical and legal assistance in the administration and enforcement of any contract related to treatment works for which an EPA grant was made.

§ 35.936–9 Disputes.

Only an EPA grantee may initiate and prosecute an appeal to the Administrator under the disputes provision of a grant with respect to its subagreements (see subpart J of part 30 of this subchapter). Neither a contractor nor a subcontractor may prosecute an appeal under the disputes provisions of a grant in its own name or interest.
