[40 FR 2338, Jan. 10, 1975, as amended at 60 FR 33963, June 29, 1995]

**§ 428.63 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.**

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

| Effluent characteristic                     | Effluent limitations                  |                                                                   |
|---------------------------------------------|---------------------------------------|-------------------------------------------------------------------|
|                                             | Maximum for any 1 day                 | Average of daily values for 30 consecutive days shall not exceed— |
|                                             | Metric units (kg/kkg of raw material) |                                                                   |
| Oil and grease .....                        | 0.42                                  | 0.15                                                              |
| TSS .....                                   | 0.80                                  | 0.40                                                              |
| pH .....                                    | ( <sup>1</sup> )                      | ( <sup>1</sup> )                                                  |
| English units (lb/1,000 lb of raw material) |                                       |                                                                   |
| Oil and grease .....                        | 0.42                                  | 0.15                                                              |
| TSS .....                                   | 0.80                                  | 0.40                                                              |
| pH .....                                    | ( <sup>1</sup> )                      | ( <sup>1</sup> )                                                  |

<sup>1</sup> Within the range 6.0 to 9.0.

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, and attributable to lead-sheathed hose production, which may be discharged by a point source subject to the provisions of this sub-

part after application of the best available technology economically achievable, in addition to the limitations set forth by § 428.63(a):

| Effluent characteristic                     | Effluent limitations                  |                                                                   |
|---------------------------------------------|---------------------------------------|-------------------------------------------------------------------|
|                                             | Maximum for any 1 day                 | Average of daily values for 30 consecutive days shall not exceed— |
|                                             | Metric units (kg/kkg of raw material) |                                                                   |
| Lead .....                                  | 0.0017                                | 0.0007                                                            |
| English units (lb/1,000 lb of raw material) |                                       |                                                                   |
| Lead .....                                  | 0.0017                                | 0.0007                                                            |

(c) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, and attributable to wet scrubbers, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable, in addition to the limitations set forth by § 428.63:

| Effluent characteristic                                | Effluent limitations                             |                                                                   |
|--------------------------------------------------------|--------------------------------------------------|-------------------------------------------------------------------|
|                                                        | Maximum for any 1 day                            | Average of daily values for 30 consecutive days shall not exceed— |
|                                                        | Metric units (kg/kkg of raw material equivalent) |                                                                   |
| TSS .....                                              | 1.0                                              | 0.5                                                               |
| English units (lb/1,000 lb of raw material equivalent) |                                                  |                                                                   |
| TSS .....                                              | 1.0                                              | 0.5                                                               |

**§ 428.64 [Reserved]**

**§ 428.65 Standards of performance for new sources.**

(a) The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:
