

§ 52.2225

(e) The requirements of § 51.230(b) of this chapter are not met since the State lacks legal authority, as a result of the enactment of House Bill 1845 by the 1974 Tennessee legislature, to control emissions from air contaminant sources which use woodwaste only as fuel. Therefore, the last sentence of section 53-3422 of the Tennessee Code Annotated is disapproved.

[37 FR 10894, May 31, 1972]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 52.2224, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 52.2225 VOC rule deficiency correction.

(a) Revisions to sections 7-3, 7-13, and 7-24 of the Tennessee regulations are approved. These amendments are in response to the Clean Air Act section 182(a)(2)(A) requirement to submit RACT rules correcting deficiencies in the existing SIP in accordance with EPA's pre-amendment guidance. These deficiencies were first noted in a letter from Greer Tidwell, the EPA Region IV Administrator, to Governor McWhorter on May 26, 1988, and clarified in a letter dated June 10, 1988, from Winston Smith, EPA Region IV Air Division Director, to Paul Bontrager, Director of the Air Pollution Control Division of the Metropolitan Health Department for Nashville/Davidson County, and were further identified in EPA guidance including the Blue Book and the proposed Post-87 policy. The following deficiency in the Tennessee Regulations, however, has not been corrected.

(1) Section 7-25, "Recordkeeping and Reporting Requirements" Nashville/Davidson County committed in a letter dated May 7, 1991, to include a separate provision that requires records to be maintained for at least two years. This additional provision, which is scheduled for a July 15, 1992, public hearing, will be submitted to EPA shortly after that date and will be acted upon separately.

(2) In Section 7-3, Petition for Alternative Controls, the words "as applied" should be added to the term "VOC/gallon solids" as a clarification.

(3) The term "vapor-tight" should be defined in section 7-13.

40 CFR Ch. I (7-1-10 Edition)

(4) "Once-in/always-in" is missing from the applicability section of the individual rules.

(5) Section 7-25, "Recordkeeping and Reporting Requirements" should be revised to include additional requirements that would contain: units of compliance consistent with the performance requirements; applicable time periods for data entries; and a clear, separate provision that requires records to be kept.

(b)-(c) [Reserved]

[56 FR 10173, Mar. 11, 1991, as amended at 57 FR 28626, June 26, 1992; 59 FR 18317, Apr. 18, 1994; 60 FR 10508, Feb. 27, 1995; 61 FR 37390, July 18, 1996]

§ 52.2226 Extensions.

The Administrator hereby extends for 18 months (until July 1, 1980) the statutory deadline for submittal of a plan to attain the secondary SO₂ standard in Copperhill.

(a) [Reserved]

(b) The Administrator hereby extends for 18 months (until July 1, 1980) the statutory timetable for submittal of Tennessee's plans to attain and maintain the secondary ambient standard for particulate matter in the Chattanooga, Columbia, Kingsport, Memphis, and Nashville nonattainment areas (40 CFR 81.343).

[45 FR 2034, Jan. 10, 1980, as amended at 45 FR 8008, Feb. 6, 1980]

§ 52.2227 Prevention of air pollution emergency episodes.

(a) The requirements of § 51.152(a) of this chapter are not met since the plan does not provide for the enforcement of emission control actions for mobile sources during air pollution emergency episodes.

[37 FR 10895, May 31, 1972, as amended at 51 FR 40677, Nov. 7, 1986]

§ 52.2228 Review of new sources and modifications.

(a) *Part D—Conditional approval.* The Nashville-Davidson County regulation for the review of new sources and modifications in nonattainment areas is approved on condition that the State by October 31, 1984, submit a revision limiting source shutdown credit for offsets
