GSA regional office supporting the geographic area in which the requisitioner is located. GSA will consolidate requisitions for these items from all regions for procurement on a definite quantity basis.

[43 FR 32765, July 28, 1978]

§ 101-26.507-2 Procurement time schedule.

Requisitions for security equipment will be consolidated by GSA on January 31, April 30, July 31, and October 31 of each year. The consolidated requisitions will be used in executing definite quantity contracts. To ensure inclusion in the invitation for bids, requisitions shall be submitted to GSA on or before January 1, April 1, July 1, or October 1 as appropriate. Requisitions received after any of these dates normally will be carried over to the subsequent consolidation date. Approximately 180 calendar days following the consolidation dates should be allowed for initial delivery. Requisitions shall include a required delivery date which reflects anticipated receipt under the time schedule.

§ 101-26.507-3 Purchase of security equipment from Federal Supply Schedules.

To ensure that a readily available source exists to meet the unforeseen demands for security equipment, Federal Supply Schedule contracts have been established to satisfy requirements that are not appropriate for consolidated procurement and do not exceed the maximum order limitations.

[60 FR 19675, Apr. 20, 1995]

§ 101-26.507-4 Quantities in excess of the maximum order limitation.

Quantities exceeding the maximum order limitation on Federal Supply Schedules will also be consolidated and procured by GSA pursuant to § 101-26.507-2. Where quantities are required to be delivered before the time frames established for the quarterly consolidated procurement, the requisition must indicate the earlier required delivery. As necessary, separate procure-

§ 101-26.508 Electronic data processing (EDP) tape and instrumentation tape (wide and intermediate band).

Procurement by Federal agencies of EDP tape and instrumentation tape (wide and intermediate band) shall be accomplished in accordance with the provisions of this § 101-26.508.

[38 FR 2176, Jan. 22, 1973]

§ 101-26.508-1 Requisitioning data processing tape available through Federal Supply Schedule contracts.

Federal Supply Schedules, FSC group 70, part XI, and FSC group 58, part V, section C, include contracts to satisfy Government requirements for those types of EDP tape and instrumentation tape (wide and intermediate band) which are most widely used. Federal agencies located within the 48 contiguous United States, Washington, DC and Hawaii (applicable to EDP tape only for Hawaii) shall procure these tapes in accordance with the provisions of the current schedules and this § 101-26.508-1. Orders not exceeding the maximum order limitations of the Federal Supply Schedules and prepared directly by activities located outside the geographical areas referenced above shall, to the extent possible, be consolidated and submitted in FEDSTRIP format to the GSA regional office supporting the geographic area in which the requisitioner is located.

[43 FR 32765, July 28, 1978]

§ 101-26.508-2 Requisitioning data processing tape not available from Federal Supply Schedule contracts.

(a) Requisitions for types of EDP tape and instrumentation tape (wide and intermediate band) covered by Federal Supply Schedule contracts which exceed the maximum order limitations of the schedule shall be submitted to the GSA regional office supporting the geographic area in which the requisitioner is located.

Federal Property Management Regulations

§ 101-26.509-1

Federal Supply Schedule contracts shall be submitted to GSA for purchase action when the dollar value of the requisitions exceeds, or is estimated to exceed, \$2,500 for EDP tape and \$5,000 for instrumentation tape. However, regardless of the amount involved (including requisitions estimated to be less than the dollar limitations referenced above), purchase action shall not be taken by GSA or an agency unless a waiver of the requirement for using items of tape available from Federal Supply Schedule contracts has been furnished in accordance with § 101-26.100-2.

Requests for waivers shall be submitted to the Commissioner, Federal Supply Service (F), General Services Administration, Washington, DC 20406. The requests shall fully describe the type of tape required and state the reasons Federal Supply Schedule items will not adequately serve the agency's needs. GSA will notify the requesting agency in writing of the action taken on the requests. To reduce leadtime, requisitions may be submitted in FEDSTRIP format with the requests for waivers. Requisitions for which a waiver has first been obtained shall be submitted with a copy of the waiver to the GSA regional office supporting the geographic area in which the requisitioner is located. GSA will either arrange for procurement of the items or authorize the requesting agency to procure them.

(c) When establishing required delivery dates in purchase requests submitted in accordance with this § 101-26.508-2, agencies should normally allow 105 days leadtime to permit orderly procurement by GSA. In addition to this 105 days leadtime, inspection and testing of the tape requires approximately 15 days.

(d) When an agency submitting a purchase request in accordance with this § 101-26.508-2 has a need for scheduled deliveries, minimum or maximum order quantities, or other special arrangements, GSA will develop specific provisions to accommodate the needs. The provisions will be based on information furnished by the agency con-

cerned and will be included in solicitations for offers and resultant contracts.

[37 FR 20941, Oct. 5, 1972, as amended at 41 FR 34633, Aug. 16, 1976; 43 FR 32765, July 28, 1978]

§ 101-26.508-3 Consolidation of requisitions.

To the maximum extent feasible, agencies shall develop procedures which will permit planned consolidated requisitioning of EDP tape and instrumentation tape (wide and intermediate band) on an agencywide basis. When agencywide consolidation is not feasible, consideration shall be given to the consolidation of individual requisitions for small quantities at any agency level. This will enable the Government to benefit from lower prices generally obtainable through large volume procurements.
