

§ 101-26.602-3

41 CFR Ch. 101 (7-1-07 Edition)

local purchase policy contained in paragraph (b) of this section.

(b) Activities may effect local purchase of any DLA-managed, centrally procured item, commercially available, provided the purchase:

(1) Is limited to immediate-use requirements generated by emergency conditions (e.g., work stoppage, etc.), or

(2) Is to satisfy a routine requirement having a total line value not in excess of \$25 and is determined to be the most economical method of supply.

(c) DGSC may return requisitions for local purchase action citing FEDSTRIP/MILSTRIP status code CW with the concurrence of the requisitioning activity when it is deemed that a local purchase action would be the most economical method of supply. A determination will be based on recognition of excessive costs (procurement, transportation/shipping, and special packaging considerations) as compared to those costs associated with local purchase action. Requisition priorities, backorder situations, procurement and required delivery dates (PDD/RDD), and requisition line item dollar values shall not be a basis or consideration for a Status Code CW reject action. Requisitions from overseas activities will not be returned to overseas activities for a local purchase action.
