

§ 137.200

new programs on the same basis as other Indian Tribes.

HEALTH STATUS REPORTS

§ 137.200 Are there reporting requirements for Self-Governance Tribes under Title V?

Yes, compacts or funding agreements negotiated between the Secretary and a Self-Governance Tribe must include a provision that requires the Self-Governance Tribe to report on health status and services delivery. These reports may only impose minimal burdens on the Self-Governance Tribes.

§ 137.201 What are the purposes of the Tribal reporting requirements?

Tribal reports enable the Secretary to prepare reports required under Title V and to develop the budget request. The reporting requirements are not intended as a quality assessment or monitoring tool, although such provision may be included at the option of the Self-Governance Tribe. Under no circumstances will the reporting requirements include any confidential, proprietary or commercial information. For example, while staffing levels may be a part of a report, pay levels for the staff are considered confidential between the Self-Governance Tribe and the employee.

§ 137.202 What types of information will Self-Governance Tribes be expected to include in the reports?

Reports will be derived from existing minimal data elements currently collected by Self-Governance Tribes, and may include patient demographic and workload data. Not less than 60 days prior to the start of negotiations or a mutually agreed upon timeframe, the IHS will propose a list of recommended minimal data elements, along with justification for their inclusion, to be used as a basis for negotiating these requirements into the Self-Governance Tribe's compact or funding agreement.

§ 137.203 May a Self-Governance Tribe participate in a voluntary national uniform data collection effort with the IHS?

Yes, in order to advance Indian health advocacy efforts, each Self-Governance Tribe will be encouraged to

42 CFR Ch. I (10-1-10 Edition)

participate, at its option, in national IHS data reporting activities such as Government Performance Results Act, epidemiologic and surveillance reporting.

§ 137.204 How will this voluntary national uniform data set be developed?

IHS will work with representatives of Self-Governance Tribes, in coordination with the Tribal Self Governance Advisory Committee (TSGAC), to develop a mutually-defined annual voluntary uniform subset of data that is consistent with Congressional intent, minimizes reporting burdens, and responds to the needs of the Self-Governance Tribe.

§ 137.205 Will this voluntary uniform data set reporting activity be required of all Self-Governance Tribes entering into a compact with the IHS under Title V?

No, to the extent that specific resources are available or have not otherwise been provided to Self-Governance Tribes for this purpose, and if the Self-Governance Tribes choose to participate, the IHS will provide resources, hardware, software, and technical assistance to the Self-Governance Tribes to facilitate data gathering to ensure data consistency and integrity under this voluntary effort.

§ 137.206 Why does the IHS need this information?

This information will be used to comply with sections 513 [25 U.S.C. 458aaa-12] and 514 [25 U.S.C. 458aaa-13] of the Act as well as to assist IHS in advocating for the Indian health system, budget formulation, and other reporting required by statute, development of partnerships with other organizations that benefit the health status of Indian Tribes, and sharing of best practices.

§ 137.207 Will funding be provided to the Self-Governance Tribe to compensate for the costs of reporting?

Yes, reporting requirements are subject to the Secretary providing specific funds for this purpose in the funding agreement.
