§ 56.305  Grant evaluation and award.

(a) Within the limits of funds determined by the Secretary to be available for such purpose, the Secretary may award grants under this subpart to applicants therefor which, in his judgment, will provide needed health services in a catchment area which will not be served by another project funded under this part and meet the applicable requirements of section 319(d)(1)(A) of the Act and this part, in accordance with priorities established pursuant to section 319(b) of the Act and §56.107 of subpart A of this part: Provided, That in the case of applicants which propose to serve substantially the same catchment area or where available funds are insufficient to fund all approvable applications within a priority category specified in §56.107, the Secretary will award grants to the applicants which, in his judgment, will best promote the purpose of section 319(d)(1)(A) of the Act and the applicable regulations of this part, taking into account with respect to each application:

(1) The extent to which the project would provide for the elements set forth in §56.303;
(2) The capability of the applicant to provide quality health care services;
(3) The soundness of the financial management plan for assuring effective utilization of grant funds and maximizing non-grant revenue;
(4) The administrative and management capability of the applicant;
(5) The capability of the applicant to provide primary health services directly. In evaluating the relative capability of the applicant to provide such services directly, the Secretary shall take into consideration whether the direct provision of such services is inappropriate because:
   (i) Provision of such services through contract or other arrangement would be more cost-effective;
   (ii) Provision of such services directly would unnecessarily duplicate existing resources; or
   (iii) Provision of such services other than directly would enhance the accessibility or acceptability of such services to the population to be served.
(6) The degree to which the applicant intends to integrate services supported by a grant under this part with health services provided under other federally assisted health services or reimbursement programs or projects;
(7) The extent that community resources will be utilized by the project; and
(8) Consistent with the other requirements of this part, the degree to which and the manner in which the applicant provides specific health services which the Secretary has, through publication of a notice in the FEDERAL REGISTER, established as services which should receive emphasis by applicants.

Subpart D—Grants for Operating Migrant Health Entities

§ 56.401 Applicability.

The regulations of this subpart, in addition to the regulations of subpart A of this part, are applicable to grants awarded pursuant to section 319(d)(1)(B) of the Act for the costs of operation of entities which intend to become migrant health centers and which provide health services to migratory agricultural workers, seasonal agricultural workers, and the members of their families in high impact areas.

§ 56.402 Application.

To be approved by the Secretary under this subpart, an application for a grant must, in addition to meeting the requirements of §56.104 of subpart A of this part,

(a) Be submitted by an entity which the Secretary determines intends to become a migrant health center but which will not, at the time of the grant award, meet one or more of the requirements of paragraphs (a) through (l) of §56.303 of subpart C of this part; and

(b) Contain information sufficient to enable the Secretary to determine that the project for which the grant is sought will meet the requirements of this part. Such information must include a plan which identifies which requirements of §56.303 will not be met at
