
(a) Definitions. Beginning in FY 2011, the terms used in this section are defined as follows:

Medicare discharges means discharge of inpatients entitled to Medicare Part A, including discharges associated with individuals whose inpatient benefits are exhausted or whose stay was not covered by Medicare and also discharges of individuals enrolled in a MA organization under Medicare Part C.

Road miles means "miles" as defined in § 412.92(c)(1).

(b) General considerations. (1) CMS provides an additional payment to a qualifying hospital for the higher incremental costs associated with a low volume of discharges. The amount of any additional payment for a qualifying hospital is calculated in accordance with paragraph (c) of this section.

(2) In order to qualify for this adjustment, a hospital must meet the following criteria:

(i) For FY 2005 through FY 2010 and FY 2013 and subsequent fiscal years, a hospital must have fewer than 200 total discharges, which includes Medicare and non-Medicare discharges, during the fiscal year, based on the hospital's most recently submitted cost report, and be located more than 25 road miles (as defined in paragraph (a) of this section) from the nearest "subsection (d)" (section 1886(d) of the Act) hospital.

(ii) For FY 2011 and FY 2012, a hospital must have fewer than 1,600 Medicare discharges, as defined in paragraph (a) of this section, from the nearest "subsection (d)" (section 1886(d) of the Act) hospital.

(3) In order to qualify for this adjustment, a hospital must provide its fiscal intermediary or Medicare administrative contractor with sufficient evidence that it meets the distance requirement specified under paragraph (b)(2)(i) of this section. The fiscal intermediary or Medicare administrative contractor will base its determination of whether the distance requirement is satisfied upon the evidence presented by the hospital and other relevant evidence, such as maps, mapping software, and inquiries to State and local police, transportation officials, or other government officials.

(c) Determination of the adjustment amount. The low-volume adjustment for hospitals that qualify under paragraph (b) of this section is as follows for the applicable fiscal year:

(1) For FY 2005 through FY 2010 and FY 2013 and subsequent fiscal years, the adjustment is an additional 25 percent for each Medicare discharge.

(2) For FY 2011 and FY 2012, the adjustment is as follows:

(i) For low-volume hospitals with 200 or fewer Medicare discharges (as defined in paragraph (a) of this section), the adjustment is an additional 25 percent for each Medicare discharge.

(ii) For low-volume hospitals with Medicare discharges (as defined in paragraph (a) of this section) of more than 200 and fewer than 1,600, the adjustment for each Medicare discharge is an additional percent calculated using the formula \[ \left( \frac{4}{14} - \frac{\text{number of Medicare discharges}}{5600} \right) \]. The "number of Medicare discharges" is determined as described in paragraph (b)(2)(ii) of this section.

(d) Eligibility of new hospitals for the adjustment. For FYs 2005 through 2010 and FY 2013 and subsequent fiscal years, a new hospital will be eligible for a low-volume adjustment under this section once it has submitted a cost report for a cost reporting period that indicates that it meets discharge requirements during the applicable fiscal year and has provided its fiscal intermediary or Medicare administrative contractor with sufficient evidence that it meets the distance requirement, as specified under paragraph (b)(2) of this section.
