(2) Regular reports on the implementation and effectiveness of the strategy.

§ 438.204 Elements of State quality strategies.

At a minimum, State strategies must include the following:
(a) The MCO and PIHP contract provisions that incorporate the standards specified in this subpart.
(b) Procedures that—
(1) Assess the quality and appropriateness of care and services furnished to all Medicaid enrollees under the MCO and PIHP contracts, and to individuals with special health care needs.
(2) Identify the race, ethnicity, and primary language spoken of each Medicaid enrollee. States must provide this information to the MCO and PIHP for each Medicaid enrollee at the time of enrollment.
(3) Regularly monitor and evaluate the MCO and PIHP compliance with the standards.
(c) For MCOs and PIHPs, any national performance measures and levels that may be identified and developed by CMS in consultation with States and other relevant stakeholders.
(d) Arrangements for annual, external independent reviews of the quality outcomes and timeliness of, and access to, the services covered under each MCO and PIHP contract.
(e) For MCOs, appropriate use of intermediate sanctions that, at a minimum, meet the requirements of subpart I of this part.
(f) An information system that supports initial and ongoing operation and review of the State’s quality strategy.
(g) Standards, at least as stringent as those in the following sections of this subpart, for access to care, structure and operations, and quality measurement and improvement.

ACCESS STANDARDS

§ 438.206 Availability of services.

(a) Basic rule. Each State must ensure that all services covered under the State plan are available and accessible to enrollees of MCOs, PIHPs, and PAHPs.
(b) Delivery network. The State must ensure, through its contracts, that each MCO, and each PIHP and PAHP consistent with the scope of the PIHP’s or PAHP’s contracted services, meets the following requirements:
(1) Maintains and monitors a network of appropriate providers that is supported by written agreements and is sufficient to provide adequate access to all services covered under the contract. In establishing and maintaining the network, each MCO, PIHP, and PAHP must consider the following:
   (i) The anticipated Medicaid enrollment.
   (ii) The expected utilization of services, taking into consideration the characteristics and health care needs of specific Medicaid populations represented in the particular MCO, PIHP, and PAHP.
   (iii) The numbers and types (in terms of training, experience, and specialization) of providers required to furnish the contracted Medicaid services.
   (iv) The numbers of network providers who are not accepting new Medicaid patients.
   (v) The geographic location of providers and Medicaid enrollees, considering distance, travel time, the means of transportation ordinarily used by Medicaid enrollees, and whether the location provides physical access for Medicaid enrollees with disabilities.
(2) Provides female enrollees with direct access to a women's health specialist within the network for covered care necessary to provide women’s routine and preventive health care services. This is in addition to the enrollee's designated source of primary care if that source is not a women’s health specialist.
(3) Provides for a second opinion from a qualified health care professional within the network, or arranges for the enrollee to obtain one outside the network, at no cost to the enrollee.
(4) If the network is unable to provide necessary services, covered under the contract, to a particular enrollee, the MCO, PIHP, or PAHP must adequately and timely cover these services out of network for the enrollee, for as long as the MCO, PIHP, or PAHP is unable to provide them.
