agency’s control to determine the nature and extent of archaeological resources pursuant to section 14(a) of the Act. Such activities should be consistent with Federal agency planning policies and other historic preservation program responsibilities required by 16 U.S.C. 470 et seq. Survey plans prepared under this section will be designed to comply with the purpose of the Act regarding the protection of archaeological resources.

(b) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will prepare schedules for surveying lands under each agency’s control that are likely to contain the most scientifically valuable archaeological resources pursuant to section 14(b) of the Act. Such schedules will be developed based on objectives and information identified in survey plans described in paragraph (a) of this section and implemented systematically to cover areas where the most scientifically valuable archaeological resources are likely to exist.

(c) Guidance for the activities undertaken as part of paragraphs (a) through (b) of this section is provided by the Secretary of the Interior’s Standards and Guidelines for Archeology and Historic Preservation.

(d) Other Federal land managing agencies are encouraged to develop plans for surveying lands under their jurisdictions and prepare schedules for surveying to improve protection and management of archaeological resources.

(e) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will develop a system for documenting and reporting suspected violations of the various provisions of the Act. This system will reference a set of procedures for use by officers, employees, or agents of Federal agencies to assist them in recognizing violations, documenting relevant evidence, and reporting assembled information to the appropriate authorities. Methods employed to document and report such violations should be compatible with existing agency reporting systems for documenting violations of other appropriate Federal statutes and regulations. Summary information to be included in the Secretary’s comprehensive report will be based upon the system developed by each Federal land manager for documenting suspected violations.

Subpart B—Department of the Interior Supplemental Regulations

SOURCE: 52 FR 9168, Mar. 23, 1987, unless otherwise noted.

§ 7.31 Scope and authority.

The regulations in this subpart are promulgated pursuant to section 10(b) of the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470i), which requires agencies to develop rules and regulations for carrying out the purposes of the Act, consistent with the uniform regulations issued pursuant to section 10(a) of the Act (subpart A of this part).

§ 7.32 Supplemental definitions.

For purposes of this subpart, the following definitions will be used:

(a) Site of religious or cultural importance means, for purposes of § 7.7 of this part, a location which has traditionally been considered important by an Indian tribe because of a religious event which happened there; because it contains specific natural products which are of religious or cultural importance; because it is believed to be the dwelling place of, the embodiment of, or a place conducive to communication with spiritual beings; because it contains elements of life-cycle rituals, such as burials and associated materials; or because it has other specific and continuing significance in Indian religion or culture.

(b) Allotted lands means lands granted to Indian individuals by the United States and held in trust for those individuals by the United States.
and therefore are not to be considered archaeological resources under this part.

(b) The Federal land manager may make such a determination if he/she finds that the material remains are not capable of providing scientific or humanistic understandings of past human behavior, cultural adaptation, and related topics.

(c) Prior to making a determination that material remains are not or are no longer archaeological resources, the Federal land manager shall ensure that the following procedures are completed:

(1) A professional archaeological evaluation of material remains and similar materials within the area under consideration shall be completed, consistent with the Secretary of the Interior’s Standards and Guidelines for Archeology and Historic Preservation (48 FR 44716, Sept. 29, 1983) and with 36 CFR parts 60, 63, and 65.

(2) The principal bureau archaeologist or, in the absence of a principal bureau archaeologist, the Department Consulting Archeologist, shall establish whether the material remains under consideration contribute to scientific or humanistic understandings of past human behavior, cultural adaptation and related topics. The principal bureau archaeologist or the Department Consulting Archeologist, as appropriate, shall make a recommendation to the Federal land manager concerning these material remains.

(d) The Federal land manager shall make the determination based upon the facts established by and the recommendation of the principal bureau archaeologist or the Department Consulting Archeologist, as appropriate, and shall fully document the basis therefor, including consultation with Indian tribes for determinations regarding sites of religious or cultural importance.

(e) The Federal land manager shall make public notice of the determination and its limitations, including any permitting requirements for activities associated with the materials determined not to be archaeological resources for purposes of this part.

(f) Any interested individual may request in writing that the Departmental Consulting Archeologist review any final determination by the Federal land manager that certain remains, are not, or are no longer, archaeological resources. Two (2) copies of the request should be sent to the Departmental Consulting Archeologist, National Park Service, P.O. Box 37127, Washington, DC 20013-7127, and should document why the requestor disagrees with the determination of the Federal land manager. The Departmental Consulting Archeologist shall review the request, and, if appropriate, shall review the Federal land manager’s determination and its supporting documentation. Based on this review, the Departmental Consulting Archeologist shall prepare a final professional recommendation, and shall transmit the recommendation and the basis therefor to the head of the bureau for further consideration within 60 days of the receipt of the request.

(g) Any determination made pursuant to this section shall in no way affect the Federal land manager’s obligations under other applicable laws or regulations.

§ 7.34 Procedural information for securing permits.

Information about procedures to secure a permit to excavate or remove archaeological resources from public lands or Indian lands can be obtained from the appropriate Indian tribal authorities, the Federal land manager of the bureau that administers the specific area of the public lands or Indian lands for which a permit is desired, or from the state, regional, or national office of that bureau.

§ 7.35 Permitting procedures for Indian lands.

(a) If the lands involved in a permit application are Indian lands, the consent of the appropriate Indian tribal authority or individual Indian landowner is required by the Act and these regulations.

(b) When Indian tribal lands are involved in an application for a permit or a request for extension or modification of a permit, the consent of the Indian tribal government must be obtained. For Indian allotted lands outside reservation boundaries, consent from only
