

within the auspices of the municipality. When a municipality or fire district submits an application on behalf of a fire department, the fire department is precluded from submitting an additional application. Non-Federal airport and/or port authority fire departments are eligible, but only if they have a formally recognized arrangement with the local jurisdiction to provide fire suppression, on a first-due basis, outside the confines of the airport or port facilities. Airport or port authority fire departments whose sole responsibility is suppression of fires on the airport grounds or port facilities are not eligible for this grant program. Fire departments that are Federal or contracted by the Federal government and whose sole responsibility is suppression of fires on Federal installations are not eligible for this grant program. Fire stations that are not independent but are part of, or controlled by a larger fire department or agency, are typically not eligible. Fire departments that are for-profit departments (*i.e.*, do not have specific non-profit status or are not municipally based) are not eligible to apply for assistance under this program. Also not eligible for this program are ambulance services, rescue squads, auxiliaries, dive teams, urban search and rescue teams, fire service organizations or associations, and State/local agencies such as a forest service, fire marshal, hospitals, and training offices.

(c) Congress included in the legislation a list of fourteen activities eligible for funding under this program. Those activities are as follows:

- (1) To hire additional firefighting personnel;
- (2) To train firefighting personnel in firefighting, emergency response (including response to a terrorism incident or use of a weapon of mass destruction), arson prevention and detection, or the handling of hazardous materials, or to train firefighting personnel to provide any of the training in this paragraph (c);
- (3) To fund the creation of rapid intervention teams to protect firefighting personnel at scenes of fires and other emergencies;
- (4) To certify fire inspectors;

(5) To establish wellness and fitness programs for firefighting personnel to ensure that the firefighting personnel can carry out their duties;

(6) To fund emergency medical services provided by fire departments;

(7) To acquire additional firefighting vehicles, including fire trucks;

(8) To acquire additional firefighting equipment, including equipment for communications, monitoring, and response to a terrorism incident or use of a weapon of mass destruction;

(9) To acquire personal protective equipment required for firefighting personnel by the Occupational Safety and Health Administration, and other personal protective equipment for firefighting personnel, including protective equipment to respond to a terrorism incident or the use of a weapon of mass destruction;

(10) To modify fire stations, fire training facilities, and other facilities to protect the health and safety of firefighting personnel;

(11) To enforce fire codes;

(12) To fund fire prevention programs;

(13) To educate the public about arson prevention and detection; and

(14) To provide incentives for the recruitment and retention of volunteer firefighting personnel for volunteer firefighting departments and other firefighting departments that utilize volunteers.

(d) The specific activities that will be eligible for funding will be announced in the Notice of Funding Availability (NOFA) that we will publish pursuant to the program's annual appropriation.

§ 152.2 Definitions.

Active firefighter is a member of a fire department or organization in good standing that is qualified to respond to and extinguish fires or perform other fire department emergency services and has actively participated in such activities during the past year.

Bay is the part or compartment of a building that provides parking for one or more pieces of firefighting apparatus.

Career department is a fire suppression agency or organization in which all active firefighters are considered full-time employees, are assigned regular

duty shifts, and receive financial compensation for their services rendered on behalf of the department. Departments with active firefighters that are paid stipends on a per-call basis are not career departments. See the definition of combination department in this section.

Combination department is a fire suppression agency or organization in which at least one active firefighter receives financial compensation for his/her services rendered on behalf of the department and at least one active firefighter does not receive financial compensation for his/her services rendered on behalf of the department other than life/health insurance, workmen's compensation insurance, length of service awards, pay per-call or per-hour, or similar token compensation.

Construction is the creation of a new structure or any modification of the footprint or profile of an existing structure. Changes or renovations to an existing structure that do not change the footprint or profile of the structure but exceed either \$10,000 or 50 percent of the value of the structure, are also considered construction for the purposes of this grant program. Changes that are less than \$10,000 and/or 50 percent of the value of the structure are considered renovations, for the purposes of this grant program.

Direct delivery of training is training conducted within a training organization's own jurisdiction using the organization's own resources (trainers, facilities, equipment, etc.).

Fire boat is a vessel designed primarily for firefighting operations, however, may also be capable of water rescue and hazardous materials spills mitigation, etc. These vessels may also have the capability to pump a large volume of water from a drafting operation.

Fire department or fire department of a State is an agency or organization that has a "formally recognized arrangement" with a State, local or tribal authority (city, county, parish, fire district, township, town, or other non-Federal governing body) to provide fire suppression services within a fixed geographical area. A fire department can apply for assistance for its emergency medical services unit provided the unit

falls organizationally under the auspices of the fire department. A municipality or fire district may submit an application on behalf of a fire department when the fire department lacks the legal status to do so, e.g., where the fire department falls within the auspices of the municipality. When a municipality or fire district submits an application on behalf of a fire department, the fire department is precluded from submitting an additional application. Non-Federal airport and/or port authority fire departments are eligible, but only if they have a formally recognized arrangement with the local jurisdiction to provide fire suppression services, on a first-due basis, outside the confines of the airport or port facilities. Airport or port authority fire departments whose sole responsibility is suppression of fires on the airport grounds or port facilities are not eligible for this grant program. Fire departments that are Federal or contracted by the Federal government and whose sole responsibility is suppression of fires on Federal installations are not eligible for this grant program. Fire departments or fire stations that are not independent but are part of, or controlled by a larger fire department or agency, are typically not eligible. Fire departments that are for-profit departments (*i.e.*, do not have specific non-profit status or are not municipally based) are not eligible to apply for assistance under this program. Also not eligible for this program are ambulance services, rescue squads, auxiliaries, dive teams, urban search and rescue teams, fire service organizations or associations, and State/local agencies such as a forest service, fire marshal, hospitals, and training offices.

Firefighter. See the definition of *Active firefighter* in this section.

First-due response area is a geographical area in proximity to a fire or rescue facility and normally served by the personnel and apparatus from that facility in the event of a fire or other emergency.

Formally recognized arrangement is an agreement between the fire department and a local jurisdiction such that the jurisdiction has publicly or otherwise

formally deemed that the fire department has the first-due response responsibilities within a fixed geographical area of the jurisdiction. Often this agreement is recognized or reported to the appropriate State entity with cognizance over fire departments, such as registration with the State Fire Marshal's office, or the agreement is specifically contained in the fire department's or jurisdiction's charter.

Integrated communication systems and devices are equipment or systems for dispatch centers or communication infrastructure. Examples of these include 911 systems, computer-aided dispatch systems, global positioning systems, fixed repeaters, etc. Towers are an integral part of any communication system, but they are not eligible to be included in any award under this program.

New mission is a first-responder function that a department has never delivered in the past or that was once delivered but has since been abandoned by the department due to the lack of funding or community support. Examples include technical search and rescue, emergency medical services, hazardous materials response, etc. A new mission does not include services already provided from existing facilities. Opening additional stations to provide similar services would be considered an expansion of existing services.

Population means permanent residents in the first-due response area or jurisdiction served by the applicant. It would include students but does not include seasonal population or any population in area that the fire department responds to under mutual/automatic aid agreements.

Prop is something that can be held up in a classroom or moved from site to site in order to facilitate or enhance the training experience. A training tower (pre-fabricated or constructed) is not a prop.

Renovation is changes or alterations or modifications to an existing structure that do not exceed either \$10,000 and/or 50 percent of the market value of the structure and do not involve a change in the footprint or profile of the structure.

Rural community is a community that has low population density, zoned agri-

cultural or parkland, and whose fire department has a relatively low volume of fire calls.

State means any of the fifty States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

Suburban community is a community that has a medium density population with a portion of their jurisdiction being zoned for industrial and/or commercial uses, and whose fire department has a high call volume relative to a rural community.

Supplies means any expendable property that typically has a one-time use limit and an expectation of being replaced within one year.

The United States Fire Administrator's (USFA) operational and performance objectives are to reduce losses of life and reduce economic losses due to fire and related emergencies. Specific target groups are children under 14 years old, seniors over 65 years old, and firefighters.

Urban community is a community with a high density population with a major proportion of its jurisdiction zoned for commercial and/or industrial use and a significant call volume.

Vehicle is a mechanized device used for carrying passengers, goods, or equipment. Examples of vehicles include, but are not limited to: pumpers, brush trucks, tankers, tenders, attack pumpers, rescue (transport and non-transport), ambulances, foam units, quints, aerials, ladders, hazmat vehicles, squads, crash rescue (ARFF), boats, hovercraft, planes, and helicopters. Details concerning vehicle eligibility will be provided in the NOFA that will be published pursuant to this program's annual appropriation.

Volunteer department is a fire suppression agency or organization in which no active firefighters are considered full-time employees, and which no members receive financial compensation for their services rendered on behalf of the department other than life/health insurance, workers' compensation insurance, length of service awards, pay per-call or per-hour, or similar token compensation.

Watercraft is a small boat (less than 13 feet in length) or other watercraft

§ 152.3

44 CFR Ch. I (10–1–10 Edition)

designed and equipped for water and/or ice rescue, rather than basic fire-fighting operations. Generally, these vessels will be equipped with water rescue equipment, flotation devices, and other basic medical and rescue equipment and their primary function will be rescue activities.

§ 152.3 Availability of funds.

(a) Fire departments that have received funding under the Assistance to Firefighter Grant Program in previous years are eligible to apply for funding in the current year. However, due to our responsibilities under this program to assure adequate distribution of awards amongst certain types of departments (career, combination and volunteer) and certain types of communities (urban, suburban or rural) as well as an equitable geographic distribution, we reserve the right to fund or not to fund previous recipients of grants under this program in order for us to fulfill these responsibilities.

(b) No applicant can receive more than \$750,000 in Federal grant funds under this program in any fiscal year.

(c) No applicant can submit more than one application per fiscal year. Applicants that submit multiple applications will have each of their applications deemed ineligible.

(d) The scoring of the applications will determine the distribution of the funding across the eligible programs. Notwithstanding anything in this part, no more than twenty-five (25) percent of the funds appropriated for grants shall be used to assist grant recipients to purchase firefighting vehicles and not less than five (5) percent of the funds shall be used for fire prevention programs.

(e) We will not provide assistance under this part for activities for which another Federal agency has more specific or primary authority to provide assistance for the same purpose. We may disallow or recoup amounts that fall within other Federal agency's authority.

§ 152.4 Roles and responsibilities.

(a) Applicants must:

(1) Complete the application and certify to the accuracy of all the information contained therein;

(2) Certify that they are an eligible applicant, *i.e.*, a fire department, as defined in this part;

(3) Certify that the person submitting the application is duly authorized to do so, and

(b) Recipients (Grantees) must agree to:

(1) Share in the costs of the projects funded under this grant program. Fire departments in areas serving populations over 50,000 must agree to match the Federal grant funds with an amount of non-Federal funds equal to thirty (30) percent of the total project cost. Fire departments serving areas with a population of 50,000 or less will have to match the Federal grant funds with an amount of non-Federal funds equal to ten (10) percent of the total project cost. No waivers of this requirement will be granted except for fire departments of Insular Areas as provided for in 48 U.S.C. 1469a.

(2) Maintain operating expenditures during the grant's period of performance in the areas funded by a grant at a level equal to or greater than the average of their operating expenditures in the two years preceding the year in which this assistance is received.

(3) Obtain the appropriate Federal, State, or local permits necessary to fulfill the grant's scope of work including historical and/or environmental clearances as required.

(4) Retain grant files and supporting documentation for three years after the official closeout of the grant.

(5) Report to FEMA on the progress made on the grant and financial status of the grant. The award documents will detail the specific period of performance for each grantee and provide instructions on the frequency and timing of the required performance reports.

(6) Maintain documentation to support the expenditure of grant funds as well as pertinent grant decisions.

(7) Make their grant files and other books and records related to the grant, available if requested for an audit to ensure compliance with any requirement of the grant program.

(8) Agree to provide information to the U.S. Fire Administration's National Fire Incident Reporting System (NFIRS) for the period covered by the grant. If a grantee does not currently
