

## Department of Health and Human Services

## § 74.18

rule restricts subawards and contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

[59 FR 43760, Aug. 25, 1994, as amended at 72 FR 9235, Mar. 1, 2007]

### § 74.14 Special award conditions.

(a) The HHS awarding agency may impose additional requirements as needed, without regard to § 74.4, above, if an applicant or recipient:

- (1) Has a history of poor performance;
- (2) Is not financially stable;
- (3) Has a management system that does not meet the standards prescribed in this part;
- (4) Has not conformed to the terms and conditions of a previous award; or
- (5) Is not otherwise responsible.

(b) When it imposes any additional requirements, the HHS awarding agency must notify the recipient in writing as to the following:

- (1) The nature of the additional requirements;
- (2) The reason why the additional requirements are being imposed;
- (3) The nature of the corrective actions needed;
- (4) The time allowed for completing the corrective actions; and
- (5) The method for requesting reconsideration of the additional requirements imposed.

(c) The HHS awarding agency will promptly remove any additional requirements once the conditions that prompted them have been corrected.

### § 74.15 Metric system of measurement.

The Metric Conversion Act, as amended by the Omnibus Trade and Competitiveness Act, 15 U.S.C. 205, declares that the metric system is the preferred measurement system for U.S. trade and commerce. The Act requires each Federal agency to establish a date or dates in consultation with the Secretary of Commerce, when the metric system of measurement will be used in the agency's procurements, grants, and other business-related activities. Metric implementation may take longer where the use of the system is initially impractical or likely to cause significant inefficiencies in the accomplishment of federally-funded activities.

HHS awarding agencies will follow the provisions of E.O. 12770, "Metric Usage in Federal Government Programs."

### § 74.16 Resource Conservation and Recovery Act (RCRA, Section 6002 of Pub. L. No. 94-580 (Codified at 42 U.S.C. 6962)).

Under the Act, any State agency or agency of a political subdivision of a State which is using appropriated Federal funds must comply with section 6002 of the RCRA. This section requires that preference be given in procurement programs to the purchase of specific products containing recycled materials identified in guidelines developed by the Environmental Protection Agency (EPA) (40 CFR parts 247-254). Accordingly, State and local institutions of higher education, hospitals, and other nonprofit organizations that receive direct HHS awards or other Federal funds shall give preference in their procurement programs funded with Federal funds to the purchase of recycled products pursuant to the EPA guidelines.

### § 74.17 Certifications and representations.

Unless prohibited by statute or codified regulation, each HHS awarding agency is authorized and encouraged to allow recipients to submit certifications and representations required by statute, executive order, or regulation on an annual basis, if the recipients have ongoing and continuing relationships with the HHS awarding agency. Annual certifications and representations shall be signed by the responsible official(s) with the authority to ensure recipients' compliance with the pertinent requirements.

- (a) The funds provided under this part shall be administered in compliance with the standards set forth in part 87 (Equal Treatment for Faith-based Organizations) of this chapter.
- (b) [Reserved]

#### FINANCIAL AND PROGRAM MANAGEMENT

#### § 74.20 Purpose of financial and program management.

Sections 74.21 through 74.28 prescribe standards for financial management systems, methods for making payments, and rules for satisfying cost sharing and matching requirements, accounting for program income, budget revision approvals, making audits, determining allowability of cost, and establishing fund availability.

#### § 74.21 Standards for financial management systems.

(a) Recipients shall relate financial data to performance data and develop unit cost information whenever practical. For awards that support research, unit cost information is usually not appropriate.

(b) Recipients' financial management systems shall provide for the following:

(1) Accurate, current and complete disclosure of the financial results of each HHS-sponsored project or program in accordance with the reporting requirements set forth in § 74.52. If the HHS awarding agency requires reporting on an accrual basis from a recipient that maintains its records on other than an accrual basis, the recipient shall not be required to establish an accrual accounting system. These recipients may develop such accrual data for their reports on the basis of an analysis of the documentation on hand.

(2) Records that identify adequately the source and application of funds for HHS-sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, income and interest.

(3) Effective control over and accountability for all funds, property and

other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.

(4) Comparison of outlays with budget amounts for each award. Whenever appropriate, financial information should be related to performance and unit cost data. (Unit cost data are usually not appropriate for awards that support research.)

(5) Written procedures to minimize the time elapsing between the transfer of funds to the recipient from the U.S. Treasury and the issuance or redemption of checks, warrants or payments by other means for program purposes by the recipient. To the extent that the provisions of the Cash Management Improvement Act (CMIA) (Pub. L. 101–453) and its implementing regulations, "Rules and Procedures for Funds Transfers," (31 CFR part 205) apply, payment methods of State agencies, instrumentalities, and fiscal agents shall be consistent with CMIA Treasury-State Agreements, or the CMIA default procedures codified at 31 CFR 205.9(f).

(6) Written procedures for determining the reasonableness, allocability and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

(7) Accounting records, including cost accounting records, that are supported by source documentation.

(c) Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, the HHS awarding agency, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(d) The HHS awarding agency may require adequate fidelity bond coverage where the recipient lacks sufficient coverage to protect the Federal Government's interest.

(e) Where bonds are required in the situations described in § 74.21 (c) and (d), the bonds shall be obtained from companies holding certificates of authority as acceptable sureties, as prescribed in 31 CFR part 223, "Surety Companies Doing Business with the United States."
