

§ 233.80

the State's title X or XVI plan. Blindness may be considered as continuing until a determination by the reviewing physician establishes the fact that the recipient's vision has improved beyond the State's definition of blindness set forth under its State title of X or XVI plan.

(2) *Administrative expenses.* Federal financial participation is available in any expenditures incident to the eye examination necessary to determine whether an individual is blind.

[36 FR 3867, Feb. 27, 1971, as amended at 40 FR 25819, June 19, 1975]

§ 233.80 Disability.

(a) *State plan requirements.* A State plan under title XIV or XVI of the Social Security Act must:

(1) Contain a definition of permanently and totally disabled, showing that:

(i) "Permanently" is related to the duration of the impairment or combination of impairments; and

(ii) "Totally" is related to the degree of disability.

The following definition is recommended:

"Permanently and totally disabled" means that the individual has some permanent physical or mental impairment, disease, or loss, or combination thereof, this substantially precludes him from engaging in useful occupations within his competence, such as holding a job.

Under this definition:

"Permanently" refers to a condition which is not likely to improve or which will continue throughout the lifetime of the individual; it may be a condition which is not likely to respond to any known therapeutic procedures, or a condition which is likely to remain static or to become worse unless certain therapeutic measures are carried out, where treatment is unavailable, inadvisable, or is refused by the individual on a reasonable basis; "permanently" does not rule out the possibility of vocational rehabilitation or even possible recovery in light of future medical advances or changed prognosis; in this sense the term refers to a condition which continues indefinitely, as distinct from one which is temporary or transient;

"Totally" involves considerations in addition to those verified through the medical findings, such as age, training, skills, and work experience, and the probable functioning of the individual in his particular situation in light of his impairment; an individual's disability would usually be tested in relation to ability to engage in remunerative

45 CFR Ch. II (10-1-10 Edition)

employment; the ability to keep house or to care for others would be the appropriate test for (and only for) individuals, such as housewives, who were engaged in this occupation prior to the disability and do not have a history of gainful employment; eligibility may continue, even after a period of rehabilitation and readjustment, if the individual's work capacity is still very considerably limited (in comparison with that of a normal person) in terms of such factors as the speed with which he can work, the amount he can produce in a given period of time, and the number of hours he is able to work.

(2) Provide for the review of each medical report and social history by technically competent persons—not less than a physician and a social worker qualified by professional training and pertinent experience—acting cooperatively, who are responsible for the agency's decision that the applicant does or does not meet the State's definition of permanent and total disability. Under this requirement:

(i) The medical report must include a substantiated diagnosis, based either on existing medical evidence or upon current medical examination;

(ii) The social history must contain sufficient information to make it possible to relate the medical findings to the activities of the "useful occupation" and to determine whether the individual is totally disabled, and

(iii) The review physician is responsible for setting dates for reexamination; the review team is responsible for reviewing reexamination reports in conjunction with the social data to determine whether disabled recipients whose health condition may improve continue to meet the State's definition of permanent and total disability.

(3) Provide for cooperative arrangements with related programs, such as vocational rehabilitation services.

(b) *Federal financial participation—(1) Assistance payments.* Federal financial participation is available in payments to or in behalf of any otherwise eligible individual who is permanently and totally disabled. Permanent and total disability may be considered as continuing until the review team establishes the fact that the recipient's disability is no longer within the State's definition of permanent and total disability.

(2) *Administrative expenses.* Federal financial participation is available in any expenditures incident to the medical examinations necessary to determine whether an individual is permanently and totally disabled.

[36 FR 3867, Feb. 27, 1971]

§ 233.90 Factors specific to AFDC.

(a) *State plan requirements.* A State plan under title IV-A of the Social Security Act shall provide that:

(1) The determination whether a child has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent, or (if the State plan includes such cases) the unemployment of his or her parent who is the principal earner will be made only in relation to the child's natural or adoptive parent, or in relation to the child's stepparent who is married, under State law, to the child's natural or adoptive parent and is legally obligated to support the child under State law of general applicability which requires stepparents to support stepchildren to the same extent that natural or adoptive parents are required to support their children. Under this requirement, the inclusion in the family, or the presence in the home, of a "substitute parent" or "man-in-the-house" or any individual other than one described in this paragraph is not an acceptable basis for a finding of ineligibility or for assuming the availability of income by the State; and

(2) Where it has reason to believe that a child receiving aid is in an unsuitable environment because of known or suspected instances of physical or mental injury, sexual abuse or exploitation, or negligent treatment or maltreatment of such child, under circumstances which indicate the child's health or welfare is threatened, the State or local agency will:

(i) Bring such condition to the attention of a court, law-enforcement agency, or other appropriate agency in the State, providing whatever data it has with respect to the situation;

(ii) In reporting such conditions, use the same criteria as are used in the State for all other parents and children; and

(iii) Cooperate with the court or other agency in planning and implementing action in the best interest of the child.

(b) *Conditions for plan approval.* (1) A child may not be denied AFDC either initially or subsequently "because of the conditions of the home in which the child resides", or because the home is considered "unsuitable", unless "provision is otherwise made pursuant to a State statute for adequate care and assistance with respect to such child". (Section 404(b) of the Social Security Act.)

(2) An otherwise eligible child who is under the age of 18 years may not be denied AFDC, regardless of whether she attends school (unless she is required to participate in the JOBS program pursuant to §250.30 and she is assigned to educational activities) or makes satisfactory grades.

(3) A state may elect to include in its AFDC program children age 18 who are full-time students in a secondary school, or in the equivalent level of vocational or technical training, and who may reasonably be expected to complete the program before reaching age 19.

(4)(i) A child may not be denied AFDC either initially or subsequently because a parent or other caretaker relative fails to cooperate with the child support agency in performing any of the activities needed to:

(A) Establish the paternity of a child born out of wedlock; or

(B) Obtain support from a person having a legal duty to support the child.

(ii) Any parent or caretaker relative who fails to so cooperate shall be treated in accordance with §232.12 of this chapter.

(5) [Reserved]

(6) An otherwise eligible child may not be denied AFDC if a parent is mentally or physically incapacitated as defined in paragraph (c)(1)(iv) of this section.

(c) *Federal financial participation.* (1) Federal financial participation under title IV-A of the Social Security Act in payments with respect to a "dependent child," as defined in section 406(a) of the Act, is available within the following interpretations:
