(3) Current Collections Performance Level. Current support is money applied to current support obligations and does not include payment plans for payment towards arrears. If included, voluntary collections must be included in both the numerator and the denominator. This measure is computed monthly and the total of all months is reported at the end of the year. The equation to compute the measure is as follows (expressed as a percent):

\[
\frac{\text{Number Dollars Collected for Current Support in IV-D Cases}}{\text{Total Dollars Owed for Current Support in IV-D Cases}} \times 100
\]

(4) Arrearage Collection Performance Level. This measure includes those cases where all of the past-due support was disbursed to the family, or retained by the State because all the support was assigned to the State. If some of the past-due support was assigned to the State and some was to be disbursed to the family, only those cases where some of the support actually went to the family can be included. The equation to compute the measure is as follows (expressed as a percent):

\[
\frac{\text{Total number of eligible IV-D cases paying toward arrears}}{\text{Total number of IV-D cases with arrears due}} \times 100
\]

(5) Cost-Effectiveness Performance Level. Interstate incoming and outgoing distributed collections will be included for both the initiating and the responding State in this measure. The equation to compute this measure is as follows (expressed as a ratio):

\[
\frac{\text{Total IV-D Dollars Collected}}{\text{Total IV-D Dollars Expended}}
\]

(b) For incentive purposes, the measures will be weighted in the following manner. Each State will earn five scores based on performance on each of the five measures. Each of the first three measures (paternity establishment, order establishment, and current collections) earn 100 percent of the collections base as defined in §305.31(e) of this part. The last two measures (collections on arrears and cost-effectiveness) earn a maximum of 75 percent of the collections base as defined in §305.31(e) of this part.

§ 305.31 Amount of incentive payment.

(a) The incentive payment for a State for a fiscal year is equal to the incentive payment pool for the fiscal year, multiplied by the State incentive payment share for the fiscal year.

(b) The incentive payment pool is:

1. $422,000,000 for fiscal year 2000;
2. $429,000,000 for fiscal year 2001;
3. $450,000,000 for fiscal year 2002;
4. $461,000,000 for fiscal year 2003;
5. $454,000,000 for fiscal year 2004;
6. $446,000,000 for fiscal year 2005;
7. $458,000,000 for fiscal year 2006;
§ 305.33 Determination of applicable percentages based on performance levels.

(a) A State’s paternity establishment performance level for a fiscal year is, at the option of the State, the IV-D paternity establishment percentage or the Statewide paternity establishment percentage determined under §305.2 of

Office of Child Support Enforcement, ACF, HHS

(8) $471,000,000 for fiscal year 2007;
(9) $483,000,000 for fiscal year 2008; and
(10) For any succeeding fiscal year, the amount of the incentive payment pool for the fiscal year that precedes such succeeding fiscal year multiplied by the percentage (if any) by which the CPI for such preceding fiscal year exceeds the CPI for the second preceding fiscal year. In other words, for each fiscal year following fiscal year 2008, the incentive payment pool will be multiplied by the percentage increase in the CPI between the two preceding years. For example, if the CPI increases by 1 percent between fiscal years 2007 and 2008, then the incentive pool for fiscal year 2009 would be a 1 percent increase over the $483,000,000 incentive payment pool for fiscal year 2008, or $487,830,000.

(c) The State incentive payment share for a fiscal year is the incentive base amount for the State for the fiscal year divided by the sum of the incentive base amounts for all of the States for the fiscal year.

(d) A State’s maximum incentive base amount for a fiscal year is the State’s collections base for the fiscal year for the paternity establishment, support order, and current collections performance measures and 75 percent of the State’s collections base for the fiscal year for the arrearage collections and cost-effectiveness performance measures.

(e) A State’s maximum incentive base amount for a State for a fiscal year is zero, unless a Federal audit performed under §305.60 of this part determines that the data submitted by the State for the fiscal year and used to determine the performance level involved are complete and reliable.

(f) A State’s collections base for a fiscal year is equal to: two times the sum of the total amount of support collected for Current Assistance cases plus two times the total amount of support collected in Former Assistance cases plus the total amount of support collected in Never Assistance/other cases during the fiscal year, that is: 2(Current Assistance collections + Former Assistance collections) + all other collections.

§ 305.32 Requirements applicable to calculations.

In calculating the amount of incentive payments or penalties, the following conditions apply:

(a) Each measure is based on data submitted for the Federal fiscal year. The Federal fiscal year runs from October 1st of one year through September 30th of the following year.

(b) Only those Current Assistance, Former Assistance and Never Assistance/other collections disbursed and those expenditures claimed by the State in the fiscal year will be used to determine the incentive payment payable for that fiscal year;

(c) Support collected by one State at the request of another State will be treated as having been collected in full by each State;

(d) Amounts expended by the State in carrying out a special project under section 455(e) of the Act will be excluded from the State’s total IV-D dollars expended in computing incentive payments;

(e) Fees paid by individuals, recovered costs, and program income such as interest earned on collections will be deducted from total IV-D dollars expended; and

(f) States must submit data used to determine incentives and penalties following instructions and formats as required by HHS on Office of Management and Budget (OMB) approved reporting instruments. Data necessary to calculate performance for incentives and penalties for a fiscal year must be submitted to the Office of Child Support Enforcement by December 31st, the end of the first quarter after the end of the fiscal year. Only data submitted as of December 31st will be used to determine the State’s performance for the prior fiscal year and the amount of incentive payments due the States.
