(2) FFP for alternative system configurations is further limited as follows:

(ii) FFP is available at the applicable matching rate for minor alterations to the separate automated or manual processes that are part of an alternative system configuration and for operating costs including hardware, operational software and applications software of a computerized support enforcement system.

(iii) FFP is not available for developing new systems or making major changes and enhancements to separate automated or manual processes so that alternative system configurations meet conditions for waiver.
