

§ 69.1

- 69.171 When the tonnage mark is considered submerged.
- 69.173 Tonnage assignments for vessels with only one deck.
- 69.175 Tonnage assignments for vessels with a second deck.
- 69.177 Markings.
- 69.179 Certification of markings.
- 69.181 Locating the line of the second deck.
- 69.183 Figures.

Subpart E—Simplified Measurement System

- 69.201 Purpose.
- 69.203 Definitions.
- 69.205 Application for measurement services.
- 69.207 Measurements.
- 69.209 Calculation of tonnages.

AUTHORITY: 46 U.S.C. 2301, 14103; Department of Homeland Security Delegation No. 0170.1.

SOURCE: CGD 87–015b, 54 FR 37657, Sept. 12, 1989, unless otherwise noted.

Subpart A—General**§ 69.1 Purpose.**

This part implements legislation concerning the measurement of vessels to determine their tonnage (part J of 46 U.S.C. subtitle II). Tonnages are required before a vessel may be documented as a vessel of the United States. Also, tonnages are used to apply commercial vessel safety regulations based on tonnage, to meet the requirements of the International Convention on Tonnage Measurement of Ships, 1969, and to determine Federal and State regulatory fees and private operational charges based on tonnage. Tonnages are determined by the physical measurement of a vessel (Convention, Standard, and Dual Measurement Systems) or by application of a formula based on the vessel's dimensions provided by the owner (Simplified Measurement System). This part indicates the particular measurement system or systems under which the vessel is required or eligible to be measured, describes the application and measurement procedures for each system, identifies the organizations authorized to measure vessels under this part, and provides for the appeal of measurement organizations' decisions.

§ 69.3 Applicability.

This part applies to vessels of the United States over five net tons (as that tonnage is determined under this part) which are required or eligible to be measured under this part, a Federal law, or an international agreement or which are subject to a Federal law or international agreement based on the vessel's tonnage.

§ 69.5 Vessels required or eligible to be measured.

(a) The following vessels (including public vessels) are required to be measured under this part:

(1) Vessels that are to be documented as a vessel of the United States.

(2) Vessels of 79 feet or more in overall length that engage on a foreign voyage.

(3) Vessels subject to a Federal law or regulation based on vessel tonnage.

(4) Vessels determined by the Commandant to require measurement under this part.

(b) The following vessels are not required to be measured under this part but are eligible to be measured, if the owner requests:

(1) Public vessels that are not to be documented and will not engage on a foreign voyage.

(2) Vessels of war.

[CGD 87–015b, 54 FR 37657, Sept. 12, 1989, as amended by CGD 92–058, 57 FR 59938, Dec. 17, 1992]

§ 69.7 Vessels transiting the Panama and Suez Canals.

(a) All vessels intending to transit the Panama Canal, other than vessels of war, must be measured and certificated under the system prescribed in 35 CFR part 135.

(b) All vessels intending to transit the Suez Canal must be measured and certificated under the Arab Republic of Egypt Suez Canal Authority Rules of Navigation, part IV.

(c) Panama Canal and Suez Canal tonnage certificates are in addition to tonnage certificates issued under this part.

(d) Tonnage measurement services for Panama Canal and Suez Canal certificates are provided by measurement organizations authorized by the respective canal authority.
