**Figure 3**—Winder. Material: Packing; fiber, hard sheet, Specification HH-P-91; dimensions in inches: Unless otherwise specified; tolerances: Fractions plus or minus \( \frac{1}{32} \)-inch.

(i) Booklet of instructions. The fishing instructions shall be prepared in pamphlet form, approximately 2½ inches by 4½ inches on parchment paper, in waterproof ink, with printing on one side of the paper only. The booklet shall contain a complete description of how and under what conditions each component should be used, and general suggestions for fishing. It shall be prepared in easy to read form in such a manner that a completely inexperienced person will know what equipment to use and how to use it. Both physical form and the contents of the booklet shall be specially approved by the Commandant, U.S. Coast Guard, prior to acceptance. A copy of approved contents for the instruction booklet will be furnished on request.

§ 160.061–4 Kit assembly.

(a) Preparation of items. The items shall be prepared for packing into the kit as indicated below. Each transparent envelope shall be closed by heat sealing.

Coast Guard, DHS

§ 160.062–2

(b) Packing of items. The components of the kit, after being prepared as specified, shall be packed in the container in such manner that there is a minimum possibility of any item being bent or crushed. The marking label shall be placed on the bottom of the container with the wording facing out. The instruction booklet shall be packed, front cover up, under the lid. The container shall be sealed after the components have been packaged therein with an 18-inch length of ¾-inch wide adhesive tape conforming to Specification JAN-P-127. The tape shall be applied around the perimeter of the container with an equal amount on each side of the juncture of the two sections of the container. An alternate packaging arrangement acceptable to the Commandant will be acceptable.

§ 160.061–5 Marking.

(a) General. The containers shall be stenciled on the bottom in black with the manufacturer’s name or trademark and type or model number in letters approximately ⅜ inch high, together with the following legend in letters ⅜ inch high:

UNITED STATES COAST GUARD
APPROVAL NO. 160.061/—
EMERGENCY FISHING TACKLE KIT
OPEN ONLY
FOR ACTUAL EMERGENCY USE
NOT FOR INSPECTION

(b) [Reserved]

§ 160.062–1 Applicable specifications, and referenced material.

(a) Specifications and standards. The following specifications of the issue in effect on the date releases are manufactured or reconditioned shall form a part of the regulations of this subpart (see §§2.75–17 through 2.75–19 of subchapter A (Procedures Applicable to the Public) of this chapter):

(1) Military Specifications and Standards:

MIL-R-15041C—Releases, lifesaving equipment, hydraulic and manual.

MIL-STD-105—Sample procedures and tables for inspection by attributes.

(2) Federal Test Method Standards:

Standard No. 151—Metals, test methods.

(b) Technical references. For guidance purposes the technical reference may be used, which is entitled “Corrosion Handbook,” 1948, by H. H. Uhlig, and published by John Wiley & Sons, Inc., 605 Third Avenue, New York, N.Y. 10016, and priced at $21 per copy.

(c) Copies on file. A copy of the specifications and standards listed in paragraph (a) of this section shall be kept on file by the manufacturer, together with the approved plans, specifications and certificate of approval. It is the manufacturer’s responsibility to have the latest issue, including addenda and changes, of these specifications and standards on hand when manufacturing or reconditioning equipment under this specification subpart.

(1) The military specifications and standards may be obtained from the Commanding Officer, Naval Supply Depot, 5801 Tabor Avenue, Philadelphia, Pa. 19120.

(2) The Federal standards may be obtained from the Business Service Center, General Services Administration, Washington, DC 20407.

§ 160.062–2 Types.

(a) The hydraulic releases referred to under §160.062–1(a)(1) are of the diaphragm-spring plunger type, which releases a buoyant load under hydrostatic pressure.

(b) All hydraulic releases given an approval under this subpart shall be designed and tested to operate with spring-tensioned gripes. Such gripes shall be considered as a part of each approval.

(c) Alternate designs will be given special consideration, but the expense of their preliminary investigation at a
