§ 185.722 Monthly inspections.
Each survival craft, rescue boat, and launching appliance on a vessel must be inspected monthly, using the manufacturers instructions to make sure it is complete and in good order.

§ 185.724 Quarterly inspections.
(a) Each winch control apparatus of a launching appliance on a vessel, including motor controllers, emergency switches, master switches, and limit switches, must be examined once in each 3 months.
(b) The examination required by paragraph (a) of this section must include the removal of drain plugs and the opening of drain valves to make sure that enclosures are free of water.

§ 185.726 Annual inspections.
(a) Each rescue boat must be stripped, cleaned, and thoroughly inspected, and any necessary repairs made at least once each year, including emptying and cleaning of each fuel tank, and refilling it with fresh fuel.
(b) Each davit, winch, fall and other launching appliance must be thoroughly inspected, and any necessary repairs made, at least once each year.
(c) Each item of lifesaving equipment with an expiration date must be replaced during the annual inspection and repair if the expiration date has passed.

§ 185.728 Testing and servicing of Emergency Position Indicating Radiobeacons (EPIRB).
The master of the vessel shall ensure that:
(a) Each EPIRB, other than an EPIRB in an inflatable liferaft, must be tested monthly, using the integrated test circuit and output indicator, to determine that it is operative;
(b) The EPIRB’s battery is replaced after it is used, or before the date required by FCC regulations in 47 CFR part 80, whichever comes sooner; and
(c) The EPIRB test required by paragraph (a) shall be logged or otherwise documented, as applicable.

§ 185.730 Servicing of inflatable life rafts, inflatable buoyant apparatus, inflatable life jackets, and inflated rescue boats.
(a) An inflatable liferaft or inflatable buoyant apparatus must be serviced at a facility specifically approved by the Commandant for the particular brand, and in accordance with servicing procedures meeting the requirements of part 160, subpart 160.151, of this chapter—
(1) No later than the month and year on its servicing sticker affixed under 46 CFR 160.151–57(n), except that servicing may be delayed until the next scheduled inspection of the vessel, provided that the delay does not exceed 5 months; and
(2) Whenever the container is damaged or the container straps or seals are broken.
(b) Each inflatable life jacket and hybrid inflatable life jacket or work vest must be serviced:
(1) Within 12 months of its initial packing; and
(2) Within 12 months of each subsequent servicing, except that servicing may be delayed until the next scheduled inspection of the vessel, provided that the delay does not exceed 5 months.
(c) Each inflatable life jacket must be serviced in accordance with the servicing procedure under §160.176 in subchapter Q of this chapter, or other standard specified by the Commandant.
