(h) *Operating-differential subsidy (ODS)* means, except as the operator and the United States Government should agree upon a lesser amount, the excess of cost of subsidizable items of expense incurred in the operation under United States registry of a vessel over the estimated fair and reasonable cost of the same items of expense (excluding any increase in the cost of such items necessitated by features incorporated for national defense), if such vessel were operated under the registry of a foreign country whose vessels are substantial competitors of the vessel.

(i) *Operating-differential subsidy agreement (ODSA)* means the Agreement entered into by the operator and the United States Government for the payment of operating-differential subsidy.

(j) *ODS rate* means the method adopted by the Maritime Administrator for determining the amount of ODS that is to be paid for an item of subsidizable expense.

(k) *Operator* means any individual, partnership, corporation or association that contracts with the United States Government under Title VI of the Act to receive ODS.

(l) *Reduced crew period* means a period in port between or during voyages

§ 282.3 Waivers.

In special circumstances and for good cause shown, the procedures prescribed in this part may be waived in writing, by mutual agreement of the parties, in keeping with the circumstances then present, so long as the procedures adopted are consistent with the Act and with the intent of these regulations.

Subpart B—Foreign-Flag Competition**§ 282.10 Basis for determining foreign-flag competition.**

The foreign-flag competition shall form the basis for determining the cost disadvantage of operating the subsidized vessels in the essential service. The Maritime Administrator shall determine the foreign-flag competition from those countries that have carried a significant amount of cargo in the service by using the following procedures:

(a) The primary source of information shall be commodity import/export data compiled by the Bureau of the Census. Cargo data shall be compiled in long tons. Trade publications which show advertised sailings shall be used

§ 282.11

46 CFR Ch. II (10–1–10 Edition)

to verify the liner services offered by foreign-flag operators.

(b) The U.S. import/export data shall be compiled by reference to countries actually served by the subsidized operator, using the subsidized operator's

own competition data for each country to eliminate the flags which are not substantial competitors with the subsidized vessels. An example of the weighting procedure follows:

EXAMPLE

	Country A	Country B	Country C	Total
I. Determination of U.S.-Flag Weights:				
U.S. Subsidized Carrier	300	500	200	1,000
Percent	30	50	20	100
II. Actual Foreign-Flag Carryings:				
Flag 1	1,500	500	1,000	3,000
Flag 2	4,000	6,000	0	10,000
Flag 3	5,000	2,000	5,000	12,000
III. Adjusted Foreign-Flag Carrying (Actual Foreign × U.S. wts):				
Flag 1	450	250	200	900
Flag 2	1,200	3,000	0	4,200
Flag 3	1,500	1,000	1,000	3,500
IV. Competition Computation:				
		Actual percent		8,600 Re-weight (percent)
Flag 2	4200/8600	49.0		55.0
Flag 3	3500/8600	41.0		45.0
		90.0		100.0

(c) The principal foreign flags shall be those countries whose cargo carrying would rank the flag among those carriers that aggregate at least 50 percent of the total foreign-flag carryings.

(d) The total cargo carryings of each principal foreign flag shall be expressed as a percentage of total cargo carryings of all principal flags on the service. The resultant ratio shall be applied to the costs of that principal flag for determining its portion of the composite foreign cost, which shall be used for establishing the cost disadvantage of U.S. vessels in the service.

(e) The determination of the principal competitors and competition weight factors shall be based upon the import/export data for the twelve months of the penultimate calendar year preceding January 1 of the subsidized year to allow several months to collect foreign cost data.

§ 282.11 Ranking of flags.

The operators under each principal foreign flag shall be ranked as predominant, secondary, etc., for the purpose of establishing the priority of costs which are representative of the flag. For liner cargo vessels, the rank-

ing of operators shall be based on the long tons of cargo carried.

(a) If the predominant operator is an agent, charterer or a joint venture in which the vessels are owned by two or more lines, under the name of such agent, charterer or joint venture, the predominant operator shall be the owner whose vessels carried the most cargo.

(b) If cost experience cannot be obtained for the foreign-flag operators in the subsidized service, MARAD may use the costs of another service, following the same ranking of operators, if possible.

Subpart C—Calculation of Subsidy Rates

§ 282.20 Amount of subsidy payable.

(a) *Daily Rates.* Daily ODS rates shall be used to quantify the amount of ODS payable. The daily ODS rate represents the cost differential between the subsidized vessel and its foreign-flag competition. A daily rate shall be calculated for each subsidized item of expense identified in the ODSA, and the total of all items is the daily amount
