§ 68.6 Telephones with volume control.

As of January 1, 2000, all telephones, including cordless telephones, as defined in §15.3(j) of this chapter, manufactured in the United States (other than for export) or imported for use in the United States, must have volume control in accordance with §68.317. Secure telephones, as defined by §68.3, are exempt from this section, as are telephones used with public mobile services or private radio services.

§ 68.7 Technical criteria for terminal equipment.

(a) Terminal equipment shall not cause harm, as defined in §68.3, to the public switched telephone network.

(b) Technical criteria published by the Administrative Council for Terminal Attachments are the presumptively valid technical criteria for the protection of the public switched telephone network from harms caused by the connection of terminal equipment, subject to the appeal procedures in §68.614 of this part.

Subpart B—Conditions on Use of Terminal Equipment

§ 68.100 General.

In accordance with the rules and regulations in this part, terminal equipment may be directly connected to the public switched telephone network, including private line services provided over wireline facilities that are owned by providers of wireline telecommunications.
