

(i) The provisions of this section shall not apply to International broadcast stations or to stations authorized under part 74 of this chapter (except as provided in §74.783).

(j) A change in call sign assignment will be made effective on the date specified in the postcard acknowledging the assignment of the requested new call sign and authorizing the change. Unless the requested change in call sign assignment is subject to a pending transfer or assignment application, the requester is required to include in its on-line call sign request a specific effective date to take place within 45 days of the submission of its electronic call sign request. Postponement of the effective date will be granted only in response to a timely request and for only the most compelling reasons.

(k) Four-letter combinations commencing with "W" or "K" which are assigned as call signs to ships or to other radio services are not available for assignment to broadcast stations, with or without the "-FM" or "-TV" suffix.

(l) Users of nonlicensed, low-power devices operating under part 15 of this chapter may use whatever identification is currently desired, so long as propriety is observed and no confusion results with a station for which the FCC issues a license.

(m) Where a requested call sign, without the "-FM," "-TV," "-CA" or "-LP" suffix, would conform to the call sign of any other non-commonly owned station(s) operating in a different service, an applicant utilizing the on-line reservation and authorization system will be required to certify that consent to use the secondary call sign has been obtained from the holder of the primary call sign.

[63 FR 71603, Dec. 29, 1998, as amended at 65 FR 30007, May 10, 2000]

§ 73.3555 Multiple ownership.

(a)(1) *Local radio ownership rule.* A person or single entity (or entities under common control) may have a cognizable interest in licenses for AM or FM radio broadcast stations in accordance with the following limits:

(i) In a radio market with 45 or more full-power, commercial and non-commercial radio stations, not more

than 8 commercial radio stations in total and not more than 5 commercial stations in the same service (AM or FM);

(ii) In a radio market with between 30 and 44 (inclusive) full-power, commercial and noncommercial radio stations, not more than 7 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM);

(iii) In a radio market with between 15 and 29 (inclusive) full-power, commercial and noncommercial radio stations, not more than 6 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM); and

(iv) In a radio market with 14 or fewer full-power, commercial and non-commercial radio stations, not more than 5 commercial radio stations in total and not more than 3 commercial stations in the same service (AM or FM); provided, however, that no person or single entity (or entities under common control) may have a cognizable interest in more than 50% of the full-power, commercial and noncommercial radio stations in such market unless the combination of stations comprises not more than one AM and one FM station.

(2) Overlap between two stations in different services is permissible if neither of those two stations overlaps a third station in the same service.

(b) *Local television multiple ownership rule.* An entity may directly or indirectly own, operate, or control two television stations licensed in the same Designated Market Area (DMA) (as determined by Nielsen Media Research or any successor entity) only under one or more of the following conditions:

(1) The Grade B contours of the stations (as determined by §73.684) do not overlap; or

(i) At the time the application to acquire or construct the station(s) is filed, at least one of the stations is not ranked among the top four stations in the DMA, based on the most recent all-day (9 a.m.-midnight) audience share, as measured by Nielsen Media Research or by any comparable professional, accepted audience ratings service; and

(ii) At least 8 independently owned and operating, full-power commercial

and noncommercial TV stations would remain post-merger in the DMA in which the communities of license of the TV stations in question are located. Count only those stations the Grade B signal contours of which overlap with the Grade B signal contour of at least one of the stations in the proposed combination. In areas where there is no Nielsen DMA, count the TV stations present in an area that would be the functional equivalent of a TV market. Count only those TV stations the Grade B signal contours of which overlap with the Grade B signal contour of at least one of the stations in the proposed combination.

(2) [Reserved]

(c) *Radio-television cross-ownership rule*—(1) *This rule is triggered when:* (i) The predicted or measured 1 mV/m contour of an existing or proposed FM station (computed in accordance with § 73.313) encompasses the entire community of license of an existing or proposed commonly owned TV broadcast station(s), or the Grade A contour(s) of the TV broadcast station(s) (computed in accordance with § 73.684) encompasses the entire community of license of the FM station; or

(ii) The predicted or measured 2 mV/m groundwave contour of an existing or proposed AM station (computed in accordance with § 73.183 or § 73.386), encompasses the entire community of license of an existing or proposed commonly owned TV broadcast station(s), or the Grade A contour(s) of the TV broadcast station(s) (computed in accordance with § 73.684) encompass(es) the entire community of license of the AM station.

(2) An entity may directly or indirectly own, operate, or control up to two commercial TV stations (if permitted by paragraph (b) of this section, the local television multiple ownership rule) and 1 commercial radio station situated as described in paragraph (c)(1) of this section. An entity may not exceed these numbers, except as follows:

(i) If at least 20 independently owned media voices would remain in the market post-merger, an entity can directly or indirectly own, operate, or control up to:

(A) Two commercial TV and six commercial radio stations (to the extent permitted by paragraph (a) of this section, the local radio multiple ownership rule); or

(B) One commercial TV and seven commercial radio stations (to the extent that an entity would be permitted to own two commercial TV and six commercial radio stations under paragraph (c)(2)(i)(A) of this section, and to the extent permitted by paragraph (a) of this section, the local radio multiple ownership rule).

(ii) If at least 10 independently owned media voices would remain in the market post-merger, an entity can directly or indirectly own, operate, or control up to two commercial TV and four commercial radio stations (to the extent permitted by paragraph (a) of this section, the local radio multiple ownership rule).

(3) To determine how many media voices would remain in the market, count the following:

(i) *TV stations:* independently owned and operating full-power broadcast TV stations within the DMA of the TV station's (or stations') community (or communities) of license that have Grade B signal contours that overlap with the Grade B signal contour(s) of the TV station(s) at issue;

(ii) *Radio stations:* (A)(1) Independently owned operating primary broadcast radio stations that are in the radio metro market (as defined by Arbitron or another nationally recognized audience rating service) of:

(i) The TV station's (or stations') community (or communities) of license; or

(ii) The radio station's (or stations') community (or communities) of license; and

(2) Independently owned out-of-market broadcast radio stations with a minimum share as reported by Arbitron or another nationally recognized audience rating service.

(B) When a proposed combination involves stations in different radio markets, the voice requirement must be met in each market; the radio stations of different radio metro markets may not be counted together.

(C) In areas where there is no radio metro market, count the radio stations

present in an area that would be the functional equivalent of a radio market.

(iii) *Newspapers*: Newspapers that are published at least four days a week within the TV station's DMA in the dominant language of the market and that have a circulation exceeding 5% of the households in the DMA; and

(iv) One cable system: if cable television is generally available to households in the DMA. Cable television counts as only one voice in the DMA, regardless of how many individual cable systems operate in the DMA.

(d) *Daily newspaper cross-ownership rule*. (1) No license for an AM, FM or TV broadcast station shall be granted to any party (including all parties under common control) if such party directly or indirectly owns, operates or controls a daily newspaper and the grant of such license will result in:

(i) The predicted or measured 2 mV/m contour of an AM station, computed in accordance with §73.183 or §73.186, encompassing the entire community in which such newspaper is published; or

(ii) The predicted 1 mV/m contour for an FM station, computed in accordance with §73.313, encompassing the entire community in which such newspaper is published; or

(iii) The Grade A contour of a TV station, computed in accordance with §73.684, encompassing the entire community in which such newspaper is published.

(2) Paragraph (d)(1) of this section shall not apply in cases where the Commission makes a finding pursuant to Section 310(d) of the Communications Act that the public interest, convenience, and necessity would be served by permitting an entity that owns, operates or controls a daily newspaper to own, operate or control an AM, FM, or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (d)(1) of this section.

(3) In making a finding under paragraph (d)(2) of this section, there shall be a presumption that it is not inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper in a top 20 Nielsen DMA and one

commercial AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (d)(1) of this section, provided that, with respect to a combination including a commercial TV station,

(i) The station is not ranked among the top four TV stations in the DMA, based on the most recent all-day (9 a.m.-midnight) audience share, as measured by Nielsen Media Research or by any comparable professional, accepted audience ratings service; and

(ii) At least 8 independently owned and operating major media voices would remain in the DMA in which the community of license of the TV station in question is located (for purposes of this provision major media voices include full-power TV broadcast stations and major newspapers).

(4) In making a finding under paragraph (d)(2) of this section, there shall be a presumption that it is inconsistent with the public interest, convenience, and necessity for an entity to own, operate or control a daily newspaper and an AM, FM or TV broadcast station whose relevant contour encompasses the entire community in which such newspaper is published as set forth in paragraph (d)(1) of this section in a DMA other than the top 20 Nielsen DMAs or in any circumstance not covered under paragraph (d)(3) of this section.

(5) In making a finding under paragraph (d)(2) of this section, the Commission shall consider:

(i) Whether the combined entity will significantly increase the amount of local news in the market;

(ii) Whether the newspaper and the broadcast outlets each will continue to employ its own staff and each will exercise its own independent news judgment;

(iii) The level of concentration in the Nielsen Designated Market Area (DMA); and

(iv) The financial condition of the newspaper or broadcast station, and if the newspaper or broadcast station is in financial distress, the proposed owner's commitment to invest significantly in newsroom operations.

(6) In order to overcome the negative presumption set forth in paragraph (d)(4) of this section with respect to the combination of a major newspaper and a television station, the applicant must show by clear and convincing evidence that the co-owned major newspaper and station will increase the diversity of independent news outlets and increase competition among independent news sources in the market, and the factors set forth above in paragraph (d)(5) of this section will inform this decision.

(7) The negative presumption set forth in paragraph (d)(4) of this section shall be reversed under the following two circumstances:

(i) The newspaper or broadcast station is failed or failing; or

(ii) The combination is with a broadcast station that was not offering local newscasts prior to the combination, and the station will initiate at least seven hours per week of local news programming after the combination.

(e) *National television multiple ownership rule.* (1) No license for a commercial television broadcast station shall be granted, transferred or assigned to any party (including all parties under common control) if the grant, transfer or assignment of such license would result in such party or any of its stockholders, partners, members, officers or directors having a cognizable interest in television stations which have an aggregate national audience reach exceeding thirty-nine (39) percent.

(2) *For purposes of this paragraph (e):*

(i) National audience reach means the total number of television households in the Nielsen Designated Market Areas (DMAs) in which the relevant stations are located divided by the total national television households as measured by DMA data at the time of a grant, transfer, or assignment of a license. For purposes of making this calculation, UHF television stations shall be attributed with 50 percent of the television households in their DMA market.

(ii) No market shall be counted more than once in making this calculation.

(3) *Divestiture.* A person or entity that exceeds the thirty-nine (39) percent national audience reach limitation for television stations in paragraph (e)(1)

of this section through grant, transfer, or assignment of an additional license for a commercial television broadcast station shall have not more than 2 years after exceeding such limitation to come into compliance with such limitation. This divestiture requirement shall not apply to persons or entities that exceed the 39 percent national audience reach limitation through population growth.

(f) The ownership limits of this section are not applicable to noncommercial educational FM and noncommercial educational TV stations. However, the attribution standards set forth in the Notes to this section will be used to determine attribution for noncommercial educational FM and TV applicants, such as in evaluating mutually exclusive applications pursuant to subpart K of part 73.

NOTE 1 TO §73.3555: The words “cognizable interest” as used herein include any interest, direct or indirect, that allows a person or entity to own, operate or control, or that otherwise provides an attributable interest in, a broadcast station.

NOTE 2 TO §73.3555: In applying the provisions of this section, ownership and other interests in broadcast licensees, cable television systems and daily newspapers will be attributed to their holders and deemed cognizable pursuant to the following criteria:

a. Except as otherwise provided herein, partnership and direct ownership interests and any voting stock interest amounting to 5% or more of the outstanding voting stock of a corporate broadcast licensee, cable television system or daily newspaper will be cognizable;

b. Investment companies, as defined in 15 U.S.C. 80a-3, insurance companies and banks holding stock through their trust departments in trust accounts will be considered to have a cognizable interest only if they hold 20% or more of the outstanding voting stock of a corporate broadcast licensee, cable television system or daily newspaper, or if any of the officers or directors of the broadcast licensee, cable television system or daily newspaper are representatives of the investment company, insurance company or bank concerned. Holdings by a bank or insurance company will be aggregated if the bank or insurance company has any right to determine how the stock will be voted. Holdings by investment companies will be aggregated if under common management.

c. Attribution of ownership interests in a broadcast licensee, cable television system or daily newspaper that are held indirectly

by any party through one or more intervening corporations will be determined by successive multiplication of the ownership percentages for each link in the vertical ownership chain and application of the relevant attribution benchmark to the resulting product, except that wherever the ownership percentage for any link in the chain exceeds 50%, it shall not be included for purposes of this multiplication. For purposes of paragraph i. of this note, attribution of ownership interests in a broadcast licensee, cable television system or daily newspaper that are held indirectly by any party through one or more intervening organizations will be determined by successive multiplication of the ownership percentages for each link in the vertical ownership chain and application of the relevant attribution benchmark to the resulting product, and the ownership percentage for any link in the chain that exceeds 50% shall be included for purposes of this multiplication. [For example, except for purposes of paragraph (i) of this note, if A owns 10% of company X, which owns 60% of company Y, which owns 25% of "Licensee," then X's interest in "Licensee" would be 25% (the same as Y's interest because X's interest in Y exceeds 50%), and A's interest in "Licensee" would be 2.5% (0.1×0.25). Under the 5% attribution benchmark, X's interest in "Licensee" would be cognizable, while A's interest would not be cognizable. For purposes of paragraph i. of this note, X's interest in "Licensee" would be 15% (0.6×0.25) and A's interest in "Licensee" would be 1.5% ($0.1 \times 0.6 \times 0.25$). Neither interest would be attributed under paragraph i. of this note.]

d. Voting stock interests held in trust shall be attributed to any person who holds or shares the power to vote such stock, to any person who has the sole power to sell such stock, and to any person who has the right to revoke the trust at will or to replace the trustee at will. If the trustee has a familial, personal or extra-trust business relationship to the grantor or the beneficiary, the grantor or beneficiary, as appropriate, will be attributed with the stock interests held in trust. An otherwise qualified trust will be ineffective to insulate the grantor or beneficiary from attribution with the trust's assets unless all voting stock interests held by the grantor or beneficiary in the relevant broadcast licensee, cable television system or daily newspaper are subject to said trust.

e. Subject to paragraph i. of this note, holders of non-voting stock shall not be attributed an interest in the issuing entity. Subject to paragraph i. of this note, holders of debt and instruments such as warrants, convertible debentures, options or other non-voting interests with rights of conversion to voting interests shall not be attributed unless and until conversion is effected.

f. 1. A limited partnership interest shall be attributed to a limited partner unless that partner is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership and the licensee or system so certifies. An interest in a Limited Liability Company ("LLC") or Registered Limited Liability Partnership ("RLLP") shall be attributed to the interest holder unless that interest holder is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership and the licensee or system so certifies.

2. For a licensee or system that is a limited partnership to make the certification set forth in paragraph f. 1. of this note, it must verify that the partnership agreement or certificate of limited partnership, with respect to the particular limited partner exempt from attribution, establishes that the exempt limited partner has no material involvement, directly or indirectly, in the management or operation of the media activities of the partnership. For a licensee or system that is an LLC or RLLP to make the certification set forth in paragraph f. 1. of this note, it must verify that the organizational document, with respect to the particular interest holder exempt from attribution, establishes that the exempt interest holder has no material involvement, directly or indirectly, in the management or operation of the media activities of the LLC or RLLP. The criteria which would assume adequate insulation for purposes of this certification are described in the Memorandum Opinion and Order in MM Docket No. 83-46, FCC 85-252 (released June 24, 1985), as modified on reconsideration in the Memorandum Opinion and Order in MM Docket No. 83-46, FCC 86-410 (released November 28, 1986). Irrespective of the terms of the certificate of limited partnership or partnership agreement, or other organizational document in the case of an LLC or RLLP, however, no such certification shall be made if the individual or entity making the certification has actual knowledge of any material involvement of the limited partners, or other interest holders in the case of an LLC or RLLP, in the management or operation of the media-related businesses of the partnership or LLC or RLLP.

3. In the case of an LLC or RLLP, the licensee or system seeking insulation shall certify, in addition, that the relevant state statute authorizing LLCs permits an LLC member to insulate itself as required by our criteria.

g. Officers and directors of a broadcast licensee, cable television system or daily newspaper are considered to have a cognizable interest in the entity with which

they are so associated. If any such entity engages in businesses in addition to its primary business of broadcasting, cable television service or newspaper publication, it may request the Commission to waive attribution for any officer or director whose duties and responsibilities are wholly unrelated to its primary business. The officers and directors of a parent company of a broadcast licensee, cable television system or daily newspaper, with an attributable interest in any such subsidiary entity, shall be deemed to have a cognizable interest in the subsidiary unless the duties and responsibilities of the officer or director involved are wholly unrelated to the broadcast licensee, cable television system or daily newspaper subsidiary, and a statement properly documenting this fact is submitted to the Commission. [This statement may be included on the appropriate Ownership Report.] The officers and directors of a sister corporation of a broadcast licensee, cable television system or daily newspaper shall not be attributed with ownership of these entities by virtue of such status.

h. Discrete ownership interests will be aggregated in determining whether or not an interest is cognizable under this section. An individual or entity will be deemed to have a cognizable investment if:

1. The sum of the interests held by or through “passive investors” is equal to or exceeds 20 percent; or

2. The sum of the interests other than those held by or through “passive investors” is equal to or exceeds 5 percent; or

3. The sum of the interests computed under paragraph h. 1. of this note plus the sum of the interests computed under paragraph h. 2. of this note is equal to or exceeds 20 percent.

i.1. Notwithstanding paragraphs e. and f. of this Note, the holder of an equity or debt interest or interests in a broadcast licensee, cable television system, daily newspaper, or other media outlet subject to the broadcast multiple ownership or cross-ownership rules (“interest holder”) shall have that interest attributed if:

A. The equity (including all stockholdings, whether voting or nonvoting, common or preferred) and debt interest or interests, in the aggregate, exceed 33 percent of the total asset value, defined as the aggregate of all equity plus all debt, of that media outlet; and

B.(i) The interest holder also holds an interest in a broadcast licensee, cable television system, newspaper, or other media outlet operating in the same market that is subject to the broadcast multiple ownership or cross-ownership rules and is attributable under paragraphs of this note other than this paragraph i.; or

(ii) The interest holder supplies over fifteen percent of the total weekly broadcast programming hours of the station in which

the interest is held. For purposes of applying this paragraph, the term, “market,” will be defined as it is defined under the specific multiple ownership rule or cross-ownership rule that is being applied, except that for television stations, the term “market,” will be defined by reference to the definition contained in the local television multiple ownership rule contained in paragraph (b) of this section.

2. Notwithstanding paragraph i.1. of this Note, the interest holder may exceed the 33 percent threshold therein without triggering attribution where holding such interest would enable an eligible entity to acquire a broadcast station, provided that:

i. The combined equity and debt of the interest holder in the eligible entity is less than 50 percent, or

ii. The total debt of the interest holder in the eligible entity does not exceed 80 percent of the asset value of the station being acquired by the eligible entity and the interest holder does not hold any equity interest, option, or promise to acquire an equity interest in the eligible entity or any related entity. For purposes of this paragraph i.2, an “eligible entity” shall include any entity that qualifies as a small business under the Small Business Administration’s size standards for its industry grouping, as set forth in 13 CFR 121.201, at the time the transaction is approved by the FCC, and holds:

A. 30 percent or more of the stock or partnership interests and more than 50 percent of the voting power of the corporation or partnership that will own the media outlet; or

B. 15 percent or more of the stock or partnership interests and more than 50 percent of the voting power of the corporation or partnership that will own the media outlet, provided that no other person or entity owns or controls more than 25 percent of the outstanding stock or partnership interests; or

C. More than 50 percent of the voting power of the corporation that will own the media outlet if such corporation is a publicly traded company.

j. “Time brokerage” (also known as “local marketing”) is the sale by a licensee of discrete blocks of time to a “broker” that supplies the programming to fill that time and sells the commercial spot announcements in it.

1. Where two radio stations are both located in the same market, as defined for purposes of the local radio ownership rule contained in paragraph (a) of this section, and a party (including all parties under common control) with a cognizable interest in one such station brokers more than 15 percent of the broadcast time per week of the other such station, that party shall be treated as if it has an interest in the brokered station subject to the limitations set forth in paragraphs (a), (c), and (d) of this section. This limitation shall apply regardless of the

source of the brokered programming supplied by the party to the brokered station.

2. Where two television stations are both located in the same market, as defined in the local television ownership rule contained in paragraph (b) of this section, and a party (including all parties under common control) with a cognizable interest in one such station brokers more than 15 percent of the broadcast time per week of the other such station, that party shall be treated as if it has an interest in the brokered station subject to the limitations set forth in paragraphs (b), (c), (d) and (e) of this section. This limitation shall apply regardless of the source of the brokered programming supplied by the party to the brokered station.

3. Every time brokerage agreement of the type described in this Note shall be undertaken only pursuant to a signed written agreement that shall contain a certification by the licensee or permittee of the brokered station verifying that it maintains ultimate control over the station's facilities including, specifically, control over station finances, personnel and programming, and by the brokering station that the agreement complies with the provisions of paragraphs (b), (c), and (d) of this section if the brokering station is a television station or with paragraphs (a), (c), and (d) of this section if the brokering station is a radio station.

k. "Joint Sales Agreement" is an agreement with a licensee of a "brokered station" that authorizes a "broker" to sell advertising time for the "brokered station."

1. Where two radio stations are both located in the same market, as defined for purposes of the local radio ownership rule contained in paragraph (a) of this section, and a party (including all parties under common control) with a cognizable interest in one such station sells more than 15 percent of the advertising time per week of the other such station, that party shall be treated as if it has an interest in the brokered station subject to the limitations set forth in paragraphs (a), (c), and (d) of this section.

2. Every joint sales agreement of the type described in this Note shall be undertaken only pursuant to a signed written agreement that shall contain a certification by the licensee or permittee of the brokered station verifying that it maintains ultimate control over the station's facilities, including, specifically, control over station finances, personnel and programming, and by the brokering station that the agreement complies with the limitations set forth in paragraphs (a), (c), and (d) of this section.

NOTE 3 TO §73.3555: In cases where record and beneficial ownership of voting stock is not identical (e.g., bank nominees holding stock as record owners for the benefit of mutual funds, brokerage houses holding stock in street names for the benefit of customers,

investment advisors holding stock in their own names for the benefit of clients, and insurance companies holding stock), the party having the right to determine how the stock will be voted will be considered to own it for purposes of these rules.

NOTE 4 TO §73.3555: Paragraphs (a) through (d) of this section will not be applied so as to require divestiture, by any licensee, of existing facilities, and will not apply to applications for assignment of license or transfer of control filed in accordance with §73.3540(f) or §73.3541(b), or to applications for assignment of license or transfer of control to heirs or legatees by will or intestacy, if no new or increased concentration of ownership would be created among commonly owned, operated or controlled media properties. Paragraphs (a) through (d) of this section will apply to all applications for new stations, to all other applications for assignment or transfer, to all applications for major changes to existing stations, and to applications for minor changes to existing stations that implement an approved change in an FM radio station's community of license or create new or increased concentration of ownership among commonly owned, operated or controlled media properties. Commonly owned, operated or controlled media properties that do not comply with paragraphs (a) through (d) of this section may not be assigned or transferred to a single person, group or entity, except as provided in this Note or in the Report and Order in Docket No. 02-277, released July 2, 2003 (FCC 02-127).

NOTE 5 TO §73.3555: Paragraphs (b) through (e) of this section will not be applied to cases involving television stations that are "satellite" operations. Such cases will be considered in accordance with the analysis set forth in the Report and Order in MM Docket No. 87-8, FCC 91-182 (released July 8, 1991), in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest. An authorized and operating "satellite" television station, the Grade B contour of which overlaps that of a commonly owned, operated, or controlled "non-satellite" parent television broadcast station, or the Grade A contour of which completely encompasses the community of publication of a commonly owned, operated, or controlled daily newspaper, or the community of license of a commonly owned, operated, or controlled AM or FM broadcast station, or the community of license of which is completely encompassed by the 2 mV/m contour of such AM broadcast station or the 1 mV/m contour of such FM broadcast station, may subsequently become a "non-satellite" station under the circumstances described in the aforementioned Report and Order in MM Docket No. 87-8. However, such commonly

owned, operated, or controlled “non-satellite” television stations and AM or FM stations with the aforementioned community encompassment, may not be transferred or assigned to a single person, group, or entity except as provided in Note 4 of this section. Nor shall any application for assignment or transfer concerning such “non-satellite” stations be granted if the assignment or transfer would be to the same person, group or entity to which the commonly owned, operated, or controlled newspaper is proposed to be transferred, except as provided in Note 4 of this section.

NOTE 6 TO § 73.3555: For purposes of this section a daily newspaper is one which is published four or more days per week, which is in the dominant language in the market, and which is circulated generally in the community of publication. A college newspaper is not considered as being circulated generally.

NOTE 7 TO § 73.3555: The Commission will entertain applications to waive the restrictions in paragraph (b) and (c) of this section (the local television ownership rule and the radio/television cross-ownership rule) on a case-by-case basis. In each case, we will require a showing that the in-market buyer is the only entity ready, willing, and able to operate the station, that sale to an out-of-market applicant would result in an artificially depressed price, and that the waiver applicant does not already directly or indirectly own, operate, or control interest in two television stations within the relevant DMA. One way to satisfy these criteria would be to provide an affidavit from an independent broker affirming that active and serious efforts have been made to sell the permit, and that no reasonable offer from an entity outside the market has been received.

We will entertain waiver requests as follows:

1. If one of the broadcast stations involved is a “failed” station that has not been in operation due to financial distress for at least four consecutive months immediately prior to the application, or is a debtor in an involuntary bankruptcy or insolvency proceeding at the time of the application.

2. For paragraph (b) of this section only, if one of the television stations involved is a “failing” station that has an all-day audience share of no more than four per cent; the station has had negative cash flow for three consecutive years immediately prior to the application; and consolidation of the two stations would result in tangible and verifiable public interest benefits that outweigh any harm to competition and diversity.

3. For paragraph (b) of this section only, if the combination will result in the construction of an unbuilt station. The permittee of the unbuilt station must demonstrate that it

has made reasonable efforts to construct but has been unable to do so.

NOTE 8 TO § 73.3555: Paragraph (a)(1) of this section will not apply to an application for an AM station license in the 535–1605 kHz band where grant of such application will result in the overlap of 5 mV/m groundwave contours of the proposed station and that of another AM station in the 535–1605 kHz band that is commonly owned, operated or controlled if the applicant shows that a significant reduction in interference to adjacent or co-channel stations would accompany such common ownership. Such AM overlap cases will be considered on a case-by-case basis to determine whether common ownership, operation or control of the stations in question would be in the public interest. Applicants in such cases must submit a contingent application of the major or minor facilities change needed to achieve the interference reduction along with the application which seeks to create the 5 mV/m overlap situation.

NOTE 9 TO § 73.3555: Paragraph (a)(1) of this section will not apply to an application for an AM station license in the 1605–1705 kHz band where grant of such application will result in the overlap of the 5 mV/m groundwave contours of the proposed station and that of another AM station in the 535–1605 kHz band that is commonly owned, operated or controlled. Paragraphs (d)(1)(i) and (d)(1)(ii) of this section will not apply to an application for an AM station license in the 1605–1705 kHz band by an entity that owns, operates, controls or has a cognizable interest in AM radio stations in the 535–1605 kHz band.

NOTE 10 TO § 73.3555: Authority for joint ownership granted pursuant to Note 9 will expire at 3 a.m. local time on the fifth anniversary for the date of issuance of a construction permit for an AM radio station in the 1605–1705 kHz band.

[73 FR 9487, Feb. 21, 2008, as amended at 73 FR 28369, May 16, 2008; 75 FR 27199, May 14, 2010]

§ 73.3556 Duplication of programming on commonly owned or time brokered stations.

(a) No commercial AM or FM radio station shall operate so as to devote more than 25 percent of the total hours in its average broadcast week to programs that duplicate those of any station in the same service (AM or FM) which is commonly owned or with which it has a time brokerage agreement if the principal community contours (predicted or measured 5 mV/m groundwave for AM stations and predicted 3.16 mV/m for FM stations) of
