§ 90.135 Modification of license.

(a) In addition to those changes listed in §1.929(k) of this chapter and in accordance with §1.947 of this chapter the following modifications may be made:

(1) Change in the number and location of station control points or of control stations operating below 470 or above 800 MHz meeting the requirements of §90.119(b);

(2) Change in the number of mobile units operated by Radiolocation Service licensees.

(b) Unless specifically exempted in §90.175, licensees must submit a Form 601 application for modification to the applicable frequency coordinator for any change listed in §1.929(c)(4) of this chapter.

47 CFR Ch. I (10–1–10 Edition)

§ 90.137 Applications for operation at temporary locations.

(a) An application for authority to operate a base or a fixed transmitter at
