

under management and operating contracts, the Government is often limited in its ability to effect competition or to replace a contractor. Therefore contracting officers should take extraordinary steps before award to assure themselves that the prospective contractor's technical and managerial capacity are sufficient, that organizational conflicts of interest are adequately covered, and that the contract will grant the Government broad and continuing rights to involve itself, if necessary, in technical and managerial decisionmaking concerning performance.

(b) The contracting officer shall review each management and operating contract, following agency procedures, at appropriate intervals and at least once every 5 years. The review should determine whether meaningful improvement in performance or cost might reasonably be achieved. Any extension or renewal of an operating and management contract must be authorized at a level within the agency no lower than the level at which the original contract was authorized in accordance with 17.602(a).

(c) Replacement of an incumbent contractor is usually based largely upon expectation of meaningful improvement in performance or cost. Therefore, when reviewing contractor performance, contracting officers should consider—

(1) The incumbent contractor's overall performance, including, specifically, technical, administrative, and cost performance;

(2) The potential impact of a change in contractors on program needs, including safety, national defense, and mobilization considerations; and

(3) Whether it is likely that qualified offerors will compete for the contract.

[71 FR 38248, July 5, 2006, as amended at 74 FR 52860, Oct. 14, 2009]

## Subpart 18.1— Available Acquisition Flexibilities

### 18.101 General.

The FAR includes many acquisition flexibilities that are available to the contracting officer when certain conditions are met. These acquisition flexibilities do not require an emergency declaration or designation of contingency operation.

### 18.102 Central contractor registration.

Contractors are not required to be registered in the Central Contractor Registration (CCR) for contracts awarded to support unusual and compelling needs or emergency acquisitions. (See 4.1102). However, contractors are required to register with CCR in order to gain access to the Disaster Response Registry. Contracting officers shall consult the Disaster Response Registry at *www.ccr.gov* to determine the availability of contractors for debris removal, distribution of sup-

plies, reconstruction, and other disaster or emergency relief activities inside the United States and outlying areas. (See 26.205).

[74 FR 52849, Oct. 14, 2009]

### 18.103 Synopses of proposed contract actions.

Contracting officers need not submit a synopsis notice when there is an unusual and compelling urgency and the Government would be seriously injured if the agency complied with the notice time periods. (See 5.202(a)(2).)

### 18.104 Unusual and compelling urgency.

Agencies may limit the number of sources and full and open competition need not be provided for contracting actions involving urgent requirements. (See 6.302-2.)

### 18.105 Federal Supply Schedules (FSSs), multi-agency blanket purchase agreements (BPAs), and multi-agency indefinite delivery contracts.

Streamlined procedures and a broad range of goods and services may be available under Federal Supply Schedule contracts (see Subpart 8.4), multi-agency BPAs (See 8.405-3(a)(4)), or multi-agency, indefinite-delivery contracts (see 16.505(a)(7)). These contracting methods may offer agency advance planning, pre-negotiated line items, and special terms and conditions that permit rapid response.

### 18.106 Acquisitions from Federal Prison Industries, Inc. (FPI).

Purchase from FPI is not mandatory and a waiver is not required if public exigency requires immediate delivery or performance (see 8.605(b)).

[72 FR 46344, Aug. 17, 2007]

### 18.107 AbilityOne specification changes.

Contracting officers are not held to the notification required when changes in AbilityOne specifications or descriptions are required to meet emergency needs. (See 8.712(d).)
