26.200 Scope of subpart.

This subpart implements the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5150), which provides a preference for local organizations, firms, and individuals when contracting for major disaster or emergency assistance activities.

26.201 Definitions.

Emergency response contract means a contract with private entities that supports assistance activities in a major disaster or emergency area, such as debris clearance, distribution of supplies, or reconstruction.

Local firm means a private organization, firm, or individual residing or doing business primarily in a major disaster or emergency area.

Major disaster or emergency area means the area included in the official Presidential declaration(s) and any additional areas identified by the Department of Homeland Security. Major disaster declarations and emergency declarations are published in the Federal Register and are available at http://www.fema.gov/news/disasters.fema.

26.202 Local area preference.

When awarding emergency response contracts during the term of a major disaster or emergency declaration by the President of the United States under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121, et seq.), preference shall be given, to the extent feasible and practicable, to local firms. Preference may be given through a local area set-aside or an evaluation preference.

26.202–1 Local area set-aside.

The contracting officer may set aside solicitations to allow only local firms within a specific geographic area to compete (see 6.207).

(a) The contracting officer, in consultation with the requirements office, shall define the specific geographic area for the local set-aside.

(b) A major disaster or emergency area may span counties in several contiguous States. The set-aside area need not include all the counties in the declared disaster/emergency area(s), but cannot go outside it.

(c) The contracting officer shall also determine whether a local area set-aside should be further restricted to small business concerns in the set-aside area (see Part 19).

The contracting officer may use an evaluation preference, when authorized in agency regulations or procedures.

[73 FR 53996, Sept. 17, 2008]

26.203 Transition of work.

(a) In anticipation of potential emergency response requirements, agencies involved in response planning should consider awarding emergency response contracts before a major disaster or emergency occurs to ensure immediate response and relief. These contracts should be structured to respond to immediate emergency response needs, and should not be structured in any way that may inhibit the transition of emergency response work to local firms (e.g., unnecessarily broad scopes of work or long periods of performance).

(b) 42 U.S.C. 5150(b)(2) requires that agencies performing response, relief, and reconstruction activities transition to local firms any work performed under contracts in effect on the date on which the President declares a major disaster or emergency, unless the head of such agency determines in writing that it is not feasible or practicable. This determination may be made on an individual contract or class basis. The written determination shall be prepared within a reasonable time given the circumstances of the emergency.

(c) In effecting the transition, agencies are not required to terminate or renegotiate existing contracts. Agencies should transition the work at the earliest practical opportunity after consideration of the following:

(1) The potential duration of the disaster or emergency.

(2) The severity of the disaster or emergency.

(3) The scope and structure of the existing contract, including its period of performance and the milestone(s) at which a transition is reasonable (e.g., before exercising an option).
