

(3) Partial payments for a contract termination proposal; or

(4) Performance-based payments.

(c) Loan guarantees are made by Federal Reserve banks, on behalf of designated guaranteeing agencies, to enable contractors to obtain financing from private sources under contracts for the acquisition of supplies or services for the national defense.

(d) Payments for accepted supplies and services that are only a part of the contract requirements (*i.e.*, partial deliveries) are authorized under 41 U.S.C. 255 and 10 U.S.C. 2307. In accordance with 5 CFR 1315.4(k), agencies must pay for partial delivery of supplies or partial performance of services unless specifically prohibited by the contract. Although payments for partial deliveries generally are treated as a method of payment and not as a method of contract financing, using partial delivery payments can assist contractors to participate in contracts without, or with minimal, contract financing. When appropriate, contract statements of work and pricing arrangements must permit acceptance and payment for discrete portions of the work, as soon as accepted (see 32.906(c)).

(e)(1) Progress payments based on a percentage or stage of completion are authorized by the statutes cited in 32.101.

(2) This type of progress payment may be used as a payment method under agency procedures. Agency procedures must ensure that payments are commensurate with work accomplished, which meets the quality standards established under the contract. Furthermore, progress payments may not exceed 80 percent of the eligible costs of work accomplished on undefinitized contract actions.

(f) Performance-based payments are contract financing payments made on the basis of—

(1) Performance measured by objective, quantifiable methods;

(2) Accomplishment of defined events; or

(3) Other quantifiable measures of results.

[48 FR 42328, Sept. 19, 1987, as amended at 52 FR 30077, Aug. 12, 1987; 60 FR 49711, Sept. 26, 1995; 62 FR 12706, Mar. 17, 1997; 66 FR 65355, Dec. 18, 2001]

32.103 Progress payments under construction contracts.

When satisfactory progress has not been achieved by a contractor during any period for which a progress payment is to be made, a percentage of the progress payment may be retained. Retainage should not be used as a substitute for good contract management, and the contracting officer should not withhold funds without cause. Determinations to retain and the specific amount to be withheld shall be made by the contracting officer on a case-by-case basis. Such decisions will be based on the contracting officer's assessment of past performance and the likelihood that such performance will continue. The amount of retainage withheld shall not exceed 10 percent of the approved estimated amount in accordance with the terms of the contract and may be adjusted as the contract approaches completion to recognize better than expected performance, the ability to rely on alternative safeguards, and other factors. Upon completion of all contract requirements, retained amounts shall be paid promptly.

[51 FR 19716, May 30, 1986, as amended at 60 FR 49711, Sept. 26, 1995]

32.104 Providing contract financing.

(a) Prudent contract financing can be a useful working tool in Government acquisition by expediting the performance of essential contracts. Contracting officers must consider the criteria in this part in determining whether to include contract financing in solicitations and contracts. Resolve reasonable doubts by including contract financing in the solicitation. The contracting officer must—

(1) Provide Government financing only to the extent actually needed for prompt and efficient performance, considering the availability of private financing and the probable impact on working capital of the predelivery expenditures and production lead-times associated with the contract, or groups of contracts or orders (*e.g.*, issued under indefinite-delivery contracts, basic ordering agreements, or their equivalent);

(2) Administer contract financing so as to aid, not impede, the acquisition;

32.105

(3) Avoid any undue risk of monetary loss to the Government through the financing;

(4) Include the form of contract financing deemed to be in the Government's best interest in the solicitation (see 32.106 and 32.113); and

(5) Monitor the contractor's use of the contract financing provided and the contractor's financial status.

(b) If the contractor is a small business concern, the contracting officer must give special attention to meeting the contractor's contract financing need. However, a contractor's receipt of a certificate of competency from the Small Business Administration has no bearing on the contractor's need for or entitlement to contract financing.

(c) Subject to specific agency regulations and paragraph (d) of this section, the contracting officer—

(1) May provide customary contract financing in accordance with 32.113; and

(2) Must not provide unusual contract financing except as authorized in 32.114.

(d) Unless otherwise authorized by agency procedures, the contracting officer may provide contract financing in the form of performance-based payments (see subpart 32.10) or customary progress payments (see subpart 32.5) if the following conditions are met:

(1) The contractor—

(i) Will not be able to bill for the first delivery of products for a substantial time after work must begin (normally 4 months or more for small business concerns, and 6 months or more for others), and will make expenditures for contract performance during the predelivery period that have a significant impact on the contractor's working capital; or

(ii) Demonstrates actual financial need or the unavailability of private financing.

(2) If the contractor is not a small business concern—

(i) For an individual contract, the contract price is \$2.5 million or more; or

(ii) For an indefinite-delivery contract, a basic ordering agreement or a similar ordering instrument, the contracting officer expects the aggregate value of orders or contracts that indi-

48 CFR Ch. 1 (10-1-10 Edition)

vidually exceed the simplified acquisition threshold to have a total value of \$2.5 million or more. The contracting officer must limit financing to those orders or contracts that exceed the simplified acquisition threshold.

(3) If the contractor is a small business concern—

(i) For an individual contract, the contract price exceeds the simplified acquisition threshold; or

(ii) For an indefinite-delivery contract, a basic ordering agreement or a similar ordering instrument, the contracting officer expects the aggregate value of orders or contracts to exceed the simplified acquisition threshold.

[65 FR 16278, Mar. 27, 2000, as amended at 71 FR 57368, Sept. 28, 2006]

32.105 Uses of contract financing.

(a) Contract financing methods covered in this part are intended to be self-liquidating through contract performance. Consequently, agencies shall only use the methods for financing of contractor working capital, not for the expansion of contractor-owned facilities or the acquisition of fixed assets. However, under loan guarantees, exceptions may be made for—

(1) Facilities expansion of a minor or incidental nature, if a relatively small part of the guaranteed loan is used for the expansion and the contractor's repayment would not be delayed or impaired; or

(2) Other instances of facilities expansion for which contract financing is appropriate under agency procedures.

(b) The limitations in this section do not apply to contracts under which facilities are being acquired for Government ownership.

32.106 Order of preference.

The contracting officer must consider the following order of preference when a contractor requests contract financing, unless an exception would be in the Government's best interest in a specific case:

(a) Private financing without Government guarantee. It is not intended, however, that the contracting officer require the contractor to obtain private financing—

(1) At unreasonable terms; or

(2) From other agencies.
