requesting a pre-qualification designation notice from DHS. Such a request for a pre-qualification designation notice should be made once the requiring activity has determined that the technology specifications or statement of work are established and are unlikely to undergo substantive modification. DHS will then determine whether the technology identified in the request either affirmatively or presumptively satisfies the technical criteria for SAFETY Act designation. An affirmative determination means the technology described in the pre-qualification designation notice satisfies the technical criteria for SAFETY Act designation as a QATT. A presumptive determination means that the technology is a good candidate for SAFETY Act designation as a QATT. In either case, the notice will authorize offerors to—

(i) Submit a streamlined application for SAFETY Act designation; and

(ii) Receive expedited review of their application for SAFETY Act designation.

(b) Contracting officer responsibilities. Upon receipt of the documentation specified in paragraph (a)(3) of this subsection, the contracting officer shall—

(1) Include in any pre-solicitation notice (Subpart 5.2) that a pre-qualification designation notice has been—

(i) Requested and is under review by DHS;

(ii) Denied by DHS; or

(iii) Issued and a copy will be included with the solicitation; and

(2) Incorporate the pre-qualification designation notice into the solicitation.

50.205-3 Authorization of offers contingent upon SAFETY Act designation or certification before contract award.

(a) Contracting officers may authorize such contingent offers, only if—

(1) DHS has issued—

(i) For offers contingent upon SAFETY Act designation, a pre-qualification designation notice or a block designation; or

(ii) For offers contingent upon SAFETY Act certification, a block certification;

(2) To the contracting officer’s knowledge, the Government has not provided advance notice so that potential offerors could have obtained SAFETY Act designations/certifications for their offered technologies before release of any solicitation; and

(3) Market research shows that there will be insufficient competition without SAFETY Act protections or the subject technology would be sold to the Government only with SAFETY Act protections.

(b) Contracting officers shall not authorize offers contingent upon obtaining a SAFETY Act certification (as opposed to a SAFETY Act designation), unless a block certification applies to the class of technology to be acquired under the solicitation.

50.205-4 Authorization of awards made presuming SAFETY Act designation or certification after contract award.

(a) When necessary to award a contract prior to DHS issuing SAFETY Act protections, contracting officers may award contracts presuming that DHS will issue a SAFETY Act designation/certification to the contractor after contract award only if—

(1) The criteria of 50.205-3(a) are met;

(2) The chief of the contracting office (or other official designated in agency procedures) approves the action; and

(3) The contracting officer advises DHS of the timelines for potential award and consults DHS as to when DHS could reasonably complete evaluations of offerors’ applications for SAFETY Act designations or certifications.
