

Department of Energy

970.2304-2

the clause at 48 CFR 970.5223-1, Integration of Environment, Safety and Health into Work Planning and Execution, shall be used in such contract or subcontract and made applicable to the work if conditions in paragraphs (a)(1) through (3) of this section, are satisfied—

(1) DOE work is segregated from the contractor's or subcontractor's other work;

(2) The operation is of sufficient size to support its own safety and health services; and

(3) The facility is government-owned, or leased by or for the account of the government.

(b) The clause set forth in 952.223-72, Radiation Protection and Nuclear Criticality, shall be included in those contracts or subcontracts for, and be made applicable to, work to be performed at a facility where DOE does not elect to assert its statutory authority to enforce occupational safety and health standards applicable to the working conditions of contractor and subcontractor employees, but does need to enforce radiological safety and health standards pursuant to provisions of the contract or subcontract rather than by reliance upon Nuclear Regulatory Commission licensing requirements (including agreements with States under section 274 of the Atomic Energy Act).

[65 FR 81009, Dec. 22, 2000, as amended at 74 FR 36372, July 22, 2009]

970.2304 Use of recovered materials and biobased products.

EFFECTIVE DATE NOTE: At 75 FR 57695, Sept. 22, 2010, 970.2304 was removed, effective October 22, 2010.

970.2304-1 General.

The policy for the acquisition and use of EPA designated items, i.e., items with recovered/recycled content, is set forth at 48 CFR (FAR) 23.4—Use of Recovered Materials as supplemented by 48 CFR (DEAR) 923.405(e) and by 48 CFR (FAR) 23.704, Application to Government-owned or leased facilities, and 48 CFR (FAR) 23.705, Contract clause.

[68 FR 6359, Feb. 7, 2003]

EFFECTIVE DATE NOTE: At 75 FR 57695, Sept. 22, 2010, 970.2304-1 was removed, effective October 22, 2010.

970.2304-2 Contract clause.

The contracting officer shall insert the clause at 48 CFR (FAR) 52.223-10, Waste Reduction Program, and the clause at 970.5223-2, Affirmative Procurement Program, in contracts for the management of DOE facilities, including national laboratories. If the contractor subcontracts a significant portion of the operation of the Government facility which includes the acquisition of items designated in EPA's Comprehensive Procurement Guidelines, the subcontract shall contain a clause substantially the same as that at 970.5223-2. The EPA Comprehensive Procurement Guidelines identify products which Federal agencies and their contractors are to procure with recycled content pursuant to 40 CFR part 247. Examples of such subcontracts would be operation of the facility supply function, construction or remodeling at the facility, or maintenance of the facility motor vehicle fleet. In situations in which the facility management contractor can reasonably determine the amount of products with recovered/recycled content to be acquired under the subcontract, the facility management contractor is not required to flow down the reporting requirement of the 970.5223-2 clause. Instead, the facility management contractor may include the subcontract quantities in its own report and include an agreement in the subcontract that such products will be acquired with recovered/recycled content and that the subcontractor will advise if it is unable to procure such products with recovered/recycled content because the product is not available—

(a) Competitively within a reasonable time;

(b) At a reasonable price; or,

(c) Within the performance requirements.
