48 CFR Ch. 18 (10-1-09 Edition)

Subpart 1845.1—General

1845.106-70 NASA contract clauses and solicitation provision.

(a) The contracting officer shall insert the clause at 1852.245-70, Contractor Requests for Government-Owned Equipment, in all solicitations and contracts that have the potential for contractor acquisition of equipment for the account of the Government that is not listed as a specific contract deliverable. See 1845.7102 for instructions on preparing DD Form 1419.

(b)(1) The contracting officer shall insert the clause at 1852.245-71, Installation-Accountable Government Property, in solicitations and contracts when Government property is to be made available to a contractor working on a NASA installation, and the Government will maintain accountability for the property. The contracting officer shall list in the clause the applicable property user responsibilities. For purposes of this clause, NASA installations include local off-site buildings owned or directly leased by NASA when the contractor does not have authority to acquire property for the account of the Government.

(2) Use of this clause is subject to the SEMO's concurrence that adequate installation property management resources are available for oversight of the property in accordance with all applicable NASA installation property management directives.

(3) The contracting officer shall identify in the contract the nature, quantity, and acquisition cost of such property and make the property available on a no-charge basis.

(4) The contracting officer shall use the clause with its Alternate I if the SEMO requests that the contractor be restricted from use of the center central receiving facility for the purposes of receiving contractor-acquired property.

(5) Contracting officers shall list separately in the contract any property provided under a FAR 52.245 Government property clause that remains accountable to the contractor during its use on the contract (such as property used at the contractor's or a subcontractor's off-site facility) and which

is not also subject to the clause at 1852.245-71. The contracting officer shall address any specific maintenance considerations (e.g., requiring or precluding use of an installation calibration or repair facility) elsewhere in the contract.

(6) See 1845.106-70(e).

(c) The contracting officer shall insert the clause at 1852.245-72, Liability for Government Property Furnished for Repair and Services, in fixed-price solicitations and contracts (except for experimental, developmental, or research work with educational or non-profit institutions, where no profit is contemplated) for repair, modification, rehabilitation, or other servicing of Government property, if such property is to be furnished to a contractor for that purpose and no other Government property is to be furnished. The contracting officer shall not require additional insurance under the clause unless the circumstances clearly indicate advantages to the Government.

(d) The contracting officer shall insert the clause at 1852.245-73, Financial Reporting of NASA Property in the Custody of Contractors, in cost reimbursement contracts unless all property to be provided is subject to the clause at 1852.245-71, Installation-Accountable Government Property. The clause shall also be included in other types of contracts when it is known at award that property will be provided to the contractor or that the contractor will acquire property title to which will vest in the Government prior to delivery.

(e) When approved by the Logistics Management Division of the Headquarters Office of Infrastructure and Management (Code OJG), the contracting officer shall insert the clause at 1852.245-74, Contractor Accountable On-Site Government Property, in lieu of the clause at 1852.245-71, in solicitations and contracts when accountability rests with an on-site contractor. The contracting officer's written request for approval shall include a determination of costs that will be (1) avoided (e.g., additional costs to the installation's property management systems and staffing) and (2) incurred (e.g., reimbursable costs of the contractor to implement, staff, and oper-

ate separate property management systems on-site, and resources needed for performance of, or reimbursement for, property administration) under contractor accountability.

(f) The contracting officer shall insert the clause at 1852.245-75, Title to Equipment, in solicitations and contracts where the clause at FAR 52.245-2 with its Alternate II or 52.245-5, with its Alternate I is used.

(g) The contracting officer shall insert the clause at 1852.245-76, List of Government-Furnished Property, in solicitations and contracts if the contractor is to be accountable under the contract for Government property.

(h) The contracting officer shall insert the clause at 1852.245-77, List of Installation-Accountable Property and Services, in solicitations and contracts that require performance at the center and authorize contractor use of property within the physical borders of the center.

(i) The contracting officer shall insert the provision at 1852.245-79, Use of Government-Owned Property, in all solicitations when Government property may be used by the contractor.

(j) The contracting officer shall insert the clause at 1852.245-80, Use of Government Production and Research Property on a No-Charge Basis, in solicitations and contracts when government property (real property, commercially available equipment, special test equipment, or special tooling) accountable under another contract(s) is authorized for use.

Subpart 1845.4—Contractor Use and Rental of Government Property

1845.405 Contracts with foreign governments or international organizations.

1845.405-70 NASA procedures.

(a) NASA policy is to recover a fair share of the cost of Government production and research property if such property is used in performing services or manufacturing articles for foreign countries or for international organizations.
