#### § 40.35

- (3) Fatal flaws, correctable flaws, and how to correct problems in collections; and
- (4) The collector's responsibility for maintaining the integrity of the collection process, ensuring the privacy of employees being tested, ensuring the security of the specimen, and avoiding conduct or statements that could be viewed as offensive or inappropriate;
- (c) Initial Proficiency Demonstration. Following your completion of qualification training under paragraph (b) of this section, you must demonstrate proficiency in collections under this part by completing five consecutive error-free mock collections.
- (1) The five mock collections must include two uneventful collection scenarios, one insufficient quantity of urine scenario, one temperature out of range scenario, and one scenario in which the employee refuses to sign the CCF and initial the specimen bottle tamper-evident seal.
- (2) Another person must monitor and evaluate your performance, in person or by a means that provides real-time observation and interaction between the instructor and trainee, and attest in writing that the mock collections are "error-free." This person must be a qualified collector who has demonstrated necessary knowledge, skills, and abilities by—
- (i) Regularly conducting DOT drug test collections for a period of at least a year:
- (ii) Conducting collector training under this part for a year; or
- (iii) Successfully completing a "train the trainer" course.
- (d) Schedule for qualification training and initial proficiency demonstration. The following is the schedule for qualification training and the initial proficiency demonstration you must meet:
- (1) If you became a collector before August 1, 2001, and you have already met the requirements of paragraphs (b) and (c) of this section, you do not have to meet them again.
- (2) If you became a collector before August 1, 2001, and have yet to meet the requirements of paragraphs (b) and (c) of this section, you must do so no later than January 31, 2003.
- (3) If you become a collector on or after August 1, 2001, you must meet the

- requirements of paragraphs (b) and (c) of this section before you begin to perform collector functions.
- (e) Refresher training. No less frequently than every five years from the date on which you satisfactorily complete the requirements of paragraphs (b) and (c) of this section, you must complete refresher training that meets all the requirements of paragraphs (b) and (c) of this section.
- (f) Error Correction Training. If you make a mistake in the collection process that causes a test to be cancelled (i.e., a fatal or uncorrected flaw), you must undergo error correction training. This training must occur within 30 days of the date you are notified of the error that led to the need for retraining.
- (1) Error correction training must be provided and your proficiency documented in writing by a person who meets the requirements of paragraph (c)(2) of this section.
- (2) Error correction training is required to cover only the subject matter area(s) in which the error that caused the test to be cancelled occurred.
- (3) As part of the error correction training, you must demonstrate your proficiency in the collection procedures of this part by completing three consecutive error-free mock collections. The mock collections must include one uneventful scenario and two scenarios related to the area(s) in which your error(s) occurred. The person providing the training must monitor and evaluate your performance and attest in writing that the mock collections were "error-free."
- (g) Documentation. You must maintain documentation showing that you currently meet all requirements of this section. You must provide this documentation on request to DOT agency representatives and to employers and C/TPAs who are using or negotiating to use your services.
- [65 FR 79526, Dec 19, 2000; 66 FR 3885, Jan. 17, 2001, as amended at 66 FR 41950, Aug. 9, 2001]

## § 40.35 What information about the DER must employers provide to collectors?

As an employer, you must provide to collectors the name and telephone number of the appropriate DER (and  ${\mbox{C}}/$ 

TPA, where applicable) to contact about any problems or issues that may arise during the testing process.

## § 40.37 Where is other information on the role of collectors found in this regulation?

You can find other information on the role and functions of collectors in the following sections of this part:

 $\S 40.3$ —Definition.

§40.43—Steps to prepare and secure collection sites.

§§ 40.45-40.47-Use of CCF.

§§ 40.49-40.51—Use of collection kit and shipping materials.

§§ 40.61–40.63—Preliminary steps in collections.

 $\S40.65$ —Role in checking specimens.

§40.67—Role in directly observed collections.

§40.69—Role in monitored collections.

§40.71—Role in split specimen collections. §40.73—Chain of custody completion and fin-

§40.73—Chain of custody completion and fin ishing the collection process.

 $\S40.103$ —Processing blind specimens.

 $\S40.191$ —Action in case of refusals to take test.

§ 40.193—Action in "shy bladder" situations.

§40.199-40.205—Collector errors in tests, effects, and means of correction.

#### Subpart D—Collection Sites, Forms, Equipment and Supplies Used in DOT Urine Collections

### § 40.41 Where does a urine collection for a DOT drug test take place?

- (a) A urine collection for a DOT drug test must take place in a collection site meeting the requirements of this section.
- (b) If you are operating a collection site, you must ensure that it meets the security requirements of §40.43.
- (c) If you are operating a collection site, you must have all necessary personnel, materials, equipment, facilities and supervision to provide for the collection, temporary storage, and shipping of urine specimens to a laboratory, and a suitable clean surface for writing.
- (d) Your collection site must include a facility for urination described in either paragraph (e) or paragraph (f) of this section.
- (e) The first, and preferred, type of facility for urination that a collection site may include is a single-toilet room, having a full-length privacy

door, within which urination can occur.

- (1) No one but the employee may be present in the room during the collection, except for the observer in the event of a directly observed collection.
- (2) You must have a source of water for washing hands, that, if practicable, should be external to the closed room where urination occurs. If an external source is not available, you may meet this requirement by securing all sources of water and other substances that could be used for adulteration and substitution (e.g., water faucets, soap dispensers) and providing moist towelettes outside the closed room.
- (f) The second type of facility for urination that a collection site may include is a multistall restroom.
- (1) Such a site must provide substantial visual privacy (e.g., a toilet stall with a partial-length door) and meet all other applicable requirements of this section.
- (2) If you use a multi-stall restroom, you must either—
- (i) Secure all sources of water and other substances that could be used for adulteration and substitution (e.g., water faucets, soap dispensers) and place bluing agent in all toilets or secure the toilets to prevent access; or
- (ii) Conduct all collections in the facility as monitored collections (see § 40.69 for procedures). This is the only circumstance in which you may conduct a monitored collection.
- (3) No one but the employee may be present in the multistall restroom during the collection, except for the monitor in the event of a monitored collection or the observer in the event of a directly observed collection.
- (g) A collection site may be in a medical facility, a mobile facility (e.g., a van), a dedicated collection facility, or any other location meeting the requirements of this section.

# § 40.43 What steps must operators of collection sites take to protect the security and integrity of urine collections?

(a) Collectors and operators of collection sites must take the steps listed in this section to prevent unauthorized access that could compromise the integrity of collections.
