APPENDIX A-II TO PART 541—LINES WITH ANTTITHEFT DEVICES WHICH ARE EXEMPTED IN-PART FROM THE PARTS-MARKING REQUIREMENTS OF THIS STANDARD PURSUANT TO 49 CFR PART 543

Manufacturers	Subject lines	Parts to be marked
General Motors	Cadillac Eldorado	Engine, Transmission.
	Cadillac Concours	Engine, Transmission.
	Oldsmobile Ninety-Eight	Engine, Transmission.
	Pontiac Firebird	Engine, Transmission.
	Chevrolet Camaro	Engine, Transmission.
	Oldsmobile Eighty-Eight	Engine, Transmission.

APPENDIX C TO PART 541—CRITERIA FOR SELECTING LIGHT DUTY TRUCK LINES LIKELY TO HAVE HIGH THEFT RATES

Scope

These criteria specify the factors the Administrator will take into account in determining whether a new line is likely to have a high theft rate, and, therefore, whether such line will be subject to the requirements of this theft prevention standard.

Purpose

The purpose of these criteria is to enable the Administrator to select, by agreement with the manufacturer, if possible, those new

lines which are likely to have high theft rates.

Application

These criteria apply to lines of passenger motor vehicles initially introduced into commerce on or after September 1, 2006.

Methodology

These criteria will be applied to each line initially introduced into commerce on or after September 1, 2006. The likely theft rate for such lines will be determined in relation to the national median theft rate for 1990 and 1991. If the line is determined to be likely to have a theft rate above the national median, the Administrator will select such line for coverage under this theft prevention standard.

Criteria

1. Retail price of the vehicle line.
2. Vehicle image or marketing strategy.
3. Vehicle lines with which the new line is intended to compete, and the theft rates of such lines.
4. Vehicle line(s), if any, which the new line is intended to replace, and the theft rate(s) of such line(s).
5. Presence or absence of any new theft prevention devices or systems.

6. Preliminary theft rate for the line, if it can be determined on the basis of currently available data.

[50 FR 43190, Oct. 24, 1985, as amended at 69 FR 17967, Apr. 6, 2004; 69 FR 34613, June 22, 2004]

PART 542—PROCEDURES FOR SELECTING LIGHT DUTY TRUCK LINES TO BE COVERED BY THE THEFT PREVENTION STANDARD

Sec.

542.1 Procedures for selecting new light duty truck lines that are likely to have high or low theft rates.

542.2 Procedures for selecting low theft light duty truck lines with a majority of major parts interchangeable with those of a passenger motor vehicle line.

AUTHORITY: 49 U.S.C. 322, 33101, 33102, 33103, 33104, 33105; delegation of authority at 49 CFR 1.50.

SOURCE: 59 FR 21672, Apr. 26, 1994, unless otherwise noted.

§ 542.1 Procedures for selecting new light duty truck lines that are likely to have high or low theft rates.

(a) Scope. This section sets forth the procedures for motor vehicle manufacturers and NHTSA to follow in the determination of whether any new light duty truck line is likely to have a theft rate above or below the 1990/91 median theft rate.

(b) Application. These procedures apply to each manufacturer that plans to introduce a new light duty truck line into commerce in the United States on or after September 1, 2006, and to each of those new lines.

(c) Procedures. (1) Each manufacturer shall use the criteria in appendix C of part 541 of this chapter to evaluate each new light duty truck line and to conclude whether the new line is likely to have a theft rate above or below the 1990/91 median theft rate.

(2) For each new light duty truck line, the manufacturer shall submit its evaluations and conclusions made under paragraph (c) of this section, together with the underlying factual information, to NHTSA not less than 15 months before the date of introduction. The manufacturer may request a meeting with the agency during this period

to further explain the bases for its evaluations and conclusions.

(3) Within 90 days after its receipt of the manufacturer's submission under paragraph (c)(2) of this section, the agency independently evaluates the new light duty truck line using the criteria in appendix C of part 541 of this chapter and, on a preliminary basis, determines whether the new line should or should not be subject to § 541.2 of this chapter. NHTSA informs the manufacturer by letter of the agency's evaluations and determinations, together with the factual information considered by the agency in making them.

(4) The manufacturer may request the agency to reconsider any of its preliminary determinations made under paragraph (c)(3) of this section. The manufacturer shall submit its request to the agency within 30 days of its receipt of the letter under paragraph (c)(3) of this section. The request shall include the facts and arguments underlying the manufacturer's objections to the agency's preliminary determinations. During this 30-day period, the manufacturer may also request a meeting with the agency to discuss those objections.

(5) Each of the agency's preliminary determinations under paragraph (c)(3) of this section shall become final 45 days after the agency sends the letter specified in paragraph (c)(3) of this section unless a request for reconsideration has been received in accordance with paragraph (c)(4) of this section. If such a request has been received, the agency makes its final determinations within 60 days of its receipt of the request. NHTSA informs the manufacturer by letter of those determinations and its response to the request for reconsideration.
