FOIA Office will then place each request on one of three tracks:

(1) Track 1: Requests for which there are no records, requests that meet the criteria for expedited processing, or requests that seek records that have been produced in response to a prior request.

(2) Track 2: Requests that do not involve voluminous records or lengthy consultations with other entities.

(3) Track 3: Requests that involve voluminous records and for which lengthy or numerous consultations are required, or those requests which may involve sensitive records.

(b) Regarding expedited processing, if a requester states that he or she has a compelling need for the expedited treatment of their request, then the NTSB FOIA Office will determine whether to expedite the request and, where appropriate, do so.

§ 801.21 Initial determination.

The NTSB FOIA Officer will make an initial determination as to whether to release a record within 20 working days (excluding Saturdays, Sundays, and legal public holidays) after the request is received. This time limit may be extended up to 10 additional working days in accordance with §801.23 of this part. The person making the request will be notified immediately in writing of such determination. If a determination is made to release the requested record(s), such record(s) will be made available promptly. If the FOIA Officer determines not to release the record(s), the person making the request will, when he or she is notified of such determination, be advised of:

(a) The reason for the determination,
(b) the right to appeal the determination, and
(c) the name and title or positions of each person responsible for the denial of the request.

§ 801.22 Final determination.

Requesters seeking an appeal of the FOIA Officer’s initial determination must send a written appeal to the NTSB’s Managing Director within 20 days. The NTSB’s Managing Director will determine whether to grant or deny any appeal made pursuant to §801.21 within 20 working days (excluding Saturdays, Sundays, and legal public holidays) after receipt of such appeal, except that this time limit may be extended for as many as 10 additional working days, in accordance with §801.23.

§ 801.23 Extension.

In unusual circumstances as specified in this section, the time limits prescribed in either §801.21 or §801.22, may be extended by written notice to the person making a request and setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. Such notice will not specify a date that would result in an extension for more than 10 working days. As used in this paragraph, “unusual circumstances,” as they relate to any delay that is reasonably necessary to the proper processing of the particular request, means—

(a) The need to search for and collect the requested records from field facilities or other establishments;
(b) The need to search for, collect, and appropriately examine and process a voluminous amount of records which are the subject of a single request; or
(c) The need to consult with another agency that has a substantial interest in the disposition of the request or with two or more components of the agency having substantial subject-matter interest therein.

Subpart D—Accident Investigation Records

§ 801.30 Records from accident investigations.

Upon completion of an accident investigation, each NTSB investigator (or “group chairman,” depending on the investigation) shall complete a factual report with supporting documentation and include these items in the public docket for the investigation. The Chief, Records Management Division, will then make the records available to the public for inspection or production by an order for commercial copying.
