Office of Personnel Management

§ 250.203 Agency responsibilities.

(a) To assist in the assessment of the management of human capital in the Federal Government, and to help meet the statutory requirements to prepare that portion of the performance budget for which agency Chief Human Capital Officers are accountable, as well as relevant portions of performance and accountability reports, heads of agencies or their designees must maintain a current human capital plan and provide OPM an annual Human Capital Management Report, as outlined below, based on an approved human capital accountability system. The HCAF and the HCAF–SSM provide more specific information on coverage and content for the plan and report.

(1) Human capital plan. Using a format established by agreement between the agency and OPM, at a minimum the plan must include:

(i) Human capital goals and objectives. These are a comprehensive, integrated set of human capital goals and objectives, with detailed policy and program priorities and initiatives as appropriate, consistent with agency strategic plans and annual performance goals. These human capital goals and objectives must address each of the human capital management systems included in the HCAF.

(ii) Workforce analysis. This analysis of the agency’s workforce describes its current state, projects the human resources needed to achieve the agency’s program performance goals and objectives during the term of the agency’s strategic plan, and identifies potential shortfalls or gaps. An ongoing analysis must, for relevant agency mission requirements, describe the occupation(s) most critical to agency performance (including associated managerial and executive positions) and describe mission-critical competencies and key demographics (e.g., talent analyses, turnover, and retirement eligibility); and for each such occupation, describe its current and projected staffing levels, attrition and hiring estimates, and proposed training and development investments.

(iii) Performance measures and milestones. One or more human capital metrics, as well as appropriate program milestones, for each human capital goal or objective, provide a basis for assessing progress and results, including compliance measures with respect to relevant laws, rules and regulations. These metrics must include, but are not limited to, those described in the HCAF–SSM issued under § 250.202(b). These metrics and milestones must be specifically linked to broader agency program performance goals, to evaluate the impact of the agency’s human capital management on its overall mission performance.

(2) Human capital accountability system. This system provides for an annual assessment of agency human capital management progress and results including compliance with relevant laws, rules, and regulations. That assessment is conveyed in an annual Human Capital Management Report to OPM. The human capital accountability system must:

(i) Be formal and documented;

(ii) Be approved by OPM;

(iii) Be supported and resourced by agency leadership;

(iv) Measure and assess human capital management systems for mission alignment, effectiveness, efficiency, and compliance with merit system principles, laws, and regulations;

(v) Provide for an independent audit process, with OPM participation, for...
