

§ 838.623 Computing lengths of service.

(a) Sections 838.242 and 838.441 contain information on how OPM calculates lengths of service.

(b) Unless the court order otherwise expressly directs—

(1) For the purpose of describing a period of time to be excluded from any element of a computation, the term “military service” means military service as defined in section 8331(13) of title 5, United States Code, and does not include civilian service with the Department of Defense or the Coast Guard; and

(2) For the purpose of describing a period of time to be included in any element of a computation, the term “military service” means all periods of military and civilian service performed with the Department of Defense or the Coast Guard.

(c)(1) When a court order contains a formula for dividing employee annuity that requires a computation of service worked as of a date prior to separation and using terms such as “years of service,” “total service,” “service performed,” or similar terms, the time attributable to unused sick leave will not be included.

(2) When a court order contains a formula for dividing employee annuity that requires a computation of “creditable service” (or some other phrase using “credit” or its equivalent) as of a date prior to retirement, unused sick leave will be included in the computation (involving a CSRS employee annuity or the CSRS component of a FERS employee annuity) as follows:

(i) If the amount of unused sick leave is specified, the court order awards a portion of the employee annuity equal to the monthly employee annuity at retirement times a fraction, the numerator of which is the number of months of “creditable service” as of the date specified plus the number of months of unused sick leave specified (which sum is rounded to eliminate partial months) and whose denominator is the months of “creditable service” used in the retirement computation.

(ii) If the amount of unused sick leave is not specified, the court order awards a portion of the employee annuity equal to the monthly rate at the

time of retirement times a fraction, the numerator of which is the number of months of “creditable service” as of the date specified (no sick leave included) and whose denominator is the number of months of “creditable service” used in the retirement computation (sick leave included).

(d)(1) General language such as “benefits earned as an employee with the U.S. Postal Service * * *” provides only that CSRS retirement benefits are subject to division and does not limit the period of service included in the computation (i.e., service performed with other Government agencies will be included).

(2) To limit the computation of benefits to a particular period of employment, the court order must—

(i) Use language expressly limiting the period of service to be included in the computation (e.g., “only U.S. Postal Service” or “exclusive of any service other than U.S. Postal Service employment”); or

(ii) Specify the number of months to be included in the computation; or

(iii) Describe specifically the period of service to be included in the computation (e.g., “only service performed during the period Petitioner and Defendant were married” or “benefits based on service performed through the date of divorce”).

§ 838.624 Distinguishing between formulas and fixed amounts.

(a) A court order that contains both a formula or percentage instruction and a dollar amount is deemed to include the dollar amount only as the court’s estimate of the initial amount of payment. The formula or percentage instruction controls.

(b) A court order that awards a portion of the “present value” of an employee annuity and specifically states the amount of either the “present value” of the employee annuity or of the award is deemed to give the former spouse “a specific dollar amount” that is payable from a monthly employee annuity and will be paid as a lump-sum award in accordance with § 838.235.

§ 838.625 Types of annuity.

(a) Terms that are synonymous with net annuity are—

- (1) Disposable annuity; and
- (2) Retirement check.
- (b) Terms that are synonymous with self-only annuity are—
 - (1) Life rate annuity;
 - (2) Unreduced annuity; and
 - (3) Annuity without survivor benefit.
- (c) All court orders that do not specify net annuity or self-only annuity apply to gross annuity.

MODEL PARAGRAPHS

APPENDIX A TO SUBPART F OF PART 838—RECOMMENDED LANGUAGE FOR COURT ORDERS DIVIDING EMPLOYEE ANNUITIES

This appendix provides recommended language for use in court orders attempting to divide employee annuity. A court order directed at employee annuity should include five elements:

- Identification of the benefits;
- Instructions that OPM pay the former spouse;
- A method for computing the amount of the former spouse's benefit;
- Identification of the type of annuity to which to apply a fraction, percentage or formula; and
- Instructions on what OPM should do if the employee leaves Federal service before retirement and applies for a refund of employee contributions.

The court order may also include instructions for disposition of the former spouse's share if the former spouse dies before the employee. By using the model language, courts will know that the court order will have the effect described in this appendix.

The model language in this appendix does not award a benefit that is payable after the death of the employee. A separate, distinct award of a former spouse survivor annuity is necessary to award a former spouse a benefit that is payable after the death of the employee. Appendix A to subpart I of this part contains model language for awarding survivor annuities and contains some examples that award both a portion of an employee annuity and a survivor annuity.

The model language uses the terms “[former spouse]” to identify the spouse who is receiving a former spouse's portion of an employee annuity and “[employee]” to identify the Federal employee whose employment was covered by the Civil Service Retirement System or the Federal Employees Retirement System. Obviously, in drafting an actual court order the appropriate terms, such as “Petitioner” and “Respondent,” or the names of the parties should replace “[former spouse]” and “[employee].”

Similarly, the models are drafted for employees covered by the Civil Service Retirement System.

The name of the retirement system should be changed for employees covered by the Federal Employees Retirement System.
