

Office of Personnel Management

§ 841.605

lasted for at least 3 years of service after December 31, 1986) in which:

(1) A CSRS service credit deposit was made; and

(2) There is a subsequent retroactive change to FERS, the excess of the amount of the CSRS civilian or military service credit deposit over the FERS civilian or military deposit, together with interest computed under § 842.305 of this chapter, shall be paid to the employee or annuitant. In the case of a deceased employee or annuitant, payment is made to the individual entitled to lump-sum benefits under subpart B of part 843 of this chapter.

[52 FR 12132, Apr. 15, 1987, as amended at 57 FR 32155, July 21, 1992; 66 FR 15618, Mar. 19, 2001]

§ 841.605 Interest included in the unexpended balance.

(a) Interest on each Individual Retirement Record is computed separately.

(b) For determining the amount of interest in the unexpended balance when none of the employee deductions have been returned (e.g., employee refunds or at the time of retirement), the amount of interest in the unexpended balance equals the sum of the amounts of interest applicable to each calendar year's deductions. The amount of interest on each calendar year's deductions equals the sum of—

(1) For the calendar year in which the deductions were taken—

(i) Except during the last year of service, the amount of the employee's deductions for that calendar year times the rate of interest set under § 841.603 for that calendar year times the fraction whose numerator is the number of full months when deductions were withheld and whose denominator is 24;

(ii) During the last year of service, the amount of the employee's deductions for that year times the rate of interest set under § 841.603 for that year times the fraction—

(A) Whose numerator equals the sum of—

(1) One half times the number of months (fractional months rounded up) of that year during which the employee was employed;

(2) One for each full month of that year after the employee's service terminated; and

(B) Whose denominator is 12.

(2) For each calendar year after the year when the deductions were withheld but before the calendar year of the computation, the amount of the employee's deductions plus interest for prior years, times the rate of interest set under § 841.603 for that year; and

(3) For the year of the computation—

(i) If it is not the same calendar year that the deductions were withheld, the amount of the employee's deductions plus interest for prior years, times the rate of interest set under § 841.603 for that year times the fraction whose numerator is the number of full months that have been completed in the year of the computation and whose denominator is 12; or

(ii) If it is the same calendar year that the deductions were withheld, the amount of the employee's deductions for that year times the rate of interest set under § 841.603 for that year times the fraction—

(A) Whose numerator equals the sum of—

(1) One half times the number of months (fractional months rounded up) of that year during which the employee was employed;

(2) One for each full month of that year after the employee's service terminated; and

(B) Whose denominator is 12.

(c)(1) For adding interest to the unexpended balance after retirement, the unexpended balance including interest computed under paragraph (b) of this section is computed as of the time of retirement.

(2) Each month after retirement, the unexpended balance is reduced by the amount of annuity paid and interest is added to the remaining portion at the rate computed as follows:

(i) Add one to the interest rate under § 841.603 for the current year.

(ii) Raise the sum produced under paragraph (c)(2)(i) of this section to the $\frac{1}{12}$ power.

(iii) Subtract one from the result of paragraph (c)(2)(ii) of this section to produce the interest rate for the month.

§ 841.606

5 CFR Ch. I (1–1–10 Edition)

(d)(1) Interest on payments of the unexpended balance will be paid for the month unless the payment has been authorized before the 5th workday before the end of the month (excluding the 31st day of 31-day months).

(2) For the purposes of paragraph (d)(1) of this section, payment is authorized when the person with authority to approve the claim approves payment.

§ 841.606 Interest on survivor reduction deposits.

Interest on deposits under subpart F of part 842 of this chapter is compounded annually and accrued monthly.

(a) The initial interest on each monthly difference between the reduced annuity rate and the annuity rate actually paid equals the amount of the monthly difference times the difference between—

(1) One and six tenths raised to the power whose numerator is the number of months between the date when the monthly difference in annuity rates occurred and the date when the initial interest is computed and whose denominator is 12; and

(2) One.

(b) The total initial interest due is the sum of all of the initial interest on each monthly difference computed in accordance with paragraph (a) of this section.

(c) Additional interest on any uncollected balance will be compounded annually and accrued monthly. The additional interest due each month equals the remaining balance due times the difference between—

(1) One and six tenths raised to the $\frac{1}{12}$ power; and

(2) One.

§ 841.607 Interest on overpayment debts.

Interest on overpayment debts is computed under § 845.205(b).

Subpart G—Cost-of-Living Adjustments

SOURCE: 55 FR 14229, Apr. 17, 1990, unless otherwise noted.

§ 841.701 Purpose and scope.

(a) The purpose of this subpart is to regulate computation of cost-of-living adjustments (COLA's) for basic benefits under the Federal Employees Retirement System (FERS).

(b) This subpart provides the methodology for—

(1) Computing COLA's on each type of FERS basic benefit subject to COLA's; and

(2) Computing COLA's on annuities partially computed under FERS and partially computed under the Civil Service Retirement System (CSRS).

(c) COLA's on children's annuities are not covered by this subpart because COLA's on children's annuities are computed under CSRS rules.

§ 841.702 Definitions.

In this subpart—

Annuity supplement means the benefit under subpart E of part 842 of this chapter. An *annuity supplement* is only payable to retirees.

Basic annuity means the benefits computed under subpart D of part 842 of this chapter and payable to retirees.

Basic employee death benefit means the basic employee death benefit as defined in § 843.102 of this chapter.

Beneficiary of insurable interest annuity means a person receiving a recurring benefit under FERS that is payable (after the employee's, Members, or retiree's death) to a person designated to receive such an annuity under § 842.605 of this chapter.

COLA means a cost-of-living adjustment.

Combined CSRS/FERS annuity means the recurring benefit with a CSRS component and a FERS component. A "combined CSRS/FERS annuity" is only payable to a retiree who as an employee elected to transfer to FERS under part 846 of this chapter, who at the time of transfer had at least 5 years of service creditable under CSRS (excluding service that was subject to both social security and partial CSRS deductions), and who was covered by FERS for at least 1 month.

CSRS means the Civil Service Retirement System as described in subchapter III of chapter 83 of title 5, United States Code.
