Medically underserved area includes any of the 50 States of the United States where the Office of Personnel Management determines that 25 percent or more of the residents are located in primary medical care manpower shortage areas designated pursuant to section 332 of the Public Health Service Act (42 U.S.C. 254e).

OPM makes its annual determination by comparing the latest Department of Health and Human Services state-by-

and variations from expected community rates. In the administration of this part, OPM will accord a high priority to deciding whether to allow requests under this paragraph in whole or in part and will promptly advise the carrier of its decision. Amounts paid from the contingency reserve under paragraphs (c)(2) through (5) of this section shall be reported as subscription income in the year in which paid. By agreement with the carrier and where good cause exists, OPM may accept payment from carrier reserves for credit to the contingency reserve in an amount and under conditions other than those specified in paragraph (c) of this section. For carriers funded by LOC, the returned amount will be withdrawn from the plan’s LOC account.

§ 890.504 Disposition of contingency reserves upon reorganization or merger of plans.

Upon reorganization or merger of a plan, OPM must credit to the surviving plan the reserves of the reorganized or merged plan. If more than one plan survives, the reserves must be divided among the surviving plans in proportion to the number of enrollees continuing to subscribe to the surviving plans.
