

range countries, the known major importing countries, the Secretariat, and the Animals Committee or the Plants Committee that it is considering the listing and seek their opinions on the potential effects of the listing.

(d) *Annotation.* The listing Party may annotate the Appendix-III listing to include only specific parts, products, derivatives, or life stages, as long as the Secretariat is notified of the annotation.

(e) *U.S. procedure.* The procedure to list a species native to the United States in Appendix III is as follows:

(1) We will consult with and solicit comments from all States and Tribes where the species occurs and all other range countries.

(2) We will publish a proposed rule in the FEDERAL REGISTER to solicit comments from the public.

(3) If after evaluating the comments received and available information we determine the species should be listed in Appendix III, we will publish a final rule in the FEDERAL REGISTER and notify the Secretariat of the listing.

(f) *Removing a species from Appendix III.* We will monitor the international trade in Appendix-III species listed by us and periodically evaluate whether each species continues to meet the listing criteria in paragraph (c) of this section. We will remove a species from Appendix III provided all of the following criteria are met:

(1) International trade in the species is very limited. As a general guide, we will consider removal when exports involve fewer than 5 shipments per year or fewer than 100 individual animals or plants.

(2) Legal and illegal trade in the species, including international trade or interstate commerce, is determined not to be a concern.

(g) *Transferring a species from Appendix III to Appendix I or II.* If, after monitoring the trade and evaluating the status of an Appendix-III species we listed, we determine that the species meets the criteria in § 23.89(b) through (d) of this section for listing in Appendix I or II, we will consider whether to submit a proposal to amend the listing at the next CoP.

§ 23.91 How do I find out if a species is listed?

(a) *CITES list.* The official CITES list includes species of wildlife and plants placed in Appendix I, II, and III in accordance with the provisions of Articles XV and XVI of the Treaty. This list is maintained by the CITES Secretariat based on decisions of the Parties. You may access the official list from the CITES website (see § 23.7).

(b) *Effective date.* Amendments to the CITES list are effective as follows:

(1) Appendix-I and -II species listings adopted at the CoP are effective 90 days after the last day of the CoP, unless otherwise specified in the proposal.

(2) Appendix-I and -II species listings adopted between CoPs by postal procedures are effective 120 days after the Secretariat has communicated comments and recommendations on the listing to the Parties if the Secretariat does not receive an objection to the proposed amendment from a Party.

(3) Appendix-III species listings are effective 90 days after the date the Secretariat has communicated such listings to the Parties. A listing Party may withdraw a species from the list at any time by notifying the Secretariat. The withdrawal is effective 30 days after the Secretariat has communicated the withdrawal to the Parties.

§ 23.92 Are any wildlife or plants, and their parts, products, or derivatives, exempt?

(a) All living or dead wildlife and plants in Appendix I, II, and III and all their readily recognizable parts, products, and derivatives must meet the requirements of CITES and this part, except as indicated in paragraph (b) of this section.

(b) The following are exempt from the requirements of CITES and do not need CITES documents. You may be required to demonstrate that your specimen qualifies as exempt under this section. For specimens that are exempt from CITES requirements, you must still follow the clearance requirements for wildlife in part 14 of this subchapter and for plants in part 24 of this subchapter and 7 CFR parts 319, 352, and 355.

(1) *Appendix-III wildlife and Appendix-II or -III plants.* (i) Where an annotation

designates what is excluded from CITES requirements, any part, product, or derivative that is specifically excluded.

(ii) Where an annotation designates what is covered by the Treaty, all parts, products, or derivatives that are not designated.

(2) *Plant hybrids.* (i) Seeds and pollen (including pollinia), cut flowers, and flaked seedlings or tissue cultures of hybrids that qualify as artificially propagated (see §23.64) and that were produced from one or more Appendix-I species or taxa that are not annotated to specifically include hybrids in the CITES list.

(ii) Specimens of an Appendix-II or -III plant taxon with an annotation that specifically excludes hybrids.

(3) *Flaked seedlings of Appendix-I orchids.* Flaked seedlings of an Appendix-I orchid species that qualify as artificially propagated (see §23.64).

(4) *Marine specimens listed in Appendix II that are protected under another treaty, convention, or international agreement which was in force on July 1, 1975* as provided in §23.39(d).

(5) *Coral sand and coral fragments* as defined in §23.5.

(6) *Personal and household effects* as provided in §23.15.

(7) *Urine, feces, and synthetically derived DNA* as provided in §23.16.

(8) *Certain wildlife hybrids* as provided in §23.43.
