§ 80.24 Recreational boating access facilities.

The State must allocate 15 percent of each annual apportionment under the Dingell-Johnson Sport Fish Restoration Act for recreational boating access facilities. However, a State may allocate more or less than 15 percent of its annual allocation with the approval of the Service’s Regional Director. Although a broad range of access facilities and associated amenities can qualify for funding under the 15-percent provision, the State must accommodate power boats with common horsepower ratings, and must make reasonable efforts to accommodate boats with larger horsepower ratings if they would not conflict with aquatic resources management. Any portion of a State’s 15-percent set aside for the above purposes that remains unexpended or unobligated after 5 years must revert to the Service for apportionment among the States.

§ 80.25 Multiyear financing under the Dingell-Johnson Sport Fish Restoration Program.

(a) States may finance the acquisition of lands or interests in lands including water rights and the construction of structures and facilities utilizing multiyear funding as authorized by the Dingell-Johnson Sport Fish Restoration Act in two ways:

(1) States may finance the entire cost of the acquisition or construction from a non-Federal funding source and claim Federal reimbursement in succeeding apportionment years according to a scheduled reimbursement plan.

(2) States may negotiate an installment purchase or contract whereby periodic and specified amounts are paid to the seller or contractor and Federal reimbursements are allowed for each payment from any apportionment year current at the time of payment.

(b) Multiyear financing is subject to the following conditions:

(1) Projects must provide for prospective use of funds and be approved by the Regional Director in advance of the State’s obligation or commitment to purchase property or contract for structures or facilities.

(2) States must agree to complete the project even if Federal funds are not available. In the event the project is not completed, those Federal funds expended but not resulting in commensurate sport fishery benefits must be recovered by the State and reallocated to approved State sport fish projects.

(3) Project proposals must include a complete schedule of payments to complete the project.

(4) No costs for interest or financing shall be claimed for reimbursement.
