§ 300.173 Vessel identification.

A U.S. vessel fishing under the Treaty as amended in 2002 must be marked with its name and vessel identification prominently displayed where they will be clearly visible both from the air and from a surface vessel. Vessel identification means the U.S. Coast Guard Documentation number (or if not documented, the state registration number) followed by the letter U in the same height and size as the numerals. § 300.174 Logbook reports.

The owner of any U.S. vessel that fishes for albacore tuna in Canadian waters under the Treaty as amended in 2002 must maintain and submit to the Regional Administrator a logbook of catch and effort of such fishing. The logbook form will be provided to the vessel owner as soon as practicable after the request to be placed on the list of vessels. The logbook must be submitted to the Regional Administrator within 15 days of the end of a trip, regardless of whether the trip ends by reentry to U.S. waters or entry to Canada's territorial sea, other Canadian waters in which fishing is not permitted, or a Canadian port. If the departure is due to exit to the high seas, the vessel operator must submit the logbook within 7 days of its next landing.

§ 300.175 Hail-in and hail-out reports.

(a) The operator of any U.S. vessel that wishes to engage in fishing in waters under the fisheries jurisdiction of Canada must file a hail-in report to the Reporting Office at least 24 hours prior to engaging in fishing in such waters.

(b) The operator of a U.S. vessel that has been fishing under the Treaty as amended in 2002 must file a hail-out report to the Reporting Office within 24 hours of departing waters under the fisheries jurisdiction of Canada.

§ 300.176 Prohibitions.

It is prohibited for the owner or operator of a U.S. fishing vessel to:
