**§ 665.202 Management subareas.**

(a) The Hawaii fishery management area is divided into subareas with the following designations and boundaries:

(1) Main Hawaiian Islands means the U.S. EEZ around the Hawaiian Archipelago lying to the east of 161°20' W. long.

(2) Northwestern Hawaiian Islands means the EEZ around the Hawaiian Archipelago lying to the west of 161°20' W. long. For the purposes of regulations issued under this subpart, Midway Island is treated as part of the NWHI Subarea.

(i) Ho'omalau Zone means that portion of the EEZ around the NWHI west of 165° W. long.

(ii) Mau Zone means that portion of the EEZ around the NWHI between 161°20' W. long. and 165° W. long.

(3) Hancock Seamount means that portion of the EEZ in the Northwestern Hawaiian Islands west of 180°00' W. long. and north of 28°00' N. lat.

(b) The inner boundary of each management subarea is a line coterminous with the seaward boundaries of the State of Hawaii.

(c) The outer boundary of each management subarea is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the territorial sea is measured.

**§ 665.203 Permits.**

(a) *Applicability*—(1) *Northwestern Hawaiian Islands*. The owner of any vessel used to fish for, land, or transship Hawaii bottomfish MUS shoreward of the outer boundary of the NWHI subarea must have a permit issued under this section, and the permit must be registered for use with that vessel. PIRO will not register a single vessel for use with a Ho'omalau Zone permit and a Mau Zone permit at the same time. Mau Zone permits issued before June 14, 1999, became invalid June 14, 1999, except that a permit issued to a person who submitted a timely application under paragraph (b)(3) of this section is valid until the permit holder either re-

ceives a Mau Zone limited entry permit or until final agency action is taken on the permit holder's application. The Ho'omalau Zone and the Mau Zone limited entry systems described in this section are subject to abolition, modification, or additional effort limitation programs.

(2) *MHI non-commercial*. The owner of a vessel that is used for and any person who participates in non-commercial, vessel-based fishing, landing, or transshipment of Hawaii bottomfish MUS in the MHI management subarea is required to obtain an MHI non-commercial bottomfish permit or a State of Hawaii Commercial Marine License. If one or more persons on a vessel-based bottomfish fishing trip holds an MHI non-commercial permit, then the entire trip is considered non-commercial, and not commercial. However, if any commercial fishing occurs during or as a result of a vessel-based fishing trip, then the fishing trip is considered commercial, and not non-commercial. Charter boat customers are not subject to the requirements of the section.

(b) *Submission*. (1) An application for a permit required under this section must be submitted to PIRO as described in §665.13.

(2) Ho'omalau Zone limited access permit. In addition to an application under §665.13(c), each applicant for a Ho'omalau Zone permit must also submit a supplementary information sheet provided by PIRO, which must be signed by the vessel owner or a designee and include the following information:

(i) The qualification criterion that the applicant believes he or she meets for issuance of a limited access permit;

(ii) A copy of landings receipts or other documentation, with a certification from a state or Federal agency that this information is accurate, to demonstrate participation in the NWHI bottomfish fishery; and

(iii) If the application is filed by a partnership or corporation, the names of each of the individual partners or shareholders and their respective percentages of ownership of the partnership or corporation.

(3) Mau Zone limited access permit. PIRO will not accept applications for a new Mau Zone permit after June 14,
