§ 697.22 Exempted fishing.

The Regional Administrator or Director may exempt any person or vessel from the requirements of this part for the conduct of exempted fishing beneficial to the management of the American lobster, weakfish, Atlantic red drum, Atlantic striped bass, Atlantic sturgeon, or horseshoe crab resource or fishery, pursuant to the provisions of § 600.745 of this chapter.

(a) The Regional Administrator or Director may not grant such exemption unless it is determined that the purpose, design, and administration of the exemption is consistent with the

objectives of any applicable stock rebuilding program, the provisions of the Atlantic Coastal Act, the Magnuson-Stevens Act, and other applicable law, and that granting the exemption will not:

(1) Have a detrimental effect on the American lobster, weakfish, Atlantic red drum, Atlantic striped bass, Atlantic sturgeon, or horseshoe crab resource or fishery; or

(2) Create significant enforcement problems.

(b) Each vessel participating in any exempted fishing activity is subject to all provisions of this part, except those explicitly relating to the purpose and nature of the exemption. The exemption will be specified in a letter issued by the Regional Administrator or Director to each vessel participating in the exempted activity. This letter must be carried aboard the vessel seeking the benefit of such exemption. Exempted fishing activity shall be authorized pursuant to and consistent with § 600.745 of this chapter.

(c) The Regional Administrator, or the Director, as appropriate, may authorize a substitute vessel to haul ashore the lobster trap gear of an inoperable or mechanically-impaired federally permitted lobster vessel without having to engage in the exempted fishing process as specified in this section.

§ 697.24 Exempted waters for Maine State American lobster permits.

A person or vessel holding a valid permit or license issued by the State of Maine that lawfully permits that person to engage in commercial fishing for American lobster may, with the approval of the State of Maine, engage in commercial fishing for American lobsters in the following areas designated as EEZ, if such fishing is conducted in such waters in accordance with all other applicable Federal and State regulations:

(a) West of Monhegan Island in the area located north of the line 43.5 deg.42'08" N. lat., 69.5 deg.34'18" W. long., and 43.5 deg.42'15" N. lat., 69.5 deg.19'18" W. long.

§ 697.25 Adjustment to management measures.

(a) On or before February 15, 2001, and annually on or before February 15, thereafter, NMFS may, after consultation with the Commission, publish a proposed rule to implement additional or different management measures for Federal waters in any of the management areas specified in § 697.18 if it is determined such measures are necessary to achieve or be compatible with ISFMP objectives, or the ISFMP, to be

consistent with the national standards of the Magnuson-Stevens Act, or to meet overfishing and rebuilding requirements of the Magnuson-Stevens Act. These management measures may include, but are not limited to, continued reductions of fishing effort or numbers of traps, increases in minimum or decreases in maximum size, increases in the escape vent size, decreases in the lobster trap size, closed areas, closed seasons, landing limits, trip limits and other management area-specific measures as may be identified and recommended by the Commission prior to December 1 of the previous year. After considering public comment, NMFS may publish a final rule to implement any such measures.

(b) *Conservation equivalency measures.* The Regional Administrator may consider future recommendations for modifications to Federal regulations based on conservation equivalency for American lobster that are formally submitted to him/her in writing by the ASMFC. These recommendations must, for consideration by the Regional Administrator, contain the following supporting information:

(1) A description of how Federal regulations should be modified;

(2) An explanation of how the recommended measure(s) would achieve a level of conservation benefits for the resource equivalent to the applicable Federal regulations;

(3) An explanation of how Federal implementation of the conservation equivalent measure(s) would achieve ISFMP objectives, be consistent with the Magnuson-Stevens Act national standards, and be compatible with the effective implementation of the ISFMP; and

(4) A detailed analysis of the biological, economic, and social impacts of the recommended conservation equivalent measure(s). After considering the recommendation and the necessary supporting information, NMFS may issue a proposed rule to implement the conservation equivalent measures. After considering public comment, NMFS may issue a final rule to implement such measures.
