

## § 15b.27

(d) *Food services.* In providing food services to any of its students, a recipient to which this subpart applies may not discriminate on the basis of handicap. (1) Recipients shall serve special meals, at no extra charge, to students whose handicap restricts their diet. Recipients may require students to provide medical certification that special meals are needed because of their handicap.

(2) Where existing food service facilities are not completely accessible and usable, recipients may provide aides or use other equally effective methods to serve food to handicapped persons. Recipients shall provide all food services in the most intergrated setting appropriate to the needs of handicapped persons as required by § 15b.23(b).

### § 15b.27 Extension education.

(a) *General.* A recipient to which this subpart applies that provides extension education may not, on the basis of handicap, exclude qualified handicapped persons. A recipient shall take into account the needs of such persons in determining the benefits or services to be provided.

(b) *Delivery sites.* (1) Where existing extension office facilities are inaccessible, recipients may make aid, benefits, or services normally provided at those sites available to qualified handicapped persons through other methods which are equally effective. These methods may include meetings in accessible locations, home visits, written or telephonic communications, and other equally effective alternatives.

(2) For aid, benefits, or services delivered at other publicly-owned facilities, recipients shall select accessible facilities wherever possible. If accessible facilities cannot be selected because they are unavailable or infeasible due to the nature of the activity, recipients shall use other methods to deliver aid, benefits, or services to qualified handicapped persons. These methods may include the redesign of activities or some sessions of activities, the provision of aides, home visits, or other equally effective alternatives.

(3) For aid, benefits, or services delivered at privately-owned facilities, such

as homes and farm buildings, recipients shall use accessible facilities whenever qualified handicapped persons requiring such accessibility are participating, have expressed an interest in participating, or are likely to participate. If accessible facilities cannot be selected because they are unavailable or infeasible due to the nature of the activity, recipients shall use other methods to deliver aid, benefits, or services to qualified handicapped persons. These methods may include the redesign of activities or some sessions of activities, the provision of aides, home visits, or other equally effective alternatives.

(4) Recipients shall make camping activities accessible to qualified handicapped persons. Recipients are not required to make every existing camp, all existing camp facilities, or all camp sessions accessible, but recipients who operate more than one camp or session may not limit qualified handicapped persons to one camp or session.

(c) *Materials.* Recipients shall make materials accessible to qualified handicapped persons with sensory or mental impairments. Commonly-used materials shall be readily available in alternate forms such as Braille or tape. Upon request, recipients shall make other materials available through appropriate means such as Braille, tape, readers, large print formats, simplified versions, written scripts, or interpreters. Recipients need not provide individually prescribed devices, readers for personal use or study, or other devices or services of a personal nature.

### § 15b.28 Private education.

(a) A recipient that provides private elementary or secondary education may not, on the basis of handicap, exclude a qualified handicapped person if the person can, with minor adjustments, be provided an appropriate education, as defined by § 15b.22(b)(1)(i). Each recipient to which this section applies is also subject to the provisions of § 15b.23 and § 15b.26.

(b) A recipient to which this section applies may not charge more for the provision of an appropriate education

to handicapped persons than to non-handicapped persons except to the extent that any additional charge is justified by a substantial increase in cost to the recipient.

### Subpart E—Postsecondary Education

#### § 15b.29 Applicability.

Subpart E applies to public and private postsecondary education programs or activities, including postsecondary vocational education programs and activities, that receive Federal financial assistance provided by the Department of Agriculture after the effective date of this part.

[47 FR 25470, June 11, 1982, as amended at 55 FR 52139, Dec. 19, 1990; 68 FR 51343, Aug. 26, 2003]

#### § 15b.30 Admissions and recruitment.

(a) *General.* Qualified handicapped persons may not, on the basis of handicap, be denied admission or be subjected to discrimination in admission or recruitment by a recipient to which this subpart applies.

(b) *Admissions.* In administering its admission policies, a recipient to which this subpart applies:

(1) May not apply limitations upon the number or proportion of handicapped persons who may be admitted;

(2) May not make use of any test or criterion for admission that has a disproportionate, adverse effect on handicapped persons or any class of handicapped persons unless (i) the test or criterion, as used by the recipient, has been validated as a predictor of success in the education program or activity in question and (ii) alternate tests or criteria that have a less disproportionate, adverse effect are not shown by the Secretary to be available.

(3) Shall assure itself that (i) admissions tests are selected and administered so as best to ensure that, when a test is administered to an applicant who has a handicap that impairs sensory, manual, or speaking skills, the test results accurately reflect the applicant's aptitude or achievement level or whatever other factor the test pur-

ports to measure, rather than reflecting the applicant's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure); (ii) admissions tests that are designed for persons with impaired sensory, manual, or speaking skills are offered as often and in as timely a manner as are other admissions tests; and (iii) admissions tests are administered in facilities that, on the whole, are accessible to handicapped persons; and

(4) Except as provided in paragraph (c) of this section, may not make preadmission inquiry as to whether an applicant for admission is a handicapped person but, after admission, may take inquiries on a confidential basis as to handicaps that may require accommodation.

(c) *Preadmission inquiry exception.* When a recipient is taking remedial action to correct the effects of past discrimination pursuant to §15b.8(a) or when a recipient is taking voluntary action to overcome the effects of conditions that resulted in limited participation in its federally assisted program or activity pursuant to §15b.8(b), the recipient may invite applicants for admissions to indicate whether and to what extent they are handicapped: *Provided,* That (1) the recipient states clearly on any written questionnaire used for this purpose or makes clear orally if no written questionnaire is used that the information requested is intended for use solely in connection with its remedial action obligations or its voluntary action efforts; and (2) the recipient states clearly that the information is being requested on a voluntary basis, that it will be kept confidential, that refusal to provide it will not subject the applicant to any adverse treatment, and that it will be used only in accordance with this part.

(d) *Validity studies.* For the purpose of paragraph (b)(2) of this section, a recipient may base prediction equations on first year grades, but shall conduct periodic validity studies against the criterion of overall success in the education program or activity in question in order to monitor the general validity of the test scores.
